

LAUSD Housing Survey Assessment

OVERVIEW

The District is exploring the possibility of repurposing underutilized real estate assets to provide affordable housing for employees and families experiencing housing insecurity. As the first step of this exploratory effort, a survey is being conducted to assess the housing needs of our employees and families. It aims to gather statistically representative data to inform next steps.

GOALS

Through this effort, the District seeks to gain:

- 1 Understand the living and housing challenges of families and employees.
- 2 Define and quantify the need for affordable housing by geographic and demographic segments.
- 3 Get detailed feedback on housing issues such as desired and required price points, locations, amenities, and/or support features.

OUTCOMES

Survey findings, along with the additional stakeholder input, will help inform the identification of potential sites and development options for affordable housing.

DETAILS

WHO

Survey Assessment

- All Los Angeles Unified District employees.
- Families of students who are or could be experiencing homelessness and/or housing insecurity.

Focus Groups

Qualitative data will be gathered from potential occupants; various certificated and classified staff and families in need of more affordable rental housing. Please reach out to Housing-assessment@lausd.net if interested in participating.

Stakeholders

Discussions with District departments that would be involved in the financing, operation, and maintenance of any potential development of District housing and/or would consider affordable rental workforce housing to be a critical strategic component of their work.

WHEN

Survey Open Period: May 16 - May 31, 2024

Focus Group & Stakeholder Meetings

During the month of May and continuing through the end of the school year.

WHERE

Survey

Employees and families will receive the survey via email. Families will also receive communication from Student Health & Human Services counselors and/or their Region office.
