## **Assurances, Affirmations, and Declarations**

Discovery Charter Preparatory #2 (also referred to herein as “DCP2” and “Charter School”) shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter “Ed. Code”) § 47605(e)(1).)
- Not charge tuition. (Ed. Code § 47605(e)(1).)
- Not discriminate against any pupil on the basis of disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, including immigration status. (Ed. Code § 47605(e)(1); Ed. Code § 220.)
- Except as provided in Education Code section 47605(e)(2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that school. (Ed. Code § 47605(e)(1).)
- Admit all pupils who wish to attend Charter School. (Ed. Code § 47605(e)(2)(A).)
- Except for existing pupils of Charter School, determine attendance by a public random drawing if the number of pupils who wish to attend Charter School exceeds Charter School’s capacity. Preference shall be extended to pupils currently attending Charter School and pupils who reside in the Los Angeles Unified School District (also referred to herein as “LAUSD” and “District”). Preferences shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation, and shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment. (Ed. Code § 47605(e)(2)(B).)
- Charter school shall not encourage a pupil currently attending the Charter School to disenroll from the Charter School or transfer to another school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code section 47605(e)(2)(B)(iii). (Ed. Code § 47605(e)(4).)

- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card, and health information. (Ed. Code § 47605(e)(3).)
- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(d)(1).)
- Consult, on a regular basis, with Charter School's parents, legal guardians, and teachers regarding the school's educational programs. (Ed. Code § 47605(d)(2).)

Charter School hereby declares that Charter School, operated as or by its nonprofit public benefit corporation, is and shall be the exclusive public school employer of Charter School's employees for the purposes of the Educational Employment Relations Act (EERA), Chapter 10.7 (commencing with Section 3540) of Division 4 of Title I of the Government Code. Charter School shall comply with all provisions of the EERA and shall act independently from LAUSD for collective bargaining purposes. In accordance with the EERA, employees may join and be represented by an organization of their choice for collective bargaining purposes.

NOTE: This Charter contains specific "Federal, State and District Required Language" (FSDRL), including the *Assurances, Affirmations, and Declarations* section above. The FSDRL should be highlighted in gray within each Charter element or section. The final section of the Charter provides a consolidated addendum of the FSDRL. This intentional redundancy facilitates efficient charter petition review while ensuring ready access to the FSDRL for any given section of the Charter. To the extent that any inconsistency may exist between any provision contained within the body of the Charter and the FSDRL contained in the addendum, the provisions of the FSDRL addendum shall control.

## **Element 1: The Educational Program**

In accordance with Education Code sections 47604.33 and 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(c)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time. Charter School shall comply with all requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School “shall consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the local control and accountability plan and annual update to the local control and accountability plan.” (Ed. Code § 47606.5(d).)***

### **Academic Calendar and Schedules**

#### **Transitional Kindergarten (N/A)**

**Charter School shall comply with all applicable requirements regarding transitional kindergarten. For purposes of admission to Charter School, transitional kindergarten shall be considered a part of kindergarten, and therefore students enrolled in transitional kindergarten at Charter School shall be considered existing students of Charter School for purposes of Charter School's admissions, enrollment, and lottery.**

#### **WASC Accreditation**

**If Charter School serves students in grades 9-12, before Charter School graduates its first class of students, Charter School shall obtain, and thereafter maintain, Western Association of Schools and Colleges (WASC) accreditation.**

#### **English Learners**

**Charter School shall identify potential English Learners in a timely manner in accordance with all applicable legal requirements. Charter School must provide all English Learners with an effective English language acquisition program that also affords meaningful and equitable access to Charter School's core academic curriculum. Instructional plans for English Learners must be (1) based on sound educational theory; (2) adequately supported with trained teachers and appropriate materials and resources; and (3) periodically evaluated to make sure the program is successful and modified when the program is not successful.**

**On an annual basis, upon request, Charter School shall submit a certification to the LAUSD Charter Schools Division (CSD) that certifies that Charter School has adopted and is implementing either the LAUSD Master Plan for English Learners and Standard English Learners or Charter School's own English Learner (EL) Master Plan. If Charter School chooses to implement its own EL Master Plan, the plan shall provide a detailed description of Charter School's EL program, and shall address the following:**

- How Charter School's EL Master Plan provides all of its English Learners, including but not limited to Long Term English Learners (LTELs) with an effective English language acquisition program as well as meaningful and equitable access to Charter School's core academic curriculum**
- How English Learners' specific needs will be identified**

**Charter School shall reclassify English Learners in accordance with federal and state requirements.**

**Charter School shall provide parent outreach services and meaningfully inform parents with limited English proficiency of important information regarding Charter School matters to the same extent as other parents.**

#### **Students with Disabilities**

##### **Federal Law Compliance**

**Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.**

##### **Special Education Program**

**Charter School shall ensure that no student otherwise eligible to enroll in Charter School shall be denied, directly or indirectly, admission due to a disability or to Charter School's inability to provide necessary services. Charter School acknowledges that policies and procedures are in place to ensure the recruitment, enrollment, service, and retention of students with disabilities at LAUSD-authorized charter schools, including Charter School.**

**Prior to LAUSD Board of Education approval of an initial Charter petition, and if a renewing Charter School intends to operate as a "school of the district" for special education services, Charter School shall execute a Memorandum of Understanding ("MOU") by and between LAUSD and Charter School regarding the provision and funding of special education services consistent with applicable state law and the LAUSD Special Education Local Plan Area ("SELPA") Local Plan for Special Education and shall be considered a "public school of the District" for purposes of Special Education pursuant to Education Code section 47641(b). However, Charter School reserves the right to make written verifiable assurances that it may become an independent local educational agency (LEA) and join a SELPA pursuant to Education Code section 47641(a) either on its own or with a grouping of charter school LEAs as a consortium following the requirements of Education Code section 56195.3(b). In this instance, Charter School will execute a MOU with LAUSD on provisions of special education as a member of a non-LAUSD SELPA.**

##### **SELPA Reorganization**

**The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding ("MOU"), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a**

**similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.**

**Use of District's Special Education Policies and Procedures and Data Systems**

**All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of orders imposed upon the District pertaining to special education. All charter schools are required to use the District's Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs ("IEPs") and tracking of related services provided to students during the course of their education.**

**All charter schools are required to interface with My Integrated Student Information System (MiSiS) via a web based Application Programming Interface (API). MiSiS is a suite of applications which is designed to capture all student data.**

## Community Need for Charter School

Discovery Charter Preparatory #2 was founded in 2002 as a quality public school alternative to the traditionally large high schools in the San Fernando Valley. At the time, LAUSD's focus on reconfiguring schools to be small learning communities on a single campus created stiff competition for enrollment, particularly in Pacoima. The Pacoima community faced unique socio-economic and safety concerns including a growing number of gangs in the 91331 zip code. Students faced tremendous barriers to their safety and well-being both inside traditional schools and generally in the community. Taken together, students had become somewhat apathetic to education, as their daily concern was to survive. Discovery Charter Preparatory #2 was designed to be a small, nurturing, and safe educational environment for any student who wished to attend.

Student Group Multi-Year Enrollment Summary 2017-2024							
	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24
Hispanic	97%	96.6%	97.2%	97%	93.5%	97.9%	96.7%
English Learners (EL)	16.5%	12.3%	6.9%	7.3%	8%	6.3%	8.6%
Students with Disabilities (SwD)	12.6%	8.4%	10.5%	15.9%	12.6%	9.9%	16.2%
Socioeconomically Disadvantaged	84.3%	80.8%	84.3%	73.7%	71.9%	60.2%	56.7%

Over the years, the DCP2 student population has remained almost exclusively Hispanic, with Spanish as the primary language spoken in the home. Most of the students have been redesignated as English Proficient, either prior to arriving at DCP2 or while enrolled. While important, the reclassification status prior to high school should be interpreted as multilingual learners having demonstrated only basic skills in English. When the demands of secondary instruction are considered, we see the majority of these students still requiring a considerable amount of language support to complete academic tasks in English. They still require intensive support and focused instruction to further develop high school-level academic language skills.

Examination of CALPADS enrollment data over the charter term appears to show a declining rate of socioeconomically disadvantaged students at DCP2. However, this decline correlates to the onset of the COVID 19 pandemic and the change in the method for gathering information on socioeconomic status. With the introduction of California's Universal Free Meals after the pandemic, families have had little incentive to submit this information through the Federal Free and Reduced Price Meal applications. The apparently declining rates of socioeconomically disadvantaged students at DCP2 reflects the new challenge of information-collection and not a sudden change in circumstances for

the school's families. This leads to inaccurate reflection of DCP2 demographics, as well as a reduction in LCFF funding.

The school's small design and nurturing environment has made it an attractive choice for families of students with disabilities. In 2023-24, the percentage of Students with Disabilities increased from 9.9% to 16.2%.

### **Charter Renewal Criteria and Eligibility**

Evidence of Meeting Charter Renewal Standards Pursuant to Education Code Section 47607.2(b)

Pursuant to the amendments made to Education Code Section 47607, and the creation of Education Code Section 47607.2, by Assembly Bill 1505 (2019), at the time of charter renewal, a chartering authority shall consider the performance of the charter school on the state and local indicators reported on the California School Dashboard ("Dashboard"), and, in some circumstances, the performance of the charter school on assessments deemed to be verified data.

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system of evaluating charter schools' performance, plus a separate category for Dashboard Alternative School Status schools. Each of the three tiers has unique qualifying criteria.

The three performance categories are as follows:

- High Performing – Presumptive renewal if the charter school meets the established renewal criteria—Education Code Section 47607(c)(2).
- Low Performing – Presumptive non-renewal if the charter school meets the non-renewal criteria, unless the chartering authority makes a finding to approve for a two-year term — Education Code Section 47607.2(a).
- Middle Performing – Renewal unless closure is in the best interest of students, evaluated using the California School Dashboard (the "Dashboard") and Education Code Section 47607.2(b).

For the first time since 2020, the CDE has published a list of high-, middle-, and low-performing charter schools. DCP2 is pleased to have been deemed a middle-performing school by the CDE and is thus eligible for a five-year renewal term.

The 2023 Dashboard is the first since 2019 to display the intended red, orange, yellow, green, and blue colors for schools' status and change scores in the state indicators. The 2022 Dashboard uses one of five Status levels (ranging from Very High, High, Medium, Low,

and Very Low) for all state indicators based on the 2021-22 school year data. As such, the 2023 Dashboard is not based on two years of color-based performance.

The state indicators include the following:

- Suspension Rate: kindergarten through grade twelve
- English Learner Progress: grades one through twelve
- Graduation Rate: high school only
- College/Career: high school only (Note: The College/Career Indicator will not be reported on the 2022 Dashboard)
- Academic: grades three through eight and grade eleven – English language arts/literacy and Mathematics

Again, DCP2 fits into the middle performing category, as determined by law and the California Department of Education, and is eligible, and as clearly demonstrated by the evidence meets the criterion, for charter renewal for a term of 5 years, as shown below.

For middle-performing charter schools, Education Code Section 47607.2(b) mandates that the District consider the performance, schoolwide and for all student subgroups, of the Charter School on the state and local indicators on the Dashboard. The District shall provide greater weight to measurements of academic performance, which include the California Assessment of Student Performance and Progress (“CAASPP”) ELA and math assessments, the English Learner Progress indicator (“ELPI”), and the College/Career indicator (“CCI”).

Further, in addition to the state and local indicators on the Dashboard, the District shall also consider evidence, from assessments deemed verified data by the State Board of Education, showing measurable increases in academic achievement (at least one year’s progress for each year in school), or showing strong postsecondary outcomes (college enrollment, persistence, and completion rates equal to similar peers).

DCP2’s focuses on student achievement and preparing students for college, and career readiness executes multiple methods of measuring academic growth and college preparedness over time. With each release of achievement data, DCP2 reviews and analyzes the data for intentional next steps in gaining better outcomes by adjusting professional development, better aligning curriculum to the state standards, and offering additional support for students, parents, and staff.

### *School Climate & Culture*

As discussed previously, since opening, DCP2’s focus has been on creating a safe, supportive learning environment for every student. Post-pandemic, the dedication to achieving that goal was expanded to include reconnecting at-risk students to education and building relationships that focused on their success. This involved implementing robust counseling programs, community engagement initiatives, and strong partnerships with local organizations to address not just educational needs but also social and emotional barriers.

An oft cited reason families give for their decision to enroll at DCP2 is the importance of knowing students are safe during the instructional day. Families who tour the site prior to enrollment inquire about fights and culture/climate. We explain to families that DCP2 was intentionally designed to be small so that every adult knows every student. This close, familial environment contributes to an overall sense of safety and belonging for the students. Because everybody knows everybody, the school does not face the typical challenges of larger schools, and fights at DCP2 are extremely rare. At DCP2, we proudly share our suspension rate data and how we go about developing relationships with each student to ensure these external concerns do not seep into our culture and disrupt our focus.

To reduce gang identity and gang-related bullying, DCP2 enforces a strict school uniform/dress code. Upon enrollment, uniform shirts are provided for all new students and additional shirts are available for a fee. When a student is out of dress code, parents are notified and asked to bring the correct clothing. If the dress code violation is repeated, parents will be asked to come for a parent meeting with the Principal or the Dean of Student Culture. This has helped keep students more focused on their learning and less worried about inadvertent gang signaling. This seemingly simple measure, along with a focus on restorative practices and strong relationships with caring adults, has reduced student fights to only one per year, and reduced suspensions to 0.5% in 2023-24.

The drop in suspensions to 3.1% in 2022 and further to 0.5% in 2023 shows a remarkable recovery and improvement in student behavior and school culture. The DCP2 board adopted the Positive Behavior Intervention and Support (“PBIS”) Plan along with a disciplinary framework centered on restorative practices. In addition, a variety of community partnerships were established to foster a positive school culture:

- Kaiser Permanente: Presents assemblies about positive relationships, peer pressure, bullying and other teen issues. They also offer substance abuse and

mental health counseling, and physicals for sports. Students are notified of these additional services through the school assemblies. Parents are notified of these services through an informational flyer upon enrollment, and student being referred to Multi-Tiered System of Supports (“MTSS”) will also be referred to these services.

- Phoenix House: Provides counseling and substance abuse for teens who are referred from the Charter School for vaping or other emotional issues.
- Tarzana Treatment Center: Provides counseling in the Palmdale/Lancaster area for substance abuse for teens who are referred by their families. Tarzana works directly with families upon recommendation of the Charter School.
- Luminarias: Provides counseling for families as well as students. The school counselor refers students and families to this program. Sessions happen on campus, and off campus, if needed.
- Pueblo Y Salud: Provides youth leadership and advocacy training in the classrooms or in schoolwide assemblies. They also support with student council and leadership-building.

Going forward, Discovery Charter Preparatory School will focus on:

- **Strengthening Counseling Services:** Continuing to expand and enhance counseling services to support students' mental health and well-being.
- **Conflict Resolution Programs:** Implementing and promoting conflict resolution programs to equip students with the skills to manage disputes constructively.
- **Community Engagement:** Increasing community involvement and support to create a more inclusive and supportive school environment.
- **Ongoing Professional Development:** Providing ongoing training for staff to effectively support students and manage behavior proactively.

These efforts aim to sustain and further improve the positive trend in suspension rates, ensuring a safe and supportive learning environment for all students.

## Chronic Absenteeism

The Chronic Absenteeism Indicator represents the percentage of students who were absent for 10% or more of the instructional days they were enrolled to attend.

Chronic Absenteeism						
2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24
17.6%	14.8%		17.6%	49.8%	41.4%	33.2%

Source: California Department of Education DataQuest, Chronic Absenteeism Rate, Disaggregated by Academic Year, Retrieved August 2024

DCP2 had challenges with chronic absenteeism even prior to the pandemic. One pattern is that parents need to work early, and students are on their own to get to school. Some students who drive to school are either taking advantage of the freedom or are choosing to work instead of coming to school. A lingering effect of the pandemic has been students aging out of parental authority, so as a result, the Charter School is the primary source for supporting students to persist to graduation.

The decline in chronic absenteeism in 2022-23 suggests that our concerted efforts to improve student engagement and support are beginning to have a positive effect. These efforts include:

- **Daily Attendance & Parent Contact:** Period attendance and full day attendance are actively tracked. When a student is absent from a class, the Office Clerk initiates contact with the parent to notify the family of the absence.
- **Monthly Attendance Monitoring:** Monthly reports are run by the Office Manager to coordinate a meeting with the family regarding the concern about attendance. Based on predetermined thresholds for absences, the Principal and Dean of School Culture meet relevant staff and families to determine the level of intervention (e.g., Tier I, II or III).
- **Attendance Tier II:** Personalized attendance plans and home visits
- **Attendance Tier III:** Personalized counseling sessions to address individual student needs, challenges, and barriers to attendance
- **Implementing group counseling** to address common challenges, such as anxiety, stress, and academic pressures, which fostered a sense of community and belonging
- **Improving communication** with families regarding attendance concerns and progress, which resulted in stronger family partnerships and more inclusive, two-way family engagement

- Connecting families to resources such as mental health services, tutoring programs, and housing assistance to address external barriers to attendance

We have also implemented rewards and recognition of students for improved attendance through the Charter School's incentive program (PBIS Rewards), which fostered a positive school culture around being present

DCP2 regularly analyzes attendance data and counseling outcomes to assess the effectiveness of these interventions, and adjusts strategies as needed.

### State Testing

High schools in California only administer standardized tests in grade 11. The resulting CA Dashboard academic indicators are then a reflection of an extremely small cohort of students at DCP2 in a single year. The eleventh grade cohort size has ranged from 39 to 69 students over the charter term, with the 2024 cohort at 47 students. Small cohort sizes lead to volatility in the Dashboard.

Beginning in 2024, DCP2 is administering local assessments (state verified data source) three times per year to monitor the academic trajectory of students at all grade levels. The Charter School has focused on decreasing chronic absenteeism and reducing student anxiety towards assessments to ensure that participation rates for local assessments meet the 95% threshold and that there is sufficient data for determining effective interventions and programmatic adjustments.

At the start of the current charter term in July 2017, DCP2’s ELA Smarter Balanced scores decreased by 8% in the meets/exceeds standards levels based on the schoolwide performance which corresponded to a “red” (-51.8 DFS) ELA Indicator. Additionally, this decline of 18 points DFS led to the identification of the Charter School for the federal assistance status of “CSI”.

The Charter School was eligible to receive federal funding to address the root causes of the unsatisfactory performance. While these funds were used across the Charter School, the specific shifts needed to positively impact student performance included:

- (1) Focus on written communication including exposure to writing in response to CCSS-based prompts, providing multiple opportunities to practice writing using rubrics and providing feedback for improvement
- (2) Increasing student familiarity with informational texts including comparing multiple sources and research
- (3) Focus on improving reading comprehension for students with a wide range of Lexile levels while still providing grade-level content

As this was a time of tremendous change in technology expectations in schools with the move to online Smarter Balanced Assessment Consortium, we also recognized the imperative of providing students with more opportunity to use technology and apply their skills under conditions similar to that of mandated state assessments. DCP2 embarked on a 1:1 Chromebook initiative for grade 11 students.

In 2019, DCP2 was making strong improvements in English Language Arts outcomes. This progress was then greatly impacted by the pandemic, with scores dropping to 41.2 points below standard by 2022. The Charter School has piloted a variety of programs and supports to reverse this trend, including:

- Enhanced tutoring services
- Increased support through SAVVAS and Edgenuity
- Interim testing
- More consistent use of Star Renaissance local assessments to inform targeted interventions and differentiated instruction

As a result of these practices, student outcomes have been steadily improving since 2022, as evidenced in the tables above.

At the start of the current charter term in July 2017, DCP2’s Math Smarter Balanced scores maintained only 11.86% in the meets/exceeds standards levels based on the schoolwide performance which corresponded to a “red” (-128 DFS) Math Indicator. Additionally, this low performance led to the identification of the Charter School for the federal assistance status of “CSI”.

As with ELA, the Charter School was eligible to receive federal funding to address the root causes of the unsatisfactory performance in math. While these funds were used across the Charter School, the specific shifts needed to positively impact student performance in math included:

- 1) A greater focus on mathematical concepts and procedures and reteaching mathematical rules and ideas
- 2) A renewed emphasis on mathematical problem-solving and data analysis

In 2019, DCP2 was making strong improvements in Math outcomes. This progress was greatly impacted by the pandemic, with scores dropping significantly by 2022. This prompted DCP2 to strengthen its approach for the 2022-23 school year. Efforts included:

- Department meetings to review strong and weak standards
- Selecting target standards for classroom focus
- Collaborating on interdepartmental lessons

During the fall of 2022, teachers developed targeted plans based on Star Renaissance test scores. Also in the 2022-23 school year, the Math Department collaborated with Dr. Ivan Cheng, a professor of education at California State University, Northridge. Dr. Cheng provided support in developing engaging lessons, analyzing assessment data, and reflecting on effective teaching practices through observations and coaching.

Teachers implemented a variety of math activities created by Dr. Cheng, including handouts and Desmos activities. Following his guidance, they integrated Illustrative Mathematics into their curriculum. Anecdotal feedback from teachers suggested that student comprehension improved for specific lessons utilizing these materials. This student-centered approach encourages deeper mathematical thinking and reasoning.

In the 2023-24 school year, CAASPP test results increased from 10.25% of students meeting or exceeding standard to 25%. The 11th-grade teacher utilized FIAB as a unit test and provided students with opportunities to take the CAASPP practice test, helping them become familiar with the types of questions they would encounter. Additionally, teachers participated in workshops and conferences to explore new pedagogical approaches for teaching math.

Furthermore, an analysis of STAR Math test results indicated significant improvement across all grade levels. Particularly, the test results for 11th graders showed a significant increase, with the percentage of students reaching "On Watch and Above" rising from 52% in 2022-23 to 71% in 2024-25. This progress can be attributed to the collective efforts of math teachers to close learning gaps by reteaching foundational concepts such as number sense and key mathematical principles, while also encouraging students to develop critical thinking skills and adopt a growth mindset to persist in their mathematical endeavors.

DGP2 is actively seeking ways to improve opportunities and outcomes for students in preparation for college and career. Naviance, a college and career exploration platform, will be implemented in every Advisory class so that students will be able to explore postsecondary options such as college, a variety of trades and careers, and military opportunities. They will have access to college planning and career assessment tools.

DGP2 leadership attended a CTE pathway conference in Santa Barbara to gather insights on establishing successful pathways in collaboration with Los Angeles Mission College. DGP2 is now offering CTE Pathways in Police Academy Prep and Cybersecurity.

Additionally, students have the option to participate in dual and concurrent enrollment at LA Mission College to earn college credits for free while still in high school. This initiative is aligned with ensuring all students meet high school graduation requirements, which

include A-G completion, and complete at least one semester of dual enrollment with passing grades and/or passing the AP Spanish Language class with a "3" or above to obtain a seal of biliteracy. Through these efforts, DCP2 aims to equip every student with the necessary tools and opportunities for success after high school.

To improve the graduation rates for all students, DCP2 has prioritized diligent support for students who are not on track to graduate, offering credit recovery opportunities in a supportive environment, as well as allowing students to add additional classes to their schedules.

For students needing credit recovery, the Charter School utilizes Edgenuity, a standards-based program offering opportunities to regain credits and graduate on time. Additionally, the partnership with Assurance Learning Academy provides further support through summer, winter and spring break intersessions, allowing students to complete credits via an online platform, addressing barriers such as transportation or out-of-town obligations. During the summer, students are able to take up to 15 credits and during the winter or spring breaks, students can take up to 5 credits.

As a result of these efforts, 9 out of the 11 off-track 2024 seniors successfully regained their academic standing and graduated on June 9, 2024.

The most attended Institution is Los Angeles Mission College, which also partners with DCP2 in offering Dual Enrollment, Advanced Placement courses, and CTE Pathways, making it easier for students to transition directly into college from high school. The Charter School is looking into more partnership like this in the hopes of increasing their college-going rates in the future.

This graph represents the percentage of DCP2 graduates who have received a college degree or are still in college as of data from 2023-24.

As shown in the National Student Clearinghouse graphs that follow, while many DCP2 students enroll in post-secondary institutions, persistence declines after the first year.

To support college persistence, DCP2 will provide enhanced college transition support:

- Conduct regular check-ins via in-person meetings, virtual meetings, or phone calls to help students set goals and stay motivated
- Send postcards and wellness packets
- Organize yearly alumni gatherings during holiday breaks to improve communication and provide more opportunities to keep in contact

For alumni who do not complete their studies, DCP2 plans to:

- Develop a database to track alumni and their educational status
- Maintain regular contact with alumni to update their status and offer support
- Provide assistance with re-enrollment processes for alumni who wish to return to college

### *Our Value to the Community*

At Discovery Charter Preparatory #2, we understand that every student is unique and may face different challenges. Our commitment to safety, a supportive atmosphere, and individualized attention sets us apart from neighboring high schools. We strive to provide a comprehensive educational experience that prepares students not just for academic success, but for life. By emphasizing these priorities, we aim to build a strong relationship with our community, showcasing the distinct value we bring to families and students.

### **Student Population to Be Served**

Discovery Charter Preparatory #2 serves students in grades 9-12. In 2023-24, the Charter School's population was 97% Hispanic/Latino, 57% Low Income, 16% Students with Disabilities, and 9% English Learners. In 2024-25, 86% of all Discovery Charter Preparatory #2 students were recruited from the neighborhoods of Sylmar, Arleta, and Pacoima.

Many of these students have traditionally not been successful at schools with larger enrollment, and did not previously expect to pursue post-secondary education. The majority of the student population come from families without college degrees. According to *"Mapping L.A. Neighborhoods"* published by the Los Angeles Times, in all three

neighborhoods, the percentages of residents 25 and older who have a four year degree are low for the city of Los Angeles and the county. Additionally, the percentages of residents 25 and older with less than a high school diploma are high for the county.

The students and their families select this school for its small, nurturing learning environment where teachers and staff emphasize positive behaviors, high expectations and hard work. DCP2 students are supported to be successful through their strong relationships with caring adults and the knowledge that they are “seen.” Students know their teachers will notice if they are struggling and will intervene with supports.

The data above reflects a community need for increased access to college preparatory secondary education in this area of Los Angeles. Discovery Charter Preparatory #2 meets this need by offering a comprehensive learning experience designed to help graduate students who are college and career ready.

The declines in enrollment from 2020-23 reflect the significant and persistent challenges posed by COVID-19, which affected many schools nationwide. Some families chose to

keep students at home, while other families relocated to schools in different cities and states that had fewer restrictions, ultimately impacting funding and resources.

The increase to 210 in 2023-24 suggests that DCP2 is beginning to stabilize and attract more students again, which is a positive sign of recovery and resilience. Monica Rodriguez (Los Angeles City Council Member) and her team, along with Sylmar Neighborhood Council and Sylmar Woman's Club have been instrumental in clarifying our status as a public charter school. This collaboration likely helped enhance community awareness and trust, which can significantly impact enrollment and overall school perception. DCP2 accomplished this by joining events organized community events or open houses in collaboration with Council Member Rodriguez's office. These have served as platforms to showcase the Charter School's programs and achievements.

DCP2 has launched information campaigns to develop informational materials (flyers, social media posts) that clearly communicate your public charter status and the benefits it offers to students and families. DCP2 has highlighted and shared success stories of students and alumni through various media channels, illustrating the positive impact of our school in the community. DCP2 has also hosted meetings and events where we have shared on topics such as college readiness, career pathways, and mental health, inviting community members to participate and learn more about our offerings. DCP2 consistently leverages social media platforms to share updates and engage with the community.

DCP2 has highlighted the partnership with Council Member Rodriguez to increase visibility and credibility. It has also partnered with local organizations and businesses to expand outreach and create more opportunities for students, such as internships, mentorship programs and employment after graduation. By continuing to leverage these key partnerships and actively engaging with the community, DCP2 has enhanced the perception of the Charter School and continues to foster a stronger school-community connection.

## **Goals and Philosophy**

### *Vision and Mission*

Our vision is to provide a safe and nurturing learning environment in which instruction is rigorous and meaningful. We are dedicated to closing the achievement gap for our students by providing them with supportive, individualized attention and high expectations for academic success. We believe that every student can overcome obstacles and make college a reality.

The mission of Discovery Charter Preparatory #2 is to expand access to higher education by providing the necessary skills and support so that every student is prepared to attend college upon graduation from high school.

### *An Educated Person in the 21<sup>st</sup> Century*

A well-educated person in the 21<sup>st</sup> century must be able to adapt to the rapidly evolving demands of the modern world. Our goal at Discovery Charter Preparatory #2 is to prepare our students with skills that go beyond academic knowledge.

A well-educated person will have the academic skills and knowledge that will allow them to be successful when pursuing a post-secondary education. The curriculum at DCP2 helps students develop the following academic skills and knowledge:

- Demonstrate effective written and verbal communication with a variety of audiences
- Identify and understand mathematical facts, concepts, principles, and theories, applying them in problem situations within and outside the school setting
- Demonstrate comprehension of a variety of printed materials when reading for pleasure and/or information
- Demonstrate the ability to read, understand, question, and challenge the literal and implied meanings of fictional and non-fictional material
- Demonstrate a general understanding of history in order to perceive the complexities of social, economic, and political problems
- Demonstrate a general understanding of major concepts and processes that are common to all of the sciences
- Demonstrate understanding of the connections between content areas and apply knowledge by gathering, analyzing, interpreting, and integrating information
- Demonstrate critical thinking and an ability to solve problems when making decisions
- Demonstrate an ability to use technology efficiently to achieve specific goals
- Demonstrate the ability to evaluate information across a range of media

In addition to academic skills and knowledge, a well-educated person in the 21<sup>st</sup> century will gain non-academic skills that go beyond the classroom. DCP2 helps students:

- Demonstrate the desire to pursue learning as a life-long endeavor

- Formulate questions, make decisions, and seek answers using factual information, logical reasoning, and intuitive and creative thinking
- Demonstrate collaboration, teamwork, and interpersonal skills, and respect and appreciate diversity in order to solve conflicts, strive for consensus, and function as both learner and teacher
- Demonstrate self-confidence and leadership capabilities
- Demonstrate the ability to set priorities in order to achieve personal and community goals
- Understand, preserve, and appreciate their culture and the heritage of others
- Exercise personal responsibility and flexibility; set and meet high standards and goals for themselves and others
- Demonstrate the ability to engage intensely in tasks even when answers or solutions are not immediately apparent; push the limits of their own knowledge and abilities; generate, trust, and maintain own standards of evaluation; generate new ways of viewing a situation outside the boundaries of standard convention
- Demonstrate personal, social, and civic responsibility
- Demonstrate the ability to adapt to an ever-changing environment
- Participate in creative activity of their own and understand and engage with the artistic, cultural, and intellectual work of others

It is our commitment to provide students with academic and non-academic skills that will help them become successful members of society. We understand that not all pathways after high school are academic and that students may pursue college or other non-college pathways. These skills are beneficial to students pursuing a post-secondary education as well as those entering the workforce. These are the skills needed to thrive in a dynamic, interconnected, and technology-driven world.

### *How Learning Best Occurs*

Students learn best in a positive learning environment, where they are placed at the center of teaching and learning. They should be challenged by rigorous standards-based curriculum and supported by parents, teachers, and the surrounding community. In the learning environment, students want to be engaged in the material and to be provided with appropriate scaffolding so that they may achieve the high expectations teachers have set for them.

Collaborative experiential learning fosters critical thinking, creativity, and collaboration, preparing students for complex challenges (Dewey, 1938; Kolb, 1984; Highland Academy, 2024). Integration of technology supports personalized learning, allowing students to access diverse resources, collaborate digitally, and tailor their learning experience to their individual needs and interests (U.S. Department of Education, 2017; Warschauer, 2015; Barnesville School, 2024). Small class sizes create more personalized, interactive discussion and one-on-one attention (Finn & Achilles, 1999; Blachford et al., 2003, Barnesville School, 2024; Highland Academy, 2024). This creates an environment where students feel more comfortable participating, asking questions, and engaging in meaningful learning. Smaller class sizes also help reduce disparities in learning outcomes. With more individualized attention, students who might otherwise fall behind are given the resources and support they need to succeed (Nye, Hedges, & Konstantopoulos, 2000; Class Size Matters, 2024).

### *Students as Self-Motivated, Competent, and Lifelong Learners*

Discovery Charter Preparatory #2 is committed to providing a small learning community and small classes. The teachers at DCP2 not only support students in their academic courses, but through an advisory class. Each student at Discovery Charter Preparatory #2 is part of an advisory cohort for all 4 years of high school. Discovery Charter Preparatory #2 recognizes student achievement by holding semester assemblies for honor roll students and rewarding students who achieve proficiency with recognition dinners and other privileges.

In their advisory course, teachers provide students with individualized time where they monitor student progress in all classes. Students receive grade reports on a weekly basis. Teachers encourage students to advocate for themselves and monitor their own learning. Additionally, students are aware of their test scores and other data points that measure their success in the classroom. Students are encouraged to engage in conversations with their advisors in planning conferences where students discuss and become motivated by their post-high school goals.

To ensure student success and to hold students accountable, when students are earning 69% or below in any core subject, they are referred to afterschool tutoring. In tutoring, the focus is for students to take ownership of their learning, improve their grade, and most importantly, to show growth.

Discovery Charter Preparatory #2 recognizes not only the importance of celebrating student success but recognizing and celebrating student growth. Any student at Discovery Charter Preparatory #2 that has worked hard and has grown is also recognized with special achievement certificates and rewards such as free dress week, movie tickets, gift cards, Happy Letters to parents/guardians, and tokens to exchange for prizes.

### *A Learning Community*

Part of creating a community within our school includes the involvement of all educational partners. Discovery Charter Preparatory #2 encourages active parent involvement and promotes a collaborative home-school relationship. Parent communication with the Charter School is a vital strength of the counseling program and parents are active participants in helping their children to succeed.

Community agencies, in conjunction with the Charter School, provide on-site support services, such as tutoring, family and teen counseling, parenting classes and extracurricular activities designed to motivate students.

Monthly parent meetings help to foster the home-to-school relationship and include parents in decision-making. Topics covered include parent resource presentations, information on FAFSA and the Dream Act, Pueblo y Salud presentations on brain development and drug prevention, workshops about mental health, and awareness about gangs and juvenile delinquency.

PAC and ELAC committee meetings encourage parents to take a greater role in collaborating with school administration. The Charter School is a community resource that provides students with an exemplary academic foundation and the tools to be successful college graduates, lifelong learners, and active participants in their community.

## Instructional Design

### *Student-Centered Learning*

Discovery Charter Preparatory #2 provides a Student-Centered Learning approach that prioritizes students and their individual needs, ultimately fostering engagement, personalized education, and success in diverse settings. By employing innovative teaching strategies and encouraging active participation, DCP2 aims to distinguish itself in the educational landscape.

DCP2 addresses the diverse learning needs of students by prioritizing personalized education. This is achieved through the integration of collaborative and experiential learning methods, along with effective use of technology. The goal is to prepare students for future challenges and ensure they can thrive in a rapidly changing world.

## Innovative Components and Key Features of the Program

Given the reading and math skills of the typical DCP2 student upon entry, instruction must accomplish two goals: one - remediation and skill building, and two – grade level content and rigor. DCP2 is a literacy-focused school, but it is focused on content literacy, thereby accomplishing both goals. As a small school, teachers collaborate across content areas to develop projects that incorporate reading and writing coaching to address the various academic needs of the students while addressing grade level content.

### **Collaborative Experiential Learning**

By utilizing hands-on, interactive approaches that involve real-world problem-solving and teamwork, DCP2 ensures that students are not just passive recipients of knowledge but active participants in their own learning journey (Dewey, 1938; Kolb, 1984; Highland Academy, 2024). This prepares them for complex challenges and fosters critical thinking, creativity, and collaboration—skills crucial for success in the 21st century.

### **Integration of Technology**

In today's educational landscape, technology plays a vital role. Considering these students are digital natives and have endured the pandemic, the school employs the use of learning apps to support specific goals and enrich learning, but the core teachers are crucial to ensuring that students are actually learning and growing. DCP2 integrates technology in a way that complements personalized learning, allowing students to access diverse resources, collaborate digitally, and tailor their learning experience to their individual needs and interests (U.S. Department of Education, 2017; Warschauer, 2015; Barnesville School, 2024).

### **Focus on Engagement and Success in Diverse Environments**

The mission of DCP2 is not just about engagement and personalization in the classroom, but also about preparing students to thrive in various settings—be it higher education, the workforce, or any other environment (Darling-Hammond, 2010; Class Size Matters, 2024). This holistic approach ensures that students are adaptable, resilient, and capable of navigating diverse future opportunities.

### **The Impact of Small Class Sizes on High School Education at DCP2**

DCP2 prides itself on maintaining a 1:25 teacher-to-student ratio, which has been shown to significantly enhance educational outcomes. Research underscores several key advantages of small class sizes:

#### **Deeper Engagement**

With fewer students in each class, teachers can foster more interactive, personalized discussions and one-on-one attention (Finn & Achilles, 1999; Highland Academy, 2024). This creates an environment where students feel more comfortable participating, asking questions, and engaging in meaningful learning.

#### **Personalized Instruction**

Smaller class sizes allow educators to better cater to the individual needs, strengths, and challenges of each student (Blatchford et al., 2003; Barnesville School, 2024). This level of attention ensures that all students can progress at their own pace, receive tailored support, and reach their full potential.

### **Equitable Outcomes**

Smaller class sizes also help reduce disparities in learning outcomes. With more individualized attention, students who might otherwise fall behind are given the resources and support they need to succeed (Nye, Hedges, & Konstantopoulos, 2000; Class Size Matters, 2024). This ensures a more equitable educational experience for all learners, regardless of their background or learning style.

## **Fundamental Principles of Student-Centered Learning:**

### **1. Active Learning:**

- Students actively participate in their learning process, engaging with content through hands-on activities, exploration, and experimentation.
- Learning is seen as making meaning rather than simply absorbing information.
- Students will learn about and engage in activities like group discussions, problem-solving exercises, peer teaching, and interactive simulations. This involves activities where students are not just passive recipients of information but are involved in discussions, problem-solving, and hands-on tasks.

### **2. Building on Prior Knowledge:**

- New Learning is connected to what students already know, building on existing knowledge and experiences.
- Teachers assess students' prior knowledge and use it as a foundation for new concepts.

### **3. Social Interaction:**

- Learning is often collaborative, involving discussion, negotiation, and shared experiences among peers.
- Vygotsky's Zone of Proximal Development (ZPD) concept emphasizes the importance of social interactions and scaffolding provided by teachers or more knowledgeable peers.

### **4. Problem-Based Learning:**

- Learning is often driven by open-ended questions or real-world problems that require students to apply their knowledge and think critically.
- Encourages inquiry, investigation, and problem-solving skills.

#### 5. Student-Centered:

- Rather than a one-size-fits-all approach, the focus is on the learner's needs, interests, and learning styles.
- Students have some control over their Learning, often choosing how they explore topics or demonstrate their understanding.

#### 6. Reflection:

- Reflection is a crucial part of the learning process, helping students make sense of their experiences and connect new information with what they already know.
- Teachers encourage students to think about what they've learned and how they've learned it.

#### 7. Learning in Context:

- Knowledge is situated in real-world contexts, making learning relevant and meaningful.
- Authentic tasks that mimic real-life challenges are used to enhance understanding and retention.

#### Benefits of a Student-Centered Teaching Model:

- Promotes more profound understanding and retention of knowledge.
- Encourages critical thinking, creativity, and problem-solving.
- Fostering independence and motivation develops lifelong learning skills. For example, students learn to set their learning goals, manage their time effectively, and seek resources independently, which are essential skills for continuous learning in the future. It also supports differentiated learning by allowing students to engage with content at their own pace and level.

This instructional approach creates a dynamic, interactive learning environment where students learn by doing, exploring, and reflecting, making it a powerful approach in modern education. Furthermore, Discovery Charter Preparatory #2 is committed to deepening the implementation of this instructional approach by engaging in ongoing professional development with the staff to review teaching practices, collaborate in reflecting and

evaluating effectiveness of our instructional approach, and ensure consistency across all classrooms.

### *Course Descriptions*

## **HISTORY/SOCIAL SCIENCE**

### **World History**

**Subject area: History / Social Science (A) / World History / Cultures / Historical Geography**

**Grade levels: 10<sup>th</sup>**

**Core and/or College Preparatory**

#### **Course overview:**

World History will introduce the ancient world, then move to focus deeply on the beginnings of the modern world. The survey will continue in the Medieval World by examining major peoples, regions, and time periods. By understanding the social, political, geographical and scientific forces shaping each period, students will connect with the past and identify larger historical patterns. Students will develop historical thinking skills as they gain historical perspective.

### **World History Honors**

**Subject area: History / Social Science (A) / World History / Cultures / Historical Geography**

**Grade levels: 10<sup>th</sup>**

**Core and/or College Preparatory**

#### **Course overview:**

This course is a survey of the modern world from 1750 to the present day. The course will begin by examining the French revolution and the offshoots it inspired across the Atlantic. It would then shift to a different revolution - an economic revolution - that began in Great Britain, spread initially to only select other countries, and allowed those countries to summon the power to colonize much of the rest of the world. The First World War is then looked at as a culmination of all these processes - nationalism, economic power, and competition for global dominance. World War II and the rise of totalitarianism is then connected directly to people's responses to political and economic consequences of

World War I, the Cold War is examined in the context of responses to the conclusion of World War II, and decolonization in the Middle East, Africa, and Asia, is viewed through the lens of the collapse of European global hegemony after World War II and the competition between the two new superpowers of the Cold War. Finally, the course concludes by looking at hot spots of today's intensely globalized world.

Throughout the course, an emphasis is placed on understanding that our knowledge of history is derived from competing reconstructions of the past. There is no such thing as an unbiased and direct view of the past, and therefore students will learn how to see history through primary sources and the attendant difficulties of bias and fragmentation that they bring.

### **US History**

**Subject area: History / Social Science (A) / U.S. History**

**Grade levels: 11<sup>th</sup>**

**Core and/or College Preparatory**

#### **Course overview:**

Students in grade eleven study the major turning points in American history in the twentieth century. Following a review of the nation's beginnings and the impact of the Enlightenment on U.S. democratic ideals, students build upon the tenth-grade study of global industrialization to understand the emergence and impact of new technology and a corporate economy, including the social and cultural effects. They trace the change in the ethnic composition of American society; the movement toward equal rights for racial minorities and women; and the role of the United States as a major world power. An emphasis is placed on the expanding role of the federal government and federal courts as well as the continuing tension between the individual and the state. Students consider the major social problems of our time and trace their causes in historical events.

### **US History Honors**

**Subject area: History / Social Science (A) / U.S. History**

**Prerequisites: Grade B or better in World History & English 10 (Required)**

**Grade levels: 11<sup>th</sup>**

**Core and/or College Preparatory**

#### **Course overview:**

Through an investigation and corroboration of evidence, students examine the major turning points in American History from the Industrial Revolution through the twenty-first century. The year begins with a review of the colonies and the American Revolution, westward expansion, the Civil War and Reconstruction. Emphasis would be placed on the expanding role of the federal government and the federal courts; the balance of power between the right of the individual and states' rights and the continuing struggle between minority rights and majority power. Importance will also be placed on the emergence of a global economy, the impact of technology on American society and culture, the movements towards equal rights for racial minorities and women, and the role of the United States as a major world power. Students in this course are expected to analyze

complex secondary and primary sources, as well as write argumentative essays. The culminating activity for the course is an American History Civics Inquiry Project wherein students research an American History Project and engage in a related community action (either within the school student body or outside community).

**Subject area: Science (D) / Biology / Life Sciences**

**Grade levels: 10<sup>th</sup>, 11<sup>th</sup>, 12<sup>th</sup>**

**Core and/or College Preparatory**

#### **Course overview:**

Honors Biology is a one-year high school course, which is a pre-requisite A-G requirements set forth by the University of California System. Biology is a “hands-on” course using techniques to introduce the student to the structure of matter, its changes and the energy involved in supporting life, different forms of life, and the interconnections of the

abiotic/biotic factors. A comprehensive approach to learning will be emphasized. For many students, Biology is the first course requiring enhanced learning and skill usage. Students must study at home to internalize the concepts and gain problem-solving skills. Biology is a required, inquiry-based course focused on providing all high school students with foundational life science content about the patterns, processes, and interactions among living organisms. The emphasis is on the increased sophistication and rigor of a limited number of core ideas rather than on memorizing a breadth of factual content. Students use prior and new knowledge to build conceptual understandings based on evidence from their own and others' investigations. They use their own learning and experiences to support claims and engage in arguments from evidence. The standards provide a depth of conceptual understanding to adequately prepare them for college, career, and citizenship with an appropriate level of scientific literacy. Resources specific to the local area as well as external resources, including evidenced-based literature found within scientific journals, should be used to extend and increase the complexity of the core ideas.

They will also be assigned to an additional period of Math and English to close the achievement gap and prepare the students for success in their college preparatory curriculum.

#### **Tier II Interventions**

If Tier I interventions are not successful, teachers convene as the Response to Intervention Team (RtI) to develop an intervention plan. Tier II interventions may include small group instruction and/or counseling, interventions targeted at specific strengths and needs, and after school tutoring.

Students who do not progress while on Tier II interventions are then referred to the Student Support and Progress Team (SSPT).

#### Tier III Interventions

Students who are referred to the SSPT receive an individualized plan created with input from the student's teachers, advisor, counselor/administrator, parent(s) and the student. This plan includes frequent progress monitoring to assess the effectiveness of the intensive interventions. These interventions may include specialized texts, software, or curriculum, one-on-one instruction, small group instruction with staff members who have expertise in their area of need, and individual counseling.

As the parent is an integral partner in their student's success, their involvement in the SSPT process may result in a request for assessment for special education services.

#### *Independent Study*

Independent Study is not offered at DCP2.

#### *Instructional Methods and Strategies*

Teachers at Discovery Charter Preparatory #2 have implemented the Common Core State Standards, the NGSS, and ELD Standards across the curriculum as the basic framework for instruction. With the guidance of administrators and coaches, teachers develop and implement instructional pacing plans. Current standards and objectives are clearly posted in every classroom and academic expectations are clearly communicated with students for every lesson.

Through on-going professional development, cross-curricular collaboration, and evaluations from staff and students alike, different instructional methods and strategies are assessed, evaluated, and implemented at Discovery Charter Preparatory #2. Teachers at DCP2 believe in Student-Centered Learning, and the following strategies are integral to the success of our students in the classroom and beyond:

- **Hands-on activities** where students access the curriculum by interacting with materials
- **Collaborative Learning** where students work together, learn from one another, and help their peers

- **Inquiry-Based Learning** where students use their critical thinking skills to generate questions, find credible information, and form thoughtful opinions
- **Scaffolding** where teachers provide support to help students reach higher levels of understanding, and constantly assess to see if more support is needed or if support can be taken away as the student becomes more engaged and confident
- **Socratic questioning** where students engage in dialogue, challenge their own assumptions and those of others, and deepen understanding through collaborative learning and discourse
- **Self-Reflection** where students think about their own thinking process and strive toward improvement

Teachers are expected to use an appropriate mix of direct instruction, cooperative learning and individual student practice for all lessons. Teacher professional development is focused heavily on observations and using data to inform instruction, aligning curriculum with Common Core standards, and assessing student mastery of standards on an ongoing basis. We believe the combination of a college-preparatory, standards-based curriculum and teacher professional development based on these methods ensure that all students meet or exceed Common Core standards and CA State standards.

### *Use of Technology*

Technology literacy and fluency are essential to student success in the classroom and beyond. A student at DCP2 who has achieved technology literacy is able to responsibly, creatively, and efficiently use appropriate technologies to communicate; access, gather, manage, integrate, and assess information; overcome challenges and develop answers; share insight and foster knowledge; and strengthen learning across all subjects and experiences.

A student at DCP2 who demonstrates fluency in technology can apply technology in real-world contexts, adapt to evolving technologies, modify existing tools, create new ones, and tailor technology to fit their individual needs, interests, and learning styles.

Teachers at DCP2 provide students with opportunities to gain and practice the skills necessary to achieve technology literacy and fluency. Every student has a Chromebook, and they use technology regularly across every classroom to research topics, develop projects and presentations, access materials and assignments, and communicate with classmates and faculty. Additionally, the 1:1 Chromebook model allows for all students to be regularly assessed using a state-verified platform, as well as state-mandated

assessments such as ELPAC, SBAC, and CAST. The school maintains an adequate technological infrastructure which allows all students to be online without interruption.

### *Graduation Requirements*

The minimum number of credits required to graduate is 170. In keeping with the Charter School's mission as a college preparatory school, the graduation requirements are the same as the UC/CSU A-G requirements. The minimum grade needed for A-G credit and graduation is C. All students who graduate from DCP2 will have met the A-G requirements. The course schedule included above in Course Offerings demonstrates how students will meet these requirements within four years.

### *Credit Recovery*

DCP2 provides credit recovery through the online platform "Edgenuity," along with summer, winter, and spring break sessions through Assurance Learning Academy, giving students multiple pathways to regain credits they may have missed. Programs can be self-paced to accommodate students' individual learning needs.

Through regular progress monitoring and academic counseling, students who are deficient in credits are identified and directed to credit recovery before falling too far behind. For each student needing credit recovery, a personalized learning plan is created outlining specific requirements and supports necessary to earn missed credits, including tutoring, study sessions, or mentoring in addition to credit recovery classes.

For transfer students, a thorough evaluation of the student's academic record is conducted upon enrollment to determine how previously earned credits align with the Charter School's graduation requirements. This ensures students are properly placed in the correct courses. The student's graduation plan is aligned with the Charter School's graduation requirements and state standards. A timeline is provided, and a list of any additional coursework required for on-time graduation is addressed and provided with an agreed-upon plan of action. College and career counseling is offered to ensure transfer students are informed of A-G requirements, ensuring that they are meeting both high school graduation and college entrance requirements. For students who are behind or who need specific courses to meet graduation requirements, options such as concurrent enrollment in community college courses, online courses, or summer school programs are available.

For students who qualify for the graduation exemption under Education Code Section 51225.1 (foster youth, homeless, former juvenile court, military family, migratory, and newcomer students), DCP2 can offer the following:

- **Waiver of Local Graduation Requirements:** Qualifying students are eligible for a waiver of certain local graduation requirements if they transfer after the second year of high school and cannot reasonably complete all local requirements on time. The Charter School must ensure these students complete the minimum state graduation requirements and help them meet them.
- **Individualized Graduation Plans:** For students under the exemption, create an individualized graduation plan tailored to their unique situation. This plan will outline which requirements have been waived and what the student still needs to do to meet state graduation requirements.
- **Additional Time for Completion:** Under Education Code Section 51225.1, qualifying students who may need additional time to graduate beyond their senior year should be allowed to stay enrolled until they meet state graduation requirements, even if it means completing their diploma after the traditional four-year timeline.
- **Specialized Support Services:** Provide extra support to foster care, homeless, migratory, and other qualifying students. This may include counseling services, tutoring, or collaboration with community organizations that support vulnerable youth.
- **College and Career Readiness:** Ensure students who receive a graduation exemption are informed of post-secondary options, including community college, vocational programs, or workforce entry pathways, as they may not meet all A-G requirements.
- **Monitor Exemption Eligibility:** Track and regularly assess students who may qualify for the exemption, ensuring that all qualifying students are offered the necessary adjustments to their graduation plans.

By implementing these strategies, the Charter School can ensure that all students, including those in vulnerable populations, have access to the resources and opportunities they need to meet graduation requirements and pursue post-secondary success.

### *Preparation for College and Career*

Discovery Charter Preparatory #2's instructional program is designed to provide a comprehensive range of options that align with the California Department of Education's College/Career Indicator, ensuring students are well-prepared for their future endeavors.

- **A-G Requirements:** The curriculum meets California’s A-G requirements, ensuring students complete necessary coursework for college admission. Honors and specialized AP courses are available.
- **Advanced Placement (“AP”) Courses:** The Charter School offers a variety of AP courses in core subjects, enabling students to earn college credit while still in high school.
- **State Seal of Biliteracy:** With the offering of AP Spanish Language, students can receive a state seal of biliteracy by demonstrating proficiency in English courses with a 3.0 or above and demonstrating proficiency in one more language through the passing of a world language AP examination with a score of 3 or higher.
- **CTE Programs:** In partnership with Los Angeles Mission College, the Charter School provides two specialized pathways, Police Academy Prep and Cyber Security, allowing students to gain practical skills and certifications.
- **Dual Enrollment Programs:** DCP2 collaborates with Los Angeles Mission College to offer dual enrollment courses, allowing students to earn college credit while completing high school.
- **Intersegmental General Education Transfer Curriculum (“IGETC”) Completion:** Through the Charter School’s partnership with Los Angeles Mission College, students can participate in completing their general education/IGETC, which are transferable to CSU/UC.

DCP2 also partners with GEAR UP, an organization that aims to improve the academic performance and retention of students and to increase the college-going rates of students from the San Fernando community. GEAR UP staff works with teachers, administrators, and parents to help build a college-going culture at DCP2 and throughout the community, offering a combination of academic support services, professional development opportunities for school staff, and family programming. GEAR UP staff follow a cohort of students past graduation. At the writing of this petition, the GEAR UP team is with a cohort who are currently in college. The next round of GEAR UP staff will circle back to begin working on site at DCP2 in two years.

By integrating these elements into the instructional program, DCP2 aims to ensure that all students are equipped with the knowledge, skills, and experiences necessary for success in college and their future careers, as measured by the College/Career Indicator.

### *WASC Accreditation*

The Charter School is fully accredited through June 30, 2025. The next full WASC self-study will take place on May 12-13, 2025. The school counselor ensures that all core courses and electives are UC A-G approved as part of the Charter School's College and Career Readiness Program. The Charter School conducts graduation checks every semester for each student.

### *Informing Parents of Transferability of Courses and Eligibility of Courses to Meet College Entrance Requirements*

All A-G courses are transferable to other public schools and meet the rigorous requirements for admission to both the UC and state university systems. Parents receive notification of course transferability in student recruitment and student enrollment materials, which are available in both English and Spanish. The DCP college counselor also works closely with students and families to ensure that they are well aware of requirements and where each child stands in relation to those requirements. This is done at least once a semester with students, and at least once a semester with students and parents combined if a student is not currently on track to graduate.

Upon receipt of students' transcripts from their previous school, DCP2 will carefully review each course to assess its transferability and alignment with DCP2's academic standards. At DCP2, we adhere to a strict grading policy that defines **anything below a C- as not passing**. This policy ensures that students are held to a high standard and are prepared to meet both high school graduation requirements and the college entrance requirements (A-G courses) necessary for post-secondary education.

For any courses with a grade below a C-, credit recovery will be required in order to stay on track for graduation and meet eligibility for college entrance. We will work with parents and students to identify the specific courses that need to be recovered. Our goal is to provide multiple pathways for credit recovery, so students can continue progressing toward graduation while meeting the necessary academic standards for college admissions.

### **Graduation Checklists and College Entrance Eligibility**

As part of our ongoing commitment to keeping both students and parents informed of academic progress, we provide **Graduation Checklists** to all students and their families by the third month of each semester (November and March). These checklists detail whether a student is on track to meet graduation requirements and whether they are fulfilling the A-G requirements for college entrance. The Graduation Checklist also highlights any missing or incomplete courses that must be addressed for the student to meet graduation and college eligibility standards.

This review occurs each semester until the student's graduation or departure from DCP2, providing both the student and the family with a clear understanding of where they stand in

terms of academic progress. If it is found that a student is off track, we will notify parents immediately and work together to develop a plan for recovery.

### **Interventions for Credit Recovery**

At DCP2, we understand that students may face challenges that impact their ability to pass courses the first time. To ensure every student has the opportunity to recover lost credits and stay on track for graduation, we offer several options for credit recovery:

1. **Summer School:** Students may register for summer school prior to the summer break. Summer school provides an opportunity to recover credits for failed courses and move forward with their academic progress.
2. **Winter/Spring Sessions for Seniors:** Seniors who need to recover credits in order to graduate on time can enroll in the winter/spring sessions. These sessions are designed specifically to support seniors in completing the courses required for graduation with a shorter timeframe.
3. **Incorporating Credit Recovery into Regular Schedule:** Students may all complete credit recovery by integrating missing courses into their regular school schedule during the academic year. This allows students to recover missed credits while continuing to make progress on their coursework.

By the time the student reaches their senior year, they will either have successfully completed all required A-G courses or will have followed the appropriate intervention strategies to recover any missing credits. Our dedicated team will work closely with each family to ensure that their student is fully prepared for graduation and eligible for college entrance.

## Professional Development

### Professional Development Plan

Discovery Charter Preparatory #2 fosters reflective practice among teachers in an environment where cross-curricular collaboration, data analysis, and thoughtful discussions take place to improve instruction every day.

Early dismissal every Friday provides teachers with 90 minutes of professional development each week. These opportunities provide teachers with time to inquire about practice, study individual and group student data, develop best practices, and ensure accountability for schoolwide goals. Friday staff development activities are organized in the following three focus areas:

- **Weekly Staff Development:** Selected based on the assessment of student needs and identification of areas of improvement as outlined in the Charter School's LCAP

- Weekly Staff Collaboration: Can include grade level collaboration, department or subject level professional development, or collaboration on school-wide systems
- Department Norming Days: Time dedicated to work on department-specific practices to ensure consistency across the grade levels and subjects

Professional development topics will vary depending on the Charter School's focus areas for improvement, student data from state and local assessments, and teacher needs. The common thread is how to best support and meet the needs of all student groups, including English Learners and Special Education students. Topics may include effective lesson planning, analyzing data to improve instruction, multiple forms of assessment, developing engaging curriculum, and creating culturally relevant lessons.

Discovery Charter Preparatory #2 encourages teachers to seek out professional development activities and programs outside the Charter School to inform their teaching and share learnings with other staff members. Our teachers have attended and continue to attend professional development and conferences through:

- CATE (California Association of Teachers of English)
- California Writing Project
- Mathematics Diagnostic Testing Project (“MDTP”) Workshops
- California Mathematics Council (“CMC”)
- CCSA (California Charter School Association)

### *Recruiting and Training Qualified Teachers*

We collaborate to build a strong team of well qualified teachers who deliver the educational program and help achieve our goals & philosophy. Teachers are recruited through partnerships with faculty members at UCLA, CSULA, CSUN, and National University, as well as through teacher recommendations. Open positions are posted on Edjoin.

Discovery Charter Preparatory #2 acknowledges the importance of teacher retention and fostering professional growth among its staff. To help students achieve their true potential, our teachers need to be well-trained and prepared. DCP2 supports new teachers in the following ways:

- We provide new staff or teachers completing an induction program with a mentor-teacher or staff member to support them in their role at our school.
- We engage in weekly professional development as a staff, by departments, and by grade levels.
- We encourage teachers to seek professional learning opportunities outside of the classroom such as conferences, teacher observations, and webinars.

It is through mentorship, collaboration, and on-going professional development that we support our teaching staff and create a successful learning community that makes student success its top priority.

## **Meeting the Needs of All Students**

### *English Learners*

Discovery Charter Preparatory #2 follows the LAUSD Master Plan for English Learners and Standard English Learners.

### Process for Identifying English Learners

1. Initial Identification: Upon initial enrollment in a California public school, parents complete the Home Language Survey (“HLS”) to determine a student’s home language status.
2. EL Proficiency Assessment: If a language other than English is spoken at home or if there is reasonable doubt, the student is assessed using the Initial English Language Proficiency Assessments for California (“ELPAC”) within thirty days of enrollment to determine their level of language proficiency (Level 1: Beginning - Level 4: Well-Developed)
3. Primary Language Assessment: Procedures for the evaluation of primary language differ, depending on the primary language of the student. DCP2 maintains a list of available interpreters to help with the informal assessment of students.
4. Parent Notification: DCP2 staff will notify parents of the Charter School’s responsibility to conduct ELPAC testing and will inform parents of ELPAC assessment results within 30 calendar days following receipt of test results from the test contractor. Parents and guardians will be informed of their rights, invited to attend conferences to discuss students’ ELPAC levels and the educational strategies to be used for their children’s English language development, and encouraged to participate in the reclassification process.
5. Program Placement: Students with ELPAC scores of 1 and 2 are placed in a Designated ELD class.

### English Learner Educational Program

DCP2 offers both integrated and designated ELD instruction.

Integrated ELD instruction will be used in every subject area by every DCP2 teacher. Though only 9% of the Charter School’s students are currently identified as English learners, most of the students speak primarily Spanish in the home and still benefit from English language support, even after being redesignated as English-proficient. Those students who are identified as English learners at DCP2 are at risk of becoming Long-Term English learners. Teachers address the CA ELD Standards in tandem with the Common Core State Standards to ensure students strengthen their abilities to use academic English language as they learn content in English. DCP2 teachers are trained in SDAIE strategies, including:

- Demonstrating and modeling

- Chunking to build knowledge and understanding of the material
- Providing multiple learning opportunities to reinforce key concepts and vocabulary
- Using audio and visual supports
- Incorporating technology to individualize instruction
- Frontloading vocabulary before each unit
- Displaying vocabulary walls in all classrooms

Designated ELD instruction is taught by an ELD-certified teacher to all students who are identified as English learners and Long-Term English learners. The class focuses on strengthening their use of English and increasing their mastery of English academic language. Key strategies used in the Designated ELD class include:

- Explicit instruction in phonological awareness and phonics
- Extensive and varied vocabulary instruction
- Structured academic talk
- Use of students' primary language to help in comprehension
- Small-group reading interventions
- Structured peer-assisted learning activities
- Independent reading of appropriate texts

Students will be regularly assessed both orally and in writing to ensure progress toward mastery. Progress reports will be sent to parents monthly demonstrating students' assessed progress. Translation services for meetings and communications with parents of EL students will be provided, as necessary.

### ELPAC Testing

All students who indicate that their home language is other than English shall be ELPAC tested within thirty days of initial enrollment and annually thereafter during the spring ELPAC Summative Window until re-designated as fluent English proficient. Students are expected to advance at least 1 ELD level annually on the Summative ELPAC.

At the beginning of each school year, teachers will evaluate student progress along the ELD Proficiency Level Continuum for each of their English learners by looking at the ELPAC scores, along with CAASPP and local assessment results, and develop their instructional plan to meet the students at their level. Every grading period, teachers will evaluate student performance in English and use this information to adjust their instruction to ensure that students are making sufficient progress.

#### Evaluation of the EL Program

The EL program is monitored on an annual basis. The data from ELPAC and CAASPP assessments is reviewed by the EL teacher, English Department and school administration to inform programmatic and budgetary decisions each spring for the upcoming school year.

#### English Learner Reclassification Process

1. Students must meet the following criteria:
  - a. Earn an overall score on the ELPAC of (Level 4) with no less than 3 on the Oral or Written Composite (I).
  - b. Attain a grade-appropriate Reading Inventory score (Lexile): (9<sup>th</sup> grade > 750, 10<sup>th</sup>-12<sup>th</sup> grades > 800)
  - c. Teacher approval and/or grade of C or better in most recent English class
2. Provide written notice to parents or guardians of their rights, invite their participation in the process, and provide an opportunity for an in-person meeting.
3. Reclassify student as Fluent English Proficient.
  - a. Place dated reclassification form signed by the English teacher in the student's file

## Supporting Long Term English Learners

Long Term English Learners (“LTELs”) are defined as students who have been in U.S. schools for six or more years without reaching nor progressing in the levels of English proficiency to be reclassified. DCP2 monitors and regularly assesses the progress of all English Learners, including LTELs, in both English language proficiency and content knowledge throughout the school year. Monitoring student progress identifies students who are not making appropriate progress and allows the school to provide additional support to enable ELs to reach English proficiency, as well as ensuring that the school is providing ELs meaningful access to grade-level core content instruction and remedying any academic deficits in a timely manner.

The charter school has established documented monitoring systems that include local assessments (e.g., publisher, state-verified) to monitor ELs’ progress over time, determine when students are not making appropriate progress, notify parents of progress and provide additional support to enable ELs to reach English proficiency and gain grade level content knowledge. The EL Progress Monitoring process is on-going using a dedicated vendor platform and includes regular communication with parents on the following:

- Performance in grade level content classes
- Performance in ELD course
- Student reading level/local assessments

Understanding that most of our current English learners are either LTELs or at risk of becoming LTELs, DCP2 has incorporated the use of the Interim ELPAC Assessment to improve the likelihood of students being prepared to reclassify.

## *Gifted and Talented (“GATE”) Students and Students Achieving Above Grade Level*

The curriculum at DCP2 is focused on providing the appropriate differentiated instruction for students of varying ability levels, including gifted or talented students. Most students who enroll at DCP2 come with the prior identification as “gifted/talented.” Students not yet identified on enrollment can be referred based on proficiency on state assessments, report card grades, and/or teacher referral. Requests will be referred to the SSPT. If a student is eligible for GATE assessment, the charter school will contact LAUSD to start the fee-for-service process. Parents can contact the College Counselor if they have questions about GATE. The principal monitors the progress of all GATE students and students achieving above grade level.

Students found to be achieving above grade level will have an opportunity to excel through differentiated instruction in the classroom and enrichment electives. Differentiation can include being given additional or complementary assignments that challenge their thinking, while adding greater depth and complexity to the curriculum. Flexible grouping within the classrooms allows more appropriate, advanced and accelerated instruction that more closely aligns with the rapidly developing skills and capabilities of students above grade level.

Throughout their high school career, students found to be achieving above grade level will have an opportunity to excel through activities such as:

- Differentiated instruction in the classroom
- Advanced Placement classes
- Honors classes
- Enrichment electives (e.g., ceramics, media arts)

### *Students Achieving Below Grade Level*

To improve the performance for all students including low achieving or at risk of not meeting grade-level standards, DCP2 monitors the performance and progress of students throughout the year. Data is accessible at the individual level and student group level. School administrators and classroom teachers monitor student progress toward standards in order to identify all students earning below a grade of C, flagging students at risk based on local assessments and/or class grades. Advisory teachers review student data/progress reports of each of their advisory students. The following takes place for those specifically identified as low achieving:

1. All incoming students are given diagnostic tests upon entry to the Charter School to identify any low-achieving students, in addition to establishing baseline reading and mathematics skills. State assessment results and grades showing students who are not meeting or nearly meeting standards are also used to assess student achievement levels.
2. If the needs are more general, the SSPT (Student Success Program Team) will convene to discuss the Tier I and II supports and/or accelerations that can be provided during the instructional day.
3. Should more intensive supports (Tier III) be required, the SSPT will contact the parents/guardians to collaborate and establish a plan of support.
4. The student receives supplemental support through acceleration/support classes in core areas in addition to regular courses.

### *Socioeconomically Disadvantaged/Low Income Students*

DGP2 provides increased opportunities to all its students, many of whom are socio-economically disadvantaged. These include opportunities for travel, exposure to various colleges around the country, personalized college counseling and test-preparation programs. Students are identified based on their free and reduced meal applications which are submitted annually. The Dean of School Culture monitors the attendance, grades, and discipline for this student group by analyzing reports generated through the student information system.

DGP2 works with parents and families, providing workshops on college entrance requirements and financial aid, community support services, and family/teen counseling.

All students are provided with a daily breakfast during the 10:00 am break. Teachers and staff understand that students may not have the resources at home to complete assignments and go out of their way to ensure that students have access to the resources they need. The Charter School provides students with school supplies including other materials the student may need. Students also have access to the Charter School's computer lab, iPads, and other technology devices to assist them in completing coursework.

### *Students with Disabilities*

DGP2 is a member of Option 3 SELPA in Los Angeles Unified School District's Charter Operated Programs. Please refer to the District Required Language included at the beginning of Element 1.

### *Students in Other Student Groups*

Foster youth, and related student groups such as homeless students, are identified by school personnel through the registration and enrollment process and supported through coordinated activities with other entities/agencies led by the Foster/Homeless Liaison. Once students have been identified, it will be noted in PowerSchool, and the Foster/Homeless Liaison will work with both internal staff and external agencies to provide additional support services on a case-by-case basis.

### **"A Typical Day"**

A freshman at Discovery Charter Preparatory #2, begins his day early, dressed in his signature blue collared shirt and navy-blue pants. Before heading to school, he makes sure he has all the necessary supplies, including his Chromebook provided by the Charter School. During the ride to drop off his younger siblings, he shares his daily schedule with his mom, reminding her about his cross-country practice after school.

To set a positive tone for the day, Andy listens to music on the way to school. He arrives at the DCP2 campus around 7:50 am and is immediately greeted by a warm and welcoming atmosphere. As he heads to the benches in front of the Charter School, he catches up with his friends, eager to hear about the girls' volleyball team's latest victory. He also checks in with his cross-country coach to discuss his running progress. By the time the first bell of the Charter School rings, he heads to his Advisory class in Room 8 where he excitedly greets his advisory teacher and walks over to his seat.

Advisory is a very special component of any student's day at DCP2. Advisory may begin with ten minutes of silent reading — not homework time. Seeing the agenda on the board, Andy brings out his daily journal and his favorite book and waits for instruction while his advisor takes attendance for the period. At least once a week, his advisor calls him up for a brief chat in which Andy reviews his current grades and, if he does not already know, gains a clear understanding of why he may be struggling in a particular class (perhaps he has been turning in work late...it is all apparent on PowerSchool). The Advisor might mandate that Andy attend after-school tutoring for a period of time, until an ailing grade improves, or a poor school habit disappears. Once SSR ends, Andy is led through a grade appropriate activity by his Advisor—this may involve study skills, brain development activities, typing lessons, or quickwrites.

At 9:00 am, the bell rings, and Andy heads to his 1st period, Study Hall, with his friend, Jefferson. Andy will usually greet a few friends on his way to class and eventually greet his teacher at the door. Even with a five-minute passing period, Andy is always quick, making it to class in just 30 seconds. Study Hall becomes a time for Andy to focus on staying ahead. While he occasionally checks his grades online to keep track of his straight-A record, most of his time is spent productively.

Andy uses this quiet period to catch up on reading *The Afterlife* by Gary Soto, finishing a chapter or two before the two-minute warning bell sounds for break. Sometimes, if he's done with reading, he uses Study Hall to organize his class notes, update his agenda for the week, or begin working on assignments from other classes. On group project days, Andy collaborates with classmates, quietly exchanging ideas or fine-tuning presentations. If the class is particularly focused, he might take the time to research topics related to his upcoming cross-country meet or even his digital 3D art project.

Study Hall, for Andy, is not just a break but a key moment in the day to recharge, review, and prepare for what's next. As the two-minute timer rings, signaling the end of study hall, Andy packs up efficiently, ready for break.

As soon as the bell rings, he heads straight to the cafeteria to check the day's breakfast menu. When he spots coffee cake on the list, knowing it's one of his favorites, he immediately joins the line with his friend Jefferson. The familiar DCP2 staff greets him as they count the students, ensuring each one receives their delicious morning meal. Andy's

mood lifts even more as the cafeteria manager offers a friendly "Good morning" and an "Enjoy," which he returns with a smile. After picking up his plate, Andy joins his friends, savoring the coffee cake along with a carton of whole milk. With a few minutes left before the next class, Andy tosses a football with his friends, making the most of this short but energetic break prior to the first bell ringing for 2nd period. Refreshed and recharged, he's ready to head into his 2nd period class, fully prepared to engage.

Andy might make a quick stop at his locker, use the restroom, or relay a message to a friend before heading to his 2nd period Art class. Sometimes, he chooses to head in early, eager to get started on his digital 3D house project. Once in class, he greets his teacher and peers, places his backpack on the hooks under the table, and sets up his Chromebook. Andy is focused, carefully designing his digital 3D house, with hopes of printing it on one of DCP2's multiple 3D printers. By the end of the period, he's made significant progress, finishing the digital furniture for his project. With that complete, Andy heads to his next class—Ethnic Studies.

Though DCP2 may only have a few hundred students, its corridors can feel like a busy street during passing periods. Despite the slow-moving crowd, Andy moves through the halls with a sense of ease. He knows so many students, regardless of grade, that the passing period becomes an opportunity for friendly nods, brief hellos, and mutual understanding. Andy's pleasant patience serves him well as he makes his way to his 3rd period class where his teacher kindly greets all students.

As he enters Ethnic Studies, Andy spots a few of his friends, and they all make their way to their desks. The class begins with "the RAP" (Review And Preview), DCP2' signature warm-up, setting the tone for the lesson. They may dive into an academic film or reading about different cultures and ethnic groups, a topic that Andy finds both engaging and important. Once the film or reading is completed for the lesson, the teacher hands out a worksheet for students to complete, encouraging discussion about important real-life themes. Andy works efficiently and finishes early, using the remaining time to chat with his peers about their thoughts on the lesson for the day. Once the bell rings for lunch, Andy packs up, ready to head out, having already completed his assignment.

Lunch at DCP2 is a vibrant experience, with the entire school sharing the same time. The main corridor becomes a bustling hub of activity as students and teachers mix—some grabbing a quick bite, others offering academic help. Andy makes his way through the crowd with his friends, heading to the lunch line. After grabbing his lunch—maybe corn dogs with fruit—Andy might volunteer at the snack shed in support of his cross country team, choose to sit at a round table with his friends, toss a football around, or even pop into a classroom for a bit of academic assistance. With most classroom doors open, Andy knows he can always swing by his teacher's classrooms for help. No matter where he goes, he feels the Charter School's supervision and security, knowing DCP2 is a safe and positive space amidst the surrounding neighborhood.

On days where Andy is volunteering at the snack shed, when there isn't much of a line of students waiting to support their cross-country team, Andy takes the initiative to walk around campus selling ice pops—especially on warm days. Five minutes before the first bell, Andy packs up and heads over to the back lot, where he joins his friends for a quick game of football. Energized and ready for the next class, Andy appreciates the balance between fun and responsibility that DCP2 fosters during lunch, making the most of this communal time.

As the bell rings for 4th period, Andy heads to Geometry, where the "RAP," along with the day's agenda and objectives, guides him and his classmates into the lesson. After a quick review of the agenda and lesson, Andy dives into a worksheet, working through each problem with focus and determination. His confidence in tackling geometry stems from this structured start to the period, making every task clear and achievable.

Once finished, Andy packs up and heads to 5th period, Biology, conveniently located in the same building. With a few minutes before the bell rings, he takes advantage of the extra time to drop off his backpack, use the restroom, and preview the day's worksheet, a clear introduction to the upcoming lesson. Andy appreciates the opportunity to get a head start and mentally prepare for what's next, knowing the structure of DCP2's classes always sets him up for success.

Prepared and ready, Andy returns to the classroom just as his biology teacher greets him and his classmates, handing out the day's worksheet. The questions on the sheet are designed to ease them into the upcoming material, serving as a warm-up for the more in-depth lesson ahead. With his Chromebook at the ready, Andy accesses Gizmos or Agile Minds, two educational platforms provided by DCP2, to support his understanding of the topic. He knows that these programs, combined with the structured classwork, help him master even the most challenging concepts. As the rest of the students settle in, Andy waits patiently for further instructions, confident that the tools and guidance at his disposal will make the lesson engaging and productive.

When the first bell for 6th period rings, signaling the last period of a regular school day, Andy heads to his English 9 class for a quick check-in. Although it's a brief stop, Andy uses the opportunity to touch base with his teacher, making sure he's up to date with assignments and getting a sneak peek at what's coming up in the curriculum. With his English work in order, he smoothly transitions to his college course during 6th period, Basic Skills 27, offered through Los Angeles Mission College Dual Enrollment Program. A program Andy is excited to continue throughout his 4 years of high school.

As Andy enters the college classroom in the same building as his other classes, he notices a shift in the atmosphere—there's a sense of independence and responsibility that comes with being part of a college-level class. His professor begins by reviewing the daily agenda, ensuring everyone is clear on the goals for the session. The focus may be on reviewing potential careers or a writing assignment, one designed to challenge their critical thinking

and writing skills. Andy listens attentively as the professor explains the task, carefully outlining the expectations and providing examples to guide the students through the process.

With his notebook open and his thoughts organized, Andy begins drafting his assignment. He finds the pace of the college class both refreshing and motivating, knowing that this experience is preparing him for future academic challenges. The writing task may be demanding, but Andy feels well-prepared, drawing on the skills he's developed throughout the day and applying them to this new level of work. By the end of the class, he leaves with a solid draft and the satisfaction of knowing he's one step closer to achieving his academic goals.

The bell rings at 3:34 pm and school is over, but not for Andy. While many students finish their day after the last bell, Andy's day continues. He heads to the boys' locker room, changes into his cross-country attire, and checks in with DCP2's after-school program, Think Together, where he grabs a snack—fruit, snacks, and water. Meeting his teammates, Andy leads warm-up stretches and prepares for practice. After completing six laps around the Charter School, he reviews his time with the coach. Then, he grabs his belongings and waits for his mom, spending the rest of his day playing soccer on the grass with his friends.

This is a typical day for Andy at DCP2—one filled with routine, growth, and a sense of community.

## **Element 2: Measurable Pupil Outcomes**

### **Element 3: Method by which Pupil Progress Toward Outcomes will be Measured**

*“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for pupil subgroups served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school.” (Ed. Code § 47605(c)(5)(B))*

*“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” (Ed. Code § 47605(c)(5)(C))*

#### **Measurable Goals of the Educational Program**

*Charter School shall meet all statewide content and performance standards and targets. (Ed. Code §§ 47605(d)(1), 60605.)*

*Charter School shall comply with all applicable laws and regulations related to AB 97 (2013) (Local Control Funding Formula) and AB 484 (2013), as they may be amended from time to time, including all requirements pertaining to pupil outcomes.*

#### **Standardized Testing**

*Charter School agrees to comply with state requirements for participation and administration of all state-mandated tests, including computer-based assessments. Charter School shall submit and maintain complete, accurate, and up-to-date California Longitudinal Pupil Achievement Data System (CALPADS) data in accordance with the requirements of California Code of Regulations, title 5, section 861. Charter School hereby grants authority to the State of California to provide a copy of all test results directly to the District as well as Charter School. Upon request, Charter School shall submit, in the requested format (e.g., CD), a copy of the results of all state-mandated tests to the District.*

#### **Measurable Goals of the Educational Program**

#### **Measurable Pupil Outcomes: Summative Assessment Performance Targets**

##### *Performance Targets Aligned to State Priorities*

Refer to the completed LCFF Table Provided in Element 1, which is incorporated herein by reference.

##### *Other Performance Targets*

Refer to the completed LCFF Table Provided in Element 1, which is incorporated herein by reference.

### **Method for Measuring Pupil Progress Toward Outcomes: Formative Assessment**

The internal assessment process at DCP2 is composed of a variety of measures that allow teachers and leadership to monitor the learning of our students and accurately meet individual learner needs.

#### *Star Renaissance – ELA and Math*

The school administers the state-verified Star Renaissance (SR) Math and English Language Arts assessments to all students in grades 9-12 each Fall, Winter and Spring.

The SR Instructional Planning Reports provide teachers with a list of skill recommendations based on recent student results, helping teachers tailor future instruction to the needs of individuals or small groups.

The SR Progress Monitoring Reports graph individual student's progress toward goals and indicate what level of intervention may be needed to get the student on track.

The SR Star Growth Reports show growth for groups of students over time, assisting leadership in determining where further professional development and support may be needed for teachers.

It is expected that all students will make at least one year's growth from Fall to Spring. Students who are below grade level are expected to make more than a year's growth during this same time.

Professional development time is allotted for data analysis after each testing session. In-depth analysis of individual student performance, student group performance, class performance, and grade level performance allow teachers and school leaders to monitor students' progress towards mastering Common Core State Standards.

In addition to Star Renaissance assessments for ELA and Math, unit assessments are administered in content specific courses. Weekly assessments that have been aligned by grade level teams are administered. The Mid-Chapter and Chapter tests that are administered have been aligned to CCSS. Grade levels have created rubrics for writing that are used for assessment of agreed upon writing focus for each unit of English Language Arts study. Teachers regularly meet to discuss these assessments and make decisions regarding instruction based on the results.

## Data Analysis and Reporting

DCP2 uses a variety of data to analyze student progress, inform instruction, assess program effectiveness, and report academic performance.

<b>Data Sources</b>	<b>Purpose</b>
Pre-Assessments	To indicate current student performance, identify skills students need to progress, and inform lesson planning
Summative Assessments (Star Renaissance and Unit Assessments)	Teachers: to adjust and differentiate instruction, identify needs for intervention or enrichment Leaders: to identify trends that can inform professional development needs
Standardized Tests (SBAC ELA and Math, CAST, ELPAC, PFT)	To measure the degree to which students demonstrate growth toward meeting standards, to determine needed accelerations, and to assess the strength of the overall instructional program
Performance Assessments	To measure the degree to which students can generalize their learning into real-world projects
Portfolios and Self-Assessments	To demonstrate growth over time and give students ownership over their learning
Parent and Student Surveys	To measure the degree to which parents and students are satisfied that our school is meeting their needs and addressing the goals of our charter.
Formal and Informal Classroom Observations	To measure effectiveness of instruction. Data is used to inform professional development needs and provide teachers with actionable feedback.

Data is shared with parents during monthly parent meetings, PAC and ELAC meetings. Information and surveys are sent home to parents who cannot attend meetings. Their input is used to help administration and the board of directors make decisions regarding programs and resources that best meet the needs of students.

Individual communication with parents will come in the form of progress reports, grade reports, parent conferences and school letters.

## Grading, Progress Reporting, and Promotion/Retention

### *Grading Policy*

DCP2 gives students the opportunity to demonstrate their knowledge of each standard through various modalities. Report card grades are based on a combination of classroom engagement and participation, classwork and quizzes, individual and group projects, formative and summative assessment results, homework assignments, and extra credits. DCP2 uses letter grades based on the following percentages:

A = 90-100%

B = 80-89%

C = 70-79%

D = 60-69%

F = 59% and below

A student must receive a grade of C or above to receive credit for a course.

### *Progress Reporting*

Progress reports are sent home in October, December, March, and May. Final semester report cards are sent home at the end of each semester in December and in June.

Official parent conferences are scheduled once per semester, when parents are invited to meet with grade level teachers to discuss student performance. However, parents are encouraged to communicate with teachers and administrators any time throughout the year if they have any academic concerns.

Parents are notified of student progress through parent meetings, parent conferences and letters sent home by advisors. All parents and guardians have access to the online grade book program. This allows parents to continually monitor their child's grades. Parents are also mailed the CAASPP testing results for their child each year.

### *Promotion/Retention*

At DCP2, no student is retained at any grade level. The Charter School offers multiple opportunities for students to make up coursework. Recovery courses are offered throughout the year in traditional and blended learning environments. All necessary resources are made available to encourage every student to meet graduation requirements. As discussed in the transferability of courses section, we run grade checks every semester to track student graduation progress. Parents and students are provided with a graduation check letter with any missing courses listed. The College Counselor meets with parents of any juniors or seniors who are not on course to graduate in order to develop intervention plans. These may include Winter/Spring Intersession, Summer Intersession, online course recovery options, and tutoring. When interventions fail to work, parent meetings are held to determine further supports. Sometimes they are offered the

option to complete an extra year or to complete in the summer. If a student continues to fail, options are provided to refer them to resources to complete their GED.

**Governing Board Composition and Member Selection***Composition and Rationale*

The authorized number of DCP2 Board members (“Directors”) shall be not less than [five] or more than [twelve], with the exact authorized number to be fixed, within these limits, by resolution of the Board.

The current DCP2 governing board consists of leaders in education, social work, law, law enforcement, and business. Several of the board members also have experience on other governing boards. The Board seeks to elect directors who have demonstrated a history of leadership and service within their communities and who can contribute specific experience, qualifications, attributes and skills to DCP2. For example, prospective candidates may be nominated based on their area of professional expertise (i.e. educational, financial, human resources, legal) or on their demonstrated record of leadership within the community.

*Criteria and Process for Selection*

As defined in the Bylaws, Director terms are two (2) years in length. At the expiration of the current terms, upon appointment to the Board of Directors, each Director will be assigned to a term of two (2) or three (3) years in length at the discretion of the Board, the primary consideration for which is to establish staggering of terms in order to ensure institutional continuity. After the expiration of the staggered terms each Director shall hold office unless otherwise removed from office in accordance with these Bylaws for two (2) years and until a successor director has been designated and qualified. Directors shall be appointed at each annual meeting of the Board.

Board members are recruited for specific areas of expertise that will complement the skillset of the current board, strengthen its governance capacity, and contribute to the vision of DCP2. The Board also seeks candidates who will contribute to the diversity of our board by offering differences in viewpoint, professional experience, education, skill and other individual qualities and attributes that contribute to the heterogeneity of the board.

Potential board members must be willing to dedicate the time it requires to be fully prepared at each board meeting and must be able to attend the regular meetings

scheduled during the year. They must also be willing to fully participate on board committees to provide adequate oversight and support to the Charter School.

After determining the board positions that need to be filled, the board shall post the positions on the DCP2 website and invite interested parties to submit a letter of intent, a biography, and resume. Based on the review of this documentation, a candidate will attend an interview with existing board members and attend a subsequent board meeting to be formally nominated. Confirmation of the nominee to join the board shall be put to a Board vote resulting in formal appointment.

A person elected to fill a vacancy as provided by this Section shall hold office until the next annual election of the Board of Directors or until their death, resignation or removal from office. (Bylaws, Article 3, Section 7.4.5)

If there is a vacancy on the Board, including a vacancy created by the removal of a Director, the Board may fill such vacancy by electing an additional Director as soon as practicable after the vacancy occurs. If the number of Directors then in office is less than a quorum, additional directors may be appointed by a vote of the board to fill such vacancies by (i) the affirmative vote of a majority of the Directors in office at a meeting held according to notice or waivers complying with section 5211 of the California Nonprofit Corporation Law, or (ii) a sole remaining Director. Furthermore, if the Director whose office is vacant was the Charter Authorizer Director, then the charter authorizer may appoint a Charter Authorizer Director to fill the vacancy.

Each Director elected to fill a vacancy shall hold office until the expiration of the term of the replaced Director, and until the election and qualification of a successor, or until that Director's earlier resignation or removal in accordance with these Bylaws and California Nonprofit Corporation Law.

(Bylaws, Article 3, Section 7.10.2)

#### Abstention and Teleconference Participation

A majority of all the membership of the Board attending the meeting must vote affirmatively to approve any action, unless otherwise required by the Bylaws. If a Board member wishes to abstain from a vote, they record that when the item is voted on.

### **Admission Requirements**

Discovery Charter Preparatory #2 is a tuition-free public school which admits all pupils who wish to attend. To apply for admission, families must complete an Enrollment Application Form, which includes the student's name, grade, birthdate, and contact information. This form must be completed by the third Thursday in October, for admission in the following year. Currently enrolled students shall be continuously enrolled. (No additional application is necessary.)

If the number of pupils who wish to attend our school exceeds capacity, enrollment shall be determined by a random public drawing as described below.

### **Student Recruitment**

DCP2 is committed to serving all students, including, but not limited to, low-income, economically disadvantaged students, students with disabilities, and educationally disadvantaged students. The Charter School tailors its student recruiting efforts and student enrollment processes to attract all students from the communities it serves. All of the methods outlined in Element 7, Means to Achieve Racial and Ethnic, Special Education, and English Learners, including Redesignated Fluent English Proficient Pupils Balance, are reflective of this mission. Specific activities that will be employed by DCP2 are articulated in Element 7 above.

### **Lottery Preferences and Procedures**

Lottery procedures and timelines will be posted yearly in the main office and on the website beginning on October 1<sup>st</sup>, in order to communicate to all interested parties the timeline, rules, and procedures to be followed during the open enrollment and lottery processes. Preference for available spaces is given in order of the following:

Students who reside within the boundaries of the Los Angeles Unified School District

No other preferences shall be given in the lottery or admission process.

#### *Lottery Process*

A drawing will be held at Discovery Charter Preparatory #2 on a date and time when most interested parties will be able to attend. The date, time, and location of the lottery each year is communicated in the October 1st website posting. The process will be as follows:

- A neutral member of the community will draw randomly-assigned applicant numbers until all numbers have been called. Lotteries will be conducted in ascending order beginning with the lowest applicable grade level. There is no weighted priority assigned to the preference categories; rather, within each grade level, students will be drawn from pools beginning with all applicants who qualify for the first preference category, and shall continue with that preference category until all vacancies within that grade level have been filled. If there are more students in a preference category than there are spaces available, a random drawing will be held from within that preference category until all available spaces are filled. If all students from the preference category have been selected and there are remaining spaces available in that grade level, the drawing shall continue until all spaces are filled and preference categories are exhausted in the order provided above.
- Random numbers will be assigned to each applicant. These numbers will be listed on a spreadsheet, which will be projected on a screen at the front of the auditorium for all participants to view, and those who have been admitted will be clearly identified on the publicly viewed spreadsheet.

- When all open spaces have been filled, it will be announced that all names that are pulled from that point on will be placed on a waiting list in the order they are drawn. The waiting list is generated by utilizing the admission preferences listed above.
- This process will continue until all randomly-numbered forms have been drawn and all names are listed on the publicly viewed spreadsheet.

Discovery Charter Preparatory #2 will invite LAUSD representatives and respected members of the community as official observers of the lottery to verify lottery procedures are fairly executed.

### **Post Lottery Procedures**

- Following the drawing (within three school days), the Coordinator of Student Records and Assessment will call the parents of all students to be enrolled and those on the waiting list.
- Parents of students on the waiting list will be informed by the Coordinator of Student Records and Assessment by phone and letter as to the student's place on this list.
- When a student from the waiting list is offered admission, the parent/guardian will have three days to determine whether to accept or reject the offer of admission to the Coordinator of Student Records and Assessment.
- The Coordinator of Student Records and Assessment will maintain all forms and records for all students who participated in the lottery for one year as well as the spreadsheet completed during the lottery drawing documenting the order of names selected.

### **Enrollment**

The enrollment process after the student has been admitted includes the following:

- Enrollment orientation meeting
- Completion of all required forms:

As set forth in the MOU regarding special education between the District and Charter School, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District's Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a Section 504 Plan, Charter School's administrator will convene a Link Determination meeting to ask the following two questions:**

- A. Was the misconduct caused by, or directly and substantially related to the student's disability?
- B. Was the misconduct a direct result of the Charter School's failure to implement Section 504?

#### **Notification of the District**

Charter School is responsible for reinstating the student upon the conclusion of the expulsion period in a timely manner.*

#### **Gun-Free Schools Act**

*Charter School shall comply with the federal Gun-Free Schools Act.*

### **School Climate and Student Discipline System**

Our school culture focuses on creating a safe, respectful and supportive environment that promotes learning and protects the safety and wellbeing of students, staff, and families. Toward this end, DCP2 has implemented a School-Wide Positive Behavior Intervention and Support ("SWPBIS") plan along with a progressive discipline policy that is reviewed by the Board of Directors, administrators, teachers and the PAC each year. This philosophy is consistent with the District's Discipline Foundation Policy and the School Policy and School Climate Bill of Rights Board of Education resolution. The SWPBIS has a three-tiered approach:

- Tier 1 supports focus on the entire student population by creating a school culture conducive to academic and behavioral excellence. This includes positive incentives and a token reward program which rewards students for exemplifying positive behaviors. Each month, the Coordination of Services Team ("COST") meets to determine the effectiveness of these supports.

- Tier 2 and Tier 3 interventions are for students who need more support. When Tier 1 supports are not resulting in improved student behavior, the Student Services Team (“SST”) meets to create more targeted interventions, which may include counseling services, meetings with the principal, parent conferences, individualized incentive plans, behavior contracts, social skills training, or referrals to community-based programs.

The SWPBIS will build upon a school wide classroom management plan that will ensure an equitable disciplinary system across classrooms, and clearly articulated and explicitly taught behavioral expectations for all common areas of the Charter School.

### *Restorative Justice Practices*

Staff and faculty have been provided with extensive training on restorative justice practices, including practical strategies to build strong and healthy relationships, the use of circles to facilitate and encourage meaningful communication, restorative conferences, and family engagement and empowerment. The purpose of restorative justice practices in schools is to build a positive school community by repairing relationships between students, addressing harmful behaviors, and promoting accountability through open communication and reflection, aiming to resolve conflicts constructively rather than through punitive measures, ultimately leading to a more supportive learning environment for all students. An added benefit is the reduction in disciplinary issues and suspensions, improved school climate and student engagement, enhanced conflict resolution skills, Increased empathy and understanding between students, and positive impact on student well-being and mental health. The professional development for staff at the beginning of each school year focuses on creating a positive school culture and using group activities to teach and reinforce positive behaviors.

### *Alternatives to Suspension*

The SWPBIS three-tiered approach will be the foundation used to reduce suspensions and expulsions. Before suspension is considered, the student has multiple opportunities to learn new academic and behavioral skills and implement those skills on campus and in the classroom. Other alternatives to suspension will include:

- Behavior monitoring
- Community service
- Coordinated behavior plans
- Educational detention

- Loss of school privileges
- Mentoring/counseling
- Mini courses
- Parent support
- Peer or adult mediation
- Positive contingency contracts
- Reflective activities
- Restitution
- Restorative practices

#### *Monitoring Student Behavior Data*

DCP2 utilizes a digital behavior tracking software (PowerSchool Behavior Support) in which teachers and staff log incidents, positive behaviors, and attendance, ensuring data is consistent and easily accessible. DCP2 staff receive training on how to effectively use the behavior tracking systems and interpret the data, helping them understand the significance of behavior data and how to respond appropriately.

Behavior is compiled into regular reports (weekly or monthly) that highlight trends, patterns, and areas of concern. These reports will include metrics such as the frequency of disciplinary incidents, types of behaviors observed, and any correlations with academic performance. DCP2 analyzes the data to identify students who may need additional support. This could involve creating targeted intervention plans or behavioral support strategies based on the specific needs indicated by the data.

Regular meetings with faculty and administration are held to discuss behavior data findings. DCP2 students have opportunities to provide input on the Charter School's behavior policies and their experiences, ensuring that the data collected reflects the student body's perspective. DCP2 sets specific behavior-related goals based on the data and reviews progress towards these goals periodically, allowing for adjustments to strategies as needed.

By employing these methods, Discovery Charter Preparatory #2 aims to create a positive and conducive learning environment, using data to inform decisions and foster student growth.

## **In-School Suspension**

In-school suspension (“ISS”) practices will align with the LAUSD Discipline Foundation Policy for in-school suspensions. DCP2 students serving an in-school suspension will be assigned to a designated area within the Charter School, such as a dedicated classroom or resource room. This area will be separate from other classrooms to minimize disruption and ensure a focused environment. A certificated DCP2 staff member will supervise the students in ISS. This supervisor will be responsible for maintaining a structured environment, ensuring student compliance, and providing support as needed. DCP2 students will receive their instructional materials and assignments from their regular teachers. They will be expected to complete work that aligns with the curriculum. The supervisor will assist in facilitating this work and ensuring students stay on task.

During their time in ISS, DCP2 students will have access to behavioral support and counseling services. They may also participate in restorative practices or conflict resolution activities designed to help them reflect on their behavior and develop better coping strategies.

DCP2 parents or guardians will be notified of the in-school suspension via a phone call and a formal written notification. The communication will include:

- The reason for the suspension
- The duration of the suspension
- Information on the instructional support provided
- Opportunities for discussing the situation with school staff

The maximum number of days for in-school suspension will be set at three days per incident. However, in one academic year, a student may not serve more than ten days of ISS for various incidents, ensuring a balance between accountability and educational support.

For offenses typically precluded from in-school suspension, such as hate violence, harassment, threats, or intimidation, or terrorist threats, DCP2 intends to include ISS as an option for these offenses, with specific protocols in place to ensure safety and support. The following measures may be taken to ensure the student is appropriately supervised and supported during ISS.

- DCP2 will conduct a thorough assessment of each incident. In cases involving severe offenses, a multidisciplinary team will determine the appropriateness of ISS.
- Students will be monitored closely by certificated staff during their suspension to ensure a safe environment for all.
- DCP2 will implement restorative practices to address the behavior, emphasizing accountability and the impact of actions on others. This may include mediation sessions with affected parties (when appropriate) and educational discussions about the consequences of hate violence, harassment, and threats.
- DCP2 staff will receive training on how to manage these sensitive situations effectively, ensuring they can provide a supportive environment while maintaining safety.

By implementing these strategies, Discovery Charter Preparatory #2 aims to address student behavior in a manner that upholds safety, promotes accountability, and fosters a positive learning environment.

### **Grounds for Suspension and Expulsion**

## **Out-of-School Suspension Procedures**

Suspensions shall be initiated by the Principal according to the following procedures:

1. Conference: Suspension shall be preceded, if practicable, by a conference conducted by the Principal or the Principal's designee with the student and their

parent and, whenever practical, the teacher, or school employee who referred the student to the Principal or designee.

The conference may be omitted if the Principal or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and the student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against them and they shall be given the opportunity to present their version and evidence in their defense. The process for investigating incidents and collecting evidence will be fair and thorough.

This conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

2. Notice to Parents/Guardians: At the time of suspension, the Principal or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension, the specific offense committed by the student, and the date and time when the student may return to school. If the principal or the principal’s designee wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice will request that the parent/guardian respond to such requests without delay.
3. Suspension Time Limits/Recommendation for Expulsion: Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. The maximum number of days of in-school suspension will not exceed two (2) days per incident and five (5) days in one academic year. Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Suspensions shall not exceed twenty (20) school days in one school year, unless for purposes of adjustment, a pupil enrolls in or is transferred to another regular school, an opportunity school or class, or a continuation education school or class, in which case the total number of school days for which the pupil may be suspended shall not exceed thirty (30) school days in any school year. For students with an IEP and students with a Section

504 Plan, the total number of days the student may be suspended from school shall not exceed ten (10) school days in any year. If a suspension reaches 10 school days, the Charter School shall provide timely, written notice of the charge(s) against the pupil and an explanation of the pupil's basic rights, and a hearing adjudicated by a neutral officer w/in a reasonable number of days. At which the pupil has the right to bring legal counsel or an advocate. These limits apply to all students, including students with IEPs or Section 504 Plans.

4. Homework Assignments During Suspension: In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned. Suspended students will be able to communicate with designated classroom teacher(s) or administrator(s) for any questions and for evaluation of work and shall receive homework assignments during their suspension and be provided the opportunity to make up any missed exams.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

5. Suspension Appeals: All suspensions are at the discretion of the Principal. Parent/Guardians are notified in advance of the enactment of the suspension or expulsion and can appeal a student's suspension. All appeals must be submitted in writing to the Principal within five (5) calendar days of the date the Principal took final action to suspend the student. The completed notice may be delivered in-person, by email, mail or fax to the school Principal. Upon receipt of the notice of appeal, the Principal or designee will notify the parent/guardian in writing of the hearing date, place, and time at least 24 hours before the hearing, and the hearing will be held within five school days of the receipt of the notice of appeal. A quorum of the DCP2 Board of Directors shall hear the appeal and render a final decision which shall be forwarded to the parent/guardian by email, personal service or certified mail within three (3) days of the final hearing.

### *Students with Disabilities*

The Charter School will implement operational and procedural guidelines ensuring federal and state laws and regulations regarding the discipline of students with disabilities are

met. The Charter School will also ensure staff are knowledgeable about and comply with the District's Discipline Foundation Policy.

### *Interim Placement Procedures*

The Charter School currently participates in an MOU with LAUSD, "The MOU for Alternative Educational Placement in LAUSD", to ensure appropriate interim placement occurs and meaningful education is provided. If the MOU is not in effect the Charter School will ensure the student receives all assignments from each class in a timely manner.

If the student receives or is eligible for special education, the Charter School shall identify and provide special education programs and services at the appropriate interim educational placement, to be coordinated with the LAUSD Support Unit, Division of Special Education, as well as Charter Operated Programs ("COP").

### **Expulsion Procedures**

The Hearing Officer (designated from among the Expulsion Panel or Board), Expulsion Panel (consisting of certificated employees), and the Board of Directors (pursuant to an appeal) have the authority to expel a student. Upon a recommendation of expulsion by the Principal or Principal's designee, the pupil and the pupil's guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Principal or designee upon either of the following determinations:

1. The pupil's presence will be disruptive to the education process; or
2. The pupil poses a threat or danger to others.

Upon either determination, the pupil's suspension will be extended up to a maximum of 30 school days from the date of the recommendation for expulsion pending the results of an expulsion hearing.

**Expulsion Hearing:** Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Reasonable accommodations and language support will be ensured by conferring with the family and provided what is needed. The hearing will be held within 30 days after the Principal determines that the student committed an act subject to expulsion and the recommendation for expulsion has been made. The expulsion hearing will be presided over by either a neutral Hearing Officer who has no involvement with the student or an Expulsion Panel of at least one administrator not involved in the case and one full-time credentialed teacher from the Charter School who does not currently teach the student.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of specific fact(s), charge(s) and offense(s) upon which the proposed expulsion is based;
3. A copy of The Charter School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other School district or School to which the student seeks enrollment;
5. An explanation of the opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. An explanation of the right to inspect and obtain copies of all documents to be used at the hearing;
7. An explanation of the opportunity to confront and question all witnesses who testify at the hearing;
8. An explanation of the opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

### *Interim Placement*

The Charter School shall ensure the appropriate interim placement of students during and pending the completion of the Charter School's student expulsion process. For students with an IEP and students with a Section 504 Plan, the total number of days the student may be suspended from school shall not exceed ten (10) school days in any year. If a suspension reaches 10 school days, the Charter School shall provide timely, written notice of the charge(s) against the pupil and an explanation of the pupil's basic rights, and a hearing adjudicated by a neutral officer w/in a reasonable number of days. At which the pupil has the right to bring legal counsel or an advocate. The maximum number of days a suspension can be extended is up to 30 school days from the recommendation for expulsion, but the student continues to get notice about the status until the final decision is made. The Charter School seeks to minimize the loss of instructional time for a student

awaiting the results of an expulsion hearing. The student will be placed in an alternative education setting per our agreement with the District for no more than 20 days.

If the student receives or is eligible for special education, the Charter School shall identify and provide special education programs and services at the appropriate interim educational placement, pending the completion of the expulsion process, to be coordinated with the LAUSD Support Unit, Division of Special Education in conjunction with Charter Operated Programs. Interim placements for students with disabilities will follow the IEP process.

### *Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses*

The Charter School may, upon finding a good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations, which shall be examined only by The Charter School Hearing Officer or Expulsion panel. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five days notice of their scheduled testimony, (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include a parent, guardian, or legal counsel, and (e) elect to have the hearing closed while testifying.
2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the hearing officer or Expulsion Panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.
4. The hearing officer or Expulsion Panel conducting the expulsion hearing may also arrange the seating within the bearing room to facilitate a less intimidating environment for the complaining witness.
5. The hearing officer or Expulsion Panel conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the hearing officer or chairperson (administrator) presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The hearing officer or chairperson conducting the hearing may permit any one of the support persons for the complaining witness to accompany them to the witness stand.
7. If one or both of the support persons is also a witness, The Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to The Charter School. The hearing officer or chairperson presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the hearing officer or presiding official (chairperson) shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the hearing officer or presiding official from exercising their discretion to remove a person from the hearing whom they believe is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the hearing room during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the chairperson that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

### *Record of Hearing*

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. If parents or students request a copy of the recording, it is provided to them in a thumb drive.

### *Presentation of Evidence*

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A decision by the Hearing Officer or Expulsion Panel to expel must be supported by substantial evidence presented at the hearing that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay and sworn declarations may be admitted as testimony from witnesses of whom the Hearing Officer or Expulsion Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the accused pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have their testimony heard in a session closed to the public.

The decision of the Hearing Officer or Expulsion Panel shall be in the form of written findings of fact. If the expulsion-hearing panel decides not to expel, the pupil shall immediately be returned to their educational program at The Charter School.

### *Written Notice to Expel*

Following a decision of the Hearing Officer or Expulsion Panel to expel, the Principal or designee shall send written notice of the decision to expel within 10 school days after the conclusion of the hearing, including the adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense(s) committed by the student
2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with The Charter School
3. Information regarding appeal rights and process

#### 4. Information regarding rehabilitation and reinstatement eligibility

The Principal or designee shall send a copy of the written notice of the decision to expel to the student's district of residence; this notice shall include the following:

1. The student's name
2. The specific expellable offense committed by the student

#### *Disciplinary Records*

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the District upon request.

#### *Appeals*

Expulsions are recommended by the Principal and decided by the Hearing Officer or Expulsion Panel. Parent/Guardians are notified in advance of the enactment of the expulsion order and can appeal a student's expulsion. Enactment of an expulsion occurs immediately after the Hearing Officer or Expulsion Panel has made their final decision. Any appeals may be presented to the Charter School Board of Directors within 5 school days of the Hearing Officer or Expulsion Panel's decision. The appeal will be heard by the Charter School Board of Directors. The Board will make a decision within 10 days of receiving the appeal, and the student will be considered suspended until the Board reaches its decision. Reasonable accommodations will be made, and language support offered, for students and parents/guardians who wish to appeal. The Board will make a final decision based on the information from the original expulsion hearing and any additional information presented by the appealing students or their parents/guardians. The Principal or designee will send written notice to the student or parent/guardian of the Board's decision within seven (7) calendar days of the Board's decision. The decision of the Board of Directors will be final. Notice to the pupil and Board will be delivered in writing. A copy of the expulsion hearing record shall be furnished to the Board.

#### *Expelled Pupils/Alternative Education*

The Charter School will assist parents in seeking alternative education programs due to expulsion. Post-expulsion support will be provided by the Charter School in order to ensure continued access to education. The Charter School shall provide assistance in contacting alternative education programs and help to facilitate the transition, making sure that the

selected alternative education program receives all relevant records and documents, and following up to ensure students have continued access to education.

### *Outcome Data*

Charter School shall maintain all data-involving placement, tracking, and monitoring of student suspensions, expulsions, and reinstatements, and make such outcome data readily available to the District upon request.

### *Rehabilitation Plans*

A conference will be held with the parent/guardian, student, and Principal's designee prior to reassignment to another school. The purpose of the conference will be to hear the student's concerns and to aid the student in taking the next steps toward reintegrating into a new school community. The Charter School shall provide the student and parent with assistance in contacting alternative education programs and help to facilitate the transition.

The Charter School will also assist the student in developing a rehabilitation plan, which may include a reflective personal statement, recommendations for counseling, youth development programs, rehabilitative programs, and community service. The student's rehabilitation program may provide for the involvement of the student's parent or guardian in the student's education, but a parent or guardian's refusal to participate in the rehabilitation program shall not be considered in the Charter School board's determination as to whether the student has satisfactorily completed the rehabilitation program.

### *Reinstatement*

A student who is expelled from the Charter School shall be given a rehabilitation plan at the time of the expulsion order. The plan may include periodic review and assessment at the time of review for consideration of reinstatement, which will not be more than one year from the date of expulsion.

Students expressing interest in reinstatement will be offered the opportunity to schedule periodic meetings with the Principal's designee to share their rehabilitation progress and set additional goals toward securing reinstatement. The Principal's designee shall document student progress and retain such documentation as support for the Board's future consideration of reinstatement for the student.

It is the responsibility of the student's parent or legal guardian to prepare and submit a petition for reinstatement.

The decision to readmit a student shall be in the sole discretion of the Charter School Board of Directors following a meeting with the Principal, the student, and parent or guardian to determine whether the student has successfully completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Principal shall make a recommendation to the Board following the meeting regarding their determination.

The Board shall act to either unconditionally reinstate, conditionally reinstate, or not reinstate the student at its next board meeting. If the Board elects to conditional reinstatement a student, the Board may require the student to agree in writing to specific conditions before the student's reinstatement. The conditions could include a behavior contract; participation in or completion of an anger management program or other appropriate counseling; periodic progress reviews; or specified immediate consequences for failure to abide by a condition.

#### *Readmission*

After successfully attaining reinstatement, a formerly expelled student may reapply and be readmitted to the Charter School. The student's readmission is contingent upon the Charter School's capacity at the time the student seeks readmission.

NOTE: This Charter contains specific "Federal, State and District Required Language" (FSDRL), including the *Assurances, Affirmations, and Declarations* section above. The FSDRL should be highlighted in gray within each Charter element or section. The final section of the Charter provides a consolidated addendum of the FSDRL. This intentional redundancy facilitates efficient charter petition review while ensuring ready access to the FSDRL for any given section of the Charter. To the extent that any inconsistency may exist

between any provision contained within the body of the Charter and the FSDRL contained in the addendum, the provisions of the FSDRL addendum shall control.

Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.

### **Use of District’s Special Education Policies and Procedures and Data Systems**

All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of orders imposed upon the District pertaining to special education. software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

Charter School shall document and implement the alternatives to suspension and expulsion that Charter School utilizes in response to attendance-related concerns, e.g. truancy or excessive tardiness.

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student or the student’s parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student’s educational rights holder, and shall inform him or her of the basis for which the pupil is being involuntarily removed and his or her right to request a hearing to challenge the involuntary removal. If the student’s parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated in this section.

(Ed. Code § 48913.5)

## **STUDENTS WITH DISABILITIES**

In the case of a student who has an Individualized Education Program ("IEP"), or a student who has a Section 504 Plan, Charter School shall ensure that it follows correct disciplinary procedures to comply with the mandates of state and federal laws, including IDEA and section 504 of the Rehabilitation Plan of 1973. As set forth in the MOU regarding special education between the District and Charter School, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District's Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a Section 504 Plan, Charter School's administrator will convene a Link Determination meeting to ask the following two questions:

Notwithstanding and apart from the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student's district of residence within 30 days of the expulsion. Additionally, upon request of the receiving school district, Charter School shall forward student records no later than 10 school days from the date of the request as stated in Education Code section 49068 (a) and (b).

- b. Make final federal tax payments (employee taxes, etc.)
- c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School's authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

## Additional Provisions

### **FACILITIES**

Charter School shall comply with all geographic and site limitations and related requirements set forth in Education Code sections 47605.1, 47602(a), and 47605(a).

### **District-Owned Facilities**

If Charter School is using District facilities as of the date of the submission of this charter petition or takes occupancy of District facilities prior to the approval of this charter petition, Charter School shall execute an agreement provided by the District for the use of the District facilities as a condition of the approval of the charter petition. If at any time after the approval of this charter petition Charter School will occupy and use any District facilities, Charter School shall execute an agreement provided by the District for the use of the District facilities prior to occupancy and commencing use. Charter School shall implement and otherwise comply with the terms of any and all applicable facilities use agreements between Charter School and the District.

The circumstances of Charter School's occupancy of District facilities may change over time such as, but not limited to, enrollment, programs, and the conditions of facilities, and the District has a vested interest in having an agreement that is appropriate for the situation.

For a Sole Occupant Agreement or any other use agreement that is not a Proposition 39 Single Year Co-location Use Agreement or a lease issued through the Notice of Intent and bid process, the term may be co-terminous with the approved Charter, as permitted by law. Charter School and the District shall negotiate any modifications of the agreement with the goal of such amendment or new agreement being considered by the LAUSD Board of Education with the renewal of the charter petition. If Charter School and the District cannot execute an agreement in time for such to be considered by the Board of Education with the renewal of the charter petition, the approval of the renewal of the charter petition shall be conditioned upon Charter School and the District executing an amendment to the existing use agreement or a new agreement no later than May 1st or within nine (9) months of the date of the Board of Education's approval of the renewal of the charter petition. During such time period Charter School shall be permitted to remain in occupancy of the District facilities under the terms and conditions of the immediately preceding, executed use agreement; provided, that if Charter School and the District cannot agree upon and execute an amendment or new use agreement by said deadline, Charter School shall vacate the District facilities on or before June 30th of said school year.

Charter School acknowledges and agrees that occupancy and use of District facilities shall be in compliance with applicable laws and District policies for the operation and maintenance of District facilities and furnishings and equipment. Charter School shall

comply with all District health, safety, and emergency procedures and requirements and shall be subject to inspection by the District's Facilities Services Division, OEHS, and other District offices in the same manner as other LAUSD campuses. All District facilities (i.e., schools) will remain subject to those laws applicable to public schools.

In the event of an emergency, all District facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations, which may disrupt or prevent Charter School from conducting its educational programs. If Charter School will share the use of District facilities with other District user groups, Charter School agrees that it will participate in and observe all District safety policies (e.g., emergency chain of information and participation in safety drills).

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:

- Use: Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. Separate and apart from its right as authorizer to observe and inspect any part of the charter school at any time pursuant to Education Code 47607(a)(1), the District shall have and reserves the right to inspect District facilities upon reasonable notice to Charter School.
- Furnishings and Equipment: The District shall retain ownership of any furnishings and equipment, including technology, ("F&E") that it provides to Charter School for use. Charter School, at its sole cost and expense, shall provide maintenance and other services for the good and safe operation of the F&E.
- Leasing; Licensing: Use of the District facilities by any person or entity other than Charter School shall be administered by the District. The parties may agree to an alternative arrangement in the use agreement.
- Programs, Services, and Activities Outside Instructional Program; Third Party Vendors:
  - (i) Any program, service, or activity provided outside the instructional program shall be subject to the terms and provisions of the use agreement, and, additionally, may require a license, permit, or additional agreement issued by the District. The term "instructional program" is defined, per Education Code section 47612 and 5 CCR section 11960, as those required educational activities that generate funding based on "average daily attendance" and includes those extracurricular programs, services, and/or activities that students are required to participate in and do not require the payment of any consideration or fee.

- (ii) Any program, service, or activity requiring the payment of any consideration or fee or provided by a third party vendor (defined as any person or entity other than Charter School), whether paid or volunteer and regardless of whether such may be within the instructional program, shall be subject to the terms and provisions of the use agreement and such third party vendor shall be required to obtain a license, permit, or additional agreement from the District.
- Minimum Payments or Charges to be Paid to District Arising from the Facilities:
  - (iii) Pro Rata Share: The District shall collect, and Charter School shall pay a Pro Rata Share for facilities costs as provided in the Charter Schools Act of 1992 and its regulations. The parties may agree to an alternative arrangement regarding facilities costs in the use agreement; and
  - (iv) Taxes; Assessments: Generally, Charter School shall pay any assessment or fee imposed upon or levied on the LAUSD facilities that it is occupying or Charter School's legal or equitable interest created by the use agreement.
- Maintenance & Operations Services: In the event the District agrees to allow Charter School to perform any of the operation and maintenance services, the District shall have the right to inspect the District facilities, and the costs incurred in such inspection shall be paid by Charter School.
  - (iii) Co-Location: If Charter School is co-locating or sharing the District facilities with another user, the District shall provide the operations and maintenance services for the District facilities and Charter School shall pay the Pro Rata Share. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such in the use agreement.
  - (iv) Sole Occupant: If Charter School is a sole occupant of District facilities, the District shall allow Charter School, at its sole cost and expense, to provide some operations and maintenance services for the District facilities in accordance with applicable laws and LAUSD's policies on operations and maintenance services for facilities and F&E. NOTWITHSTANDING THE FOREGOING, the District shall provide all services for regulatory inspections which as the owner of the real property it is required to submit, and deferred maintenance, and Charter School shall pay LAUSD for the cost and expense of providing those services. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such services in the use agreement.
- Real Property Insurance: Prior to occupancy, Charter School shall satisfy requirements to participate in LAUSD's property insurance or, if Charter School is the sole occupant of

LAUSD facilities, obtain and maintain separate property insurance for the LAUSD facilities. Charter School shall **not** have the option of obtaining and maintaining separate property insurance for the LAUSD facility IF Charter School is co-locating or sharing the LAUSD facility with another user.

### **Non-District-Owned Facilities**

Occupancy and Use of the Site: Prior to occupancy or use of any school site or facility, Charter School shall provide the CSD with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Charter School shall not exceed the operating capacity of the site and shall operate within any limitations or requirements provided by the Certificate of Occupancy and any applicable permit. Charter School may not open or operate without providing a copy of an appropriate Certificate of Occupancy to the CSD. If Charter School intends to move or expand to another facility during the term of this Charter, Charter School shall adhere to any and all District policies and procedures regarding charter material revision and non-material amendment. Prior to occupancy or use of any such additional or changed school site, Charter School shall provide an appropriate Certificate of Occupancy to the CSD for such facility. Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

Facility Compliance: Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements. This requirement shall also apply to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, and notices issued by any authorized building and safety agency. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and shall promptly provide such documentation to the CSD upon request.

Pest Management: Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

Asbestos Management: Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

Charter School further understands and agrees that the District shall make appropriate deductions from the in lieu property tax amounts otherwise owed to Charter School.
