Approval of the Renewal Petition for Alfred B. Nobel Charter Middle (Affiliated Charter School) [PUBLIC HEARING]
Charter Schools Division

Brief Description:
(Approval of the Renewal Petition for Alfred B. Nobel Charter Middle) Recommends approval of the renewal petition for Alfred B. Nobel Charter Middle, located in Board District 3 and Region North, for six (6) years, beginning July 1, 2025, until June 30, 2031, to serve up to 1,995 students in grades 6-8 in each year of the charter term.

Action Proposed:
Approve the renewal petition for Alfred B. Nobel Charter Middle ("Charter School"), located in Board District 3 and Region North, for six (6) years, beginning July 1, 2025, until June 30, 2031, to serve to up 1,995 students in grades 6-8 in each year of the charter term. Please note, for all District affiliated charter schools, the District determines each school's operational capacity annually in accordance with District policy. The recommendation for approval is based on the information set forth in the attached Staff Assessment and Recommendation Report

Background:
Alfred B. Nobel Charter Middle is a 6-8 middle school currently serving 1,788 students on a District site at 9950 Tampa Avenue, Northridge, CA, 91324 in Board District 3 and Region North. Alfred B. Nobel Charter Middle was originally approved by the LAUSD Board of Education on June 12, 2012. On April 18, 2017, the charter school was renewed for a five-year term to serve 2,497 students in grades 6-8. Pursuant to Education Code section 47607.4, all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years, and all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for Alfred B. Nobel Charter Middle expires June 30, 2025.

On February 13, 2025, Alfred B. Nobel Charter Middle submitted its charter renewal petition application to the Charter Schools Division seeking to continue operations of its independent charter school. The 90-day statutory timeline for Board action on this petition runs through May 14, 2025.

An initial Public Hearing was held on April 8, 2025

Based on a comprehensive review and assessment of Charter School's renewal petition application and its record of performance, staff has determined that Charter School has met the requirements for renewal and therefore recommends approval of the renewal petition.

Statutory Framework and Criteria for Renewal:
A charter school must demonstrate that it is eligible for a renewal of its charter by meeting specific renewal criteria outlined in the Charter Schools Act. The renewal criteria prescribed in Education Code sections 47607

and 47607.2 requires a three-pronged analysis:

Criterion 1: The Charter Schools Act provides that renewals are governed by the standards and criteria described in Education Code section 47605 applicable to initial petitions. The first criterion considered in reviewing a renewal petition requires an analysis of the following:

- Whether the petition includes a sound educational program;
- Whether the petition contains a reasonably comprehensive description of the 15 elements required for petitions;
- Whether the petition contains an affirmation of each of the conditions described in Education Code section 47605(e); and
- Whether the charter school is likely to successfully implement the program set forth in the petition. Education Code section 47607(b) provides that renewals are governed by the standards and criteria described in section 47605 applicable to initial petitions. (The Board may not consider the community impact analysis or District fiscal analysis in determining whether to grant or deny a renewal petition).

Criterion 2: The Board is required to consider the charter school's performance on the California School Dashboard accountability indicators. Education Code sections 47607 and 47607.2 prescribe three-tiers of performance classification in which a charter school falls within one of the following categories - "high," "middle," or "low." The three-tier classification considers a charter school's performance on the California School Dashboard accountability indicators, with an emphasis on the measurements of academic performance.

Criterion 3: Notwithstanding Criterion 1 and 2, the Board must also consider whether the charter school's enrollment or dismissal practices are discriminatory as grounds for nonrenewal. (Ed. Code, § 47607 (e).) Additionally, the Board considers whether the charter school has substantial fiscal or governance factors as grounds for nonrenewal. (Ed. Code, § 47607(e).)

Expected Outcomes:
Charter School is expected to operate its school in a manner consistent with Board action, policies and requirements, local, state, and federal law including ordinances, statutes, and regulations as well as with the terms and conditions set forth in Charter School's petition. The measurable pupil outcomes and method by which pupil progress toward outcomes will be measured are set forth in the charter petition.

Board Options and Consequences:
"Yes" - If the Board adopts the recommendation of approval of the renewal charter petition, Charter School would be authorized to continue operations as a charter school for the charter term beginning July 1, 2025.

"No" - If the Board does not adopt the recommendation of approval, and instead takes specific action to deny the renewal charter petition, Charter School would not be authorized to continue operations as a charter school. The petitioners may appeal a denial to Los Angeles County Board of Education. If the petition is approved on appeal by the Los Angeles County Board of Education, Charter School would be authorized by the Los Angeles County Board of Education. If the Los Angeles County Board of Education denies the renewal petition, the petitioners may appeal that denial to the California State Board of Education. If the denial of the renewal petition is reversed by the California State Board of Education, the California State Board of Education shall designate, in consultation with the petitioners, either the LAUSD Board or the Los Angeles County Board of Education as the chartering authority. This Board Report No. 310, accompanying documents, and transcript of

the Board meeting, shall constitute the Board of Education's adopted written findings of fact for the denial of Charter School renewal petition.

Policy Implications:
All provisions in the Affiliated FSDRL shall be consistent with and be governed by all applicable legal and District policy requirements. To the extent any inconsistency may exist between any provision contained in the Affiliated FSDRL and any applicable legal and District policy requirement, those applicable legal and District policy requirements shall control and the Affiliated FSDRL shall be updated accordingly.

Budget Impact:
As an affiliated charter school, Alfred B. Nobel Charter Middle is part of the District for purposes of special education.

As an affiliated charter, all revenues generated by the school will be received by LAUSD. The District will allocate school resources in the same manner as it does a non-charter school except as otherwise specified in the statute and in applicable District policies.

Student Impact:
As stated in the LAUSD Policy and Procedures for Charter Schools, "[W]hen the LAUSD Board authorizes and oversees a charter school, it establishes a relationship to advance its vision and mission and to accelerate gains in academic achievement and accountability for all of its students and public schools," (Policy, p.3). Based on a comprehensive review and assessment of Charter School's renewal petition application, staff has determined that Charter School has met the requirements for charter school approval.

Equity Impact:
Not applicable

Issues and Analysis:
If all applicable pending issues, including but not limited to special education requirements, special education local planning area (SELPA) requirements, governance, fiscal and facilities matters, are not resolved at the time of the Board meeting, the item may be pulled from the agenda as consistent with the Charter Schools Act and the LAUSD Policy and Procedures for Charter Schools.

STAFF ASSESSMENT

I. ACTION PROPOSED

Staff recommends approval of the renewal petition for Alfred B. Nobel Charter Middle ("Nobel" or "Charter School"), located in Board District 3 and Region North, for a term of six (6) years, beginning July 1, 2025, until June 30, 2031, to serve up to 1,995 students in grades 6-8 in each year of the charter term. Please note, for all District affiliated charter schools, the District determines each school's operational capacity annually in accordance with District policy.

Pursuant to applicable law, charter schools classified as High performing may be renewed for a term of five (5), six (6), or seven (7) years. To help determine the recommended term length in these cases, staff considers various factors related to the charter school's operations and performance during the term of the charter, as noted in the *LAUSD Policy and Procedures for Charter Schools*. Specific factors related to the charter school's performance and operations during the term of the charter include, but are not limited to, the following:

- Ratings on the Annual Performance-Based Oversight Visit Report in the areas of Governance; Student Achievement and Educational Performance; and Organizational Management, Programs, and

Operations for the previous two years, and no significant unresolved issues, including, but not limited to, Notices to Cure;

- Additional academic considerations (i.e., numerically significant subgroup performance);
- Equity and access for families and pupils;
- School culture and climate; and
- Consideration of qualifying as High Performing under Criterion 1 or Criterion 2

As staff considered Alfred B. Nobel Charter Middle's renewal petition and record, staff recommends a term length of six (6) years.

II. RENEWAL REQUIREMENTS

Upon submission, District staff comprehensively reviews each renewal petition application to determine whether the school has met the requirements for renewal set forth in Education Code sections 47605, 47607, 47607.2, and 47611.5.

Criteria for Charter School Renewal and Grounds for Nonrenewal

As part of staff's holistic review of the renewal petition application, the charter school must be determined to be eligible for renewal of its charter under the specific renewal criteria outlined in the Charter Schools Act. The renewal criteria prescribed in Education Code sections 47607 and 47607.2 requires a three-pronged analysis:

- **Criterion 1:** Does the renewal petition include a sound educational program, a reasonably comprehensive description of the 15 elements required for petitions, an affirmation of each of the conditions described in Education Code section 47605(e), and are petitioners likely to successfully implement the program set forth in the petition? (Ed. Code, § 47607(b).)
  These criteria have been determined not to be bases for denial.

- **Criterion 2:** Is the charter school "high," "middle," or "low" performing? (see Ed. Code, §§ 47607(c), 47607.2(a), and 47607.2(b).) Has the charter school attained measurable increases in academic achievement schoolwide and for numerically significant student groups served by the charter school, and does the charter school have strong postsecondary outcomes, if applicable?
  These criteria have been determined not to be bases for denial.

- **Criterion 3:** Is the charter school serving all pupils who wish to attend, or does the charter school have substantial fiscal or governance issues? (Ed. Code, § 47607(e).)
  These criteria have been determined not to be bases for denial.

Charter Petition Requirement:

Consistent with Education Code section 47611.5, the petition contains a declaration that the Los Angeles Unified School District is and shall be the exclusive public school employer of the employees working at or assigned to Charter School for the purposes of the Educational Employment Relations Act (EERA), Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.

- Does the petition contain a declaration of whether or not the Los Angeles Unified School District shall be deemed the exclusive public employer of the employees of the charter school?
  This requirement has been determined not to be a basis for denial.

III. GENERAL SCHOOL INFORMATION

A. School History

	Alfred B. Nobel Charter Middle
Initial Authorization:	On June 12, 2012, Alfred B. Nobel Charter Middle was authorized by the LAUSD Board of Education to serve 2,500 students in grades 6-8.
Most Recent Renewal	The charter was renewed on April 18, 2017 for a five-year term (July 1, 2017 - June 30, 2022) to serve up to 2,497 students in grades 6-8. Pursuant to Education Code section 47607.4, all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years, and all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for Alfred B. Nobel Charter Middle expires June 30, 2025.

IV. STUDENT ACHIEVEMENT AND EDUCATIONAL PERFORMANCE

a. Summary
Nobel has been identified by the state as a High performing charter school. The recommendation for renewal has considered the schoolwide performance and performance of numerically significant student groups.

Please see the attached Alfred B. Nobel Charter Middle Data Set.

b. <u>Measurements of Academic Performance on the California School Dashboard</u>
Due to the COVID-19 pandemic, the 2022 Dashboard only displayed one year of data (also known as Status). Status Levels are reported based on the 2021-2022 school year data using one of five Status Levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status Levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Below, the 2023 and 2024 Dashboard Performance Levels (colors) based on two years' data are provided.

Academic Performance - English Language Arts

This report shows the performance levels for a single state indicator, English Language Arts, for all student groups. It also shows how the current year (status, DFS) compares to prior years (change) for each state indicator. Status and change each have five possible levels, which are displayed with the data for each indicator. A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless students, to receive a status level for each student group.

Participation Rate Report below displays the percent of students tested by content area. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English language arts and mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, California assigns the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS).

[English Learner Progress Indicator (ELPI)](#)

This report shows the percentage of current English learner (EL) students making progress towards English language proficiency at their school. The English Learner Progress Indicator (ELPI) relies on the results of the Summative English Language Proficiency Assessment (ELPAC), including Summative Alternate ELPAC results, to determine EL student progress. For the EL students taking the Summative ELPAC, those who increase an ELPI level or maintain ELPAC Level 4 are counted as making progress towards English language proficiency. ELPI Change measures the rate at which schools are improving their ability to move their EL students towards English language proficiency. It is the difference between the prior year Status and the current year Status. A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available.

Districts and schools that do not meet the 95 percent participation rate on the Summative ELPAC and Summative Alternative ELPAC and have at least 30 EL students enrolled during the testing window (February 1 to May 31) will receive a modified ELPI rate on the California School Dashboard (Dashboard). For each district and school that does not meet the 95 percent target, the minimum number of students needed to reach a participation rate of at least 95 percent is determined. The resulting number of students will be counted as not making progress in the current ELPI Status calculation.

[Chronic Absenteeism](#)

This report shows the percentage of students in Kindergarten through grade eight who were absent 10 percent or more of the school year. For most state indicators, the desired outcome is to have a high percentage of performance in the current year. However, chronic absenteeism has a reverse goal of having the lowest percentage of students chronically absent in the current year. Current and prior year data is compared to see whether a school made improvement (i.e., had a lower rate of Chronic Absenteeism in 2023 than it did in 2022) or did worse (i.e., had a higher rate in 2023). Taken together, current year data and its comparison with prior year data will give a performance level (color). A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. Suspension Rate Indicator

This report shows the number of students who have an aggregate suspension of at least one full day. A student is counted as suspended in the suspension rate only once regardless of multiple suspensions or multiple days of suspension. For most state indicators, the desired outcome is a high percentage of performance in the current year and an increase from the prior year. However, for the Suspension Rate indicator, the desired outcome is a low rate in the current year and a decline from the prior year. Current and prior year data is compared to see whether a school made improvement (i.e., had a lower rate of suspension in 2022-23 than it did in 2021-22) or did worse (i.e., had a higher rate in 2022-23 than in 2021-22). Taken together, current year data and its comparison with prior year data will give a performance level (color). A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available.

Enrollment Report

This report displays CALPADS K-12 enrollment number and percentages of select student groups. Annual enrollment consists of the number of students primarily enrolled on Census Day (the first Wednesday in October). This information was submitted by local educational agencies (LEAs) and charter schools to the California Department of Education (CDE) as part of the annual Fall 1 data submission in the California Longitudinal Pupil Achievement Data System (CALPADS). These data were reviewed and certified in CALPADS as being accurate by authorized district or school personnel. In order to certify data in CALPADS, authorized district or charter school personnel are required to review the accuracy of all data associated with the applicable CALPADS submission. The California Department of Education collects some data on GATE programs through the California Longitudinal Pupil Achievement Data System (CALPADS); however, this information is submitted by LEAs on a voluntary basis and it wouldn't necessarily be accurate as per CDE. Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at http://www.cde.ca.gov/ds/sd/sd/filesenr.asp and California School Dashboard System of Support https://www.cde.ca.gov/ta/ac/cm/.   Please note: There may be slight differences with some of the information in this report and with what is displayed in Dataquest and CA Dashboard due to changes in file modifications such as Date Modified, Date Posted, other data updates by the testing vendor and updates in CALPADS.

RECLASSIFICATION RATES

This reports shows a two year comparison of the number of English Learners (ELs) on Census Day, the number of students reclassified since the prior Census Day, and the reclassification rate for each specified year. The reclassification rate, displayed in percentage, is calculated by dividing the number reclassified by the number of prior year ELs.

Long-Term English Learners (LTEL) and "At-Risk"

Note: The "EL Total" column in this report displays the summed total of the disaggregated English Learner (EL) data in the four columns under the "English Learners" heading. The "Total (Ever-EL)" column displays the summed total of the data in the "RFEP" column plus the data in the four columns under the "English Learners" heading OR the data in the "EL Total" column, but not both. The percent values displayed in this report are calculated as a percent of the "Total (Ever-EL)" which fully and more accurately considers what happens to all EL students over time, including those who are Reclassified Fluent English Proficient (RFEP). Students with Disabilities Report

This report displays the K-12 enrollment and the number of K-12 students with disabilities total, by incidence category, and by eligibility as reported on the Census Day (First Wednesday in October) CALPADS Fall 1 Certified Student Profile List Report (Report 8.1) submitted by LEAs (Local Education Agencies). LEAs are required to "certify" specified data during submission windows. The CDE uses certified data for state and federal reporting and to develop accountability metrics. Once data are certified by an LEA following the close of the Amendment Window, they are "frozen" and cannot be amended   Note: Students with disabilities counts and percentages in this report may be higher or lower for some schools when comparing this report counts with 2021-22 Enrollment by Student Group counts posted in DataQuest by the CDE due to the accuracy of all data associated with the applicable CALPADS submission. CALPADS certification is a two-step process with Level-2 certification reserved for the district superintendents, charter school administrators, or their designees. High incidence eligibilities are indicated by an asterisk (*). [Academic Performace - English Language Arts](#)

This report shows the performance levels for a single state indicator, English Language Arts, for all student groups. It also shows how the current year (status, DFS) compares to prior years (change) for each state indicator. Status and change each have five possible levels, which are displayed with the data for each indicator. A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless students, to receive a status level for each student group.

Participation Rate Report below displays the percent of students tested by content area. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English language arts and mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, California assigns the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS).

Participation Rate Report below displays the percent of students tested by content area. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English language arts and mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, California assigns the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS).

English Learner Progress Indicator (ELPI)

This report shows the percentage of current English learner (EL) students making progress towards English language proficiency at their school. The English Learner Progress Indicator (ELPI) relies on the results of the Summative English Language Proficiency Assessment (ELPAC), including Summative Alternate ELPAC results, to determine EL student progress. For the EL students taking the Summative ELPAC, those who increase an ELPI level or maintain ELPAC Level 4 are counted as making progress towards English language proficiency. ELPI Change measures the rate at which schools are improving their ability to move their EL students towards English language proficiency. It is the difference between the prior year Status and the current year Status. A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available.

Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at http://www.cde.ca.gov/ds/sd/filesenr.asp and California School Dashboard System of Support https://www.cde.ca.gov/ta/ac/cm/.   Please note: There may be slight differences with some of the information in this report and with what is displayed in Dataquest and CA Dashboard due to changes in file modifications such as Date Modified, Date Posted, other data updates by the testing vendor and updates in CALPADS.

Districts and schools that do not meet the 95 percent participation rate on the Summative ELPAC and Summative Alternative ELPAC and have at least 30 EL students enrolled during the testing window (February 1 to May 31) will receive a modified ELPI rate on the California School Dashboard (Dashboard). For each district and school that does not meet the 95 percent target, the minimum number of students needed to reach a participation rate of at least 95 percent is determined. The resulting number of students will be counted as not making progress in the current ELPI Status calculation.

Note: Schools that do not meet the 95 percent participation rate on the Summative ELPAC and Summative Alternative ELPAC and have at least 30 EL students enrolled during the testing window (February 1 to May 31) will receive a modified ELPI rate on the California School Dashboard (Dashboard).

2024 Student English Language Acquisition Results

The percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

[Chronic Absenteeism](#)

This report shows the percentage of students in Kindergarten through grade eight who were absent 10 percent or more of the school year. For most state indicators, the desired outcome is to have a high percentage of performance in the current year. However, chronic absenteeism has a reverse goal of having the lowest percentage of students chronically absent in the current year. Current and prior year data is compared to see whether a school made improvement (i.e., had a lower rate of Chronic Absenteeism in 2023 than it did in 2022) or did worse (i.e., had a higher rate in 2023). Taken together, current year data and its comparison with prior year data will give a performance level (color). A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. A double dash "--" means that data is not currently available.

[Suspension Rate Indicator](#)

This report shows the number of students who have an aggregate suspension of at least one full day. A student is counted as suspended in the suspension rate only once regardless of multiple suspensions or multiple days of suspension. For most state indicators, the desired outcome is a high percentage of performance in the current year and an increase from the prior year. However, for the Suspension Rate indicator, the desired outcome is a low rate in the current year and a decline from the prior year. Current and prior year data is compared to see whether a school made improvement (i.e., had a lower rate of suspension in 2022-23 than it did in 2021-22) or did worse (i.e., had a higher rate in 2022-23 than in 2021-22). Taken together, current year data and its comparison with prior year data will give a performance level (color). A single asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students and is not reported for privacy reasons.
