

# VOCATIONAL SKILLS

Leichman CTC offers a variety of important life skills for your student. Recent State and Federal laws have led our California Regional Centers to consider competitive and integrated employment as a first option.

Leichman CTC offers the vocational skills necessary for your student to successfully transition to post-secondary settings!

Our students work at real community businesses and organizations

## LIFE SKILLS

## BOOK A TOUR

Leichman CTC is enrolling 18-22 year old students on the Alternate Curriculum all year long. Contact us for more information on programs, services, and tours.

## CONTACT US

"The skills they are taught at Leichman bring value to our store so its a win-win for both of us."

- Brian, Smart & Final Store Manager

## WHY CTC?

Students on the Alternate Curriculum deserve a post-high school experience like all other students. CTC's provide essential life and job skills in a post-high school setting. Our Job Developers track the progress of students at CTC's and provide real-world work experience for students in the community! Our Direct Hire rate surpasses state and federal employability rates for adults who have graduated from alternate curriculum programs. Our graduates are better prepared for Regional Center Programs. It is essential that students who have completed 4 years of high school transition to a CTC for necessary skills training.

## CATS & PROJECT SEARCH

CATS (Center for Advanced Transition Skills) serves students ages 18-22 on the alternate curriculum. These students learn to take public transportation to and from Pierce College. They are enrolled in college classes and participate in on and off-campus work internships.

Project SEARCH serves students age 21 on the alternate curriculum. Students take MTA to and from Kaiser Permanente, Woodland Hills and rotate through work internships in various hospital departments. Project SEARCH has one of the highest direct hire rates for adults with disabilities in the nation!

## WORK STRANDS

The work strands at Leichman CTC provide hands-on instruction in a variety of vocational settings. Students have the opportunity to gain valuable independent living, job, and social skills instruction in the strands. Many of our work strands also provide an off-campus component for age-appropriate community integration.

### List of Strands:

Culinary Arts	Drama
Horticulture	Media & Networking
Retail	Film Production
Shipping & Receiving	Off-Campus Work
Health & Beauty	Textiles
