My Favorite Apple: _____

A Family's Organic Apple Legacy

Cuyama Orchards started in 1992 when Howard and Jean Albano planted apple trees in front of their farmhouse. A few years later, their son Byron joined to help sell the apples, and people quickly loved them!

By 1999, the farm became organic, and they kept planting more trees to share their tasty apples with even more people.

Today, Cuyama Orchards is in Ventura County, California, (Cuyama Valley) surrounded by tall peaks and forests. The warm days and cool nights there help the apples grow sweet, crunchy, and full of flavor.

sometimes sweet, sometimes tart.

ALWAYS DELICIOUS

for more information, please visit:
