Los Angeles Unified School District
Office of Environmental Health and Safety

TO: Rosemarie Martinez, Principal
Gardena Senior High

DATE: November 13, 2017

FROM: Robert Laughton, Director 
Office of Environmental Health and Safety

**SUBJECT: NOTICE OF EXEMPTION FROM DAILY DRINKING WATER
FLUSHING REQUIREMENTS**

The Office of Environmental Health and Safety (OEHS) has conducted an evaluation of sampling data at Gardena Senior High (0001866401) as requested by the Facilities Services Division (FSD). OEHS has determined that lead levels are below the U.S. Environmental Protection Agency's and the District's thresholds for lead in drinking water. As such, daily flushing activities at Gardena Senior High may cease.

Quality assurance/control sampling will be randomly conducted at school sites and if necessary, corrective measures will be implemented. If it is determined that daily flushing is then required, you will be notified in writing.

Please post this notice in a place appropriate for public viewing. If you should have any questions or need assistance, do not hesitate to contact our office at (213) 241-3199.

INTEROFFICE CORRESPONDENCE

Los Angeles Unified School District
Maintenance and Operations Branch

TO: Robert Laughton, Director
Office of Environmental Health and Safety

DATE: October 27, 2017

FROM: Daniel J. Brady, Interim Area Facilities Services Director *D.J.B.*
Maintenance and Operations - Projects Unit South

SUBJECT: **Gardena High School (0001866401) - DRINKING WATER QUALITY REPORT**

The Facilities Services Division, Maintenance and Operations Branch (M&O) has completed a Drinking Water Quality review at Gardena High School. M&O has verified that all fixtures and fountains that may be used for consumption of water or used for food preparation per Reference Guide REF-3930.4 *Daily Flushing Requirements for Drinking Fountains and Faucets* have a first and second draw lead sample result below the Office of Environmental Health and Safety (OEHS) recommended action level.

The attached Drinking Water Outlet Report includes detailed sampling information for this site.

Drinking Water Exemption Checklist

The Entire Campus must be surveyed; not just one building for a magnet, title 1, Charter school etc.
EECs and continuations can be surveyed by themselves

GARDENA SENIOR HIGH SCHOOL (0001866401)

1. All Active Plot Plan Points (PPP) on the DWOR are represented on the CAFM Plot Plan. ☒
2. Any PPP on the DWOR not accounted for on the CAFM Plot Plan, must have a specific statement indicating an explanation for the deficiency. The generic statement should include the school name, date, and who wrote the explanation. ☒
3. There must be at least 1 active faucet in the kitchen and Nurse/Health office. (EECs and Continuation High Schools usually don't have a nurses' office) if none then indicate in the generic statement. Please highlight these PPP on the CAFM Plot Plan and DWOR. ☒
4. If there culinary arts or home economics class rooms please highlight those faucet on the PPP. ☐ NA
5. Lab Results, Barcode History and Plot Plan Points for all locations need to match the DWOR. ☒
 - In case of any discrepancies, an explanation for each discrepancy will need to be provided for every individual scenario. In case there is no resolution, water re-sampling might have to occur to resolve the issue.
6. The Org Code on the lab report must match on all Paperwork, DWOR, Plot Plan, etc. ☒
7. All active outlets < 15.0 ppb for 1st and 2nd draw. ☒
8. Any faucet with a 2nd draw, (b) sample, of >=15.0 ppb must be decommissioned (They cannot be relabeled as "not a Drinking Water Source"). ☒

The following documents are required for an exemption letter to be issued

- a. Drinking Water Outlet Report (DWOR)
- b. All Laboratory Results
- c. Active Plot Plan / Map
- d. Generic Statement Letter
- e. Flushing Exemption Routing Sheet

Flushing Exemption Response Sheet

11/13/2017

GARDENA SENIOR HIGH SCHOOL (0001866401)

- Gardena Senior High School (0001866401) has CDS UCLA Site (0001135401), New Millennium High School (0001816501), Gardena High School Foreign Language/ International Studies Magnet (0001866402), Moneta Continuation High School (0001866601), Gardena-Carson Community Adult School: Alternative Education Work Center (0001899522), Kiriyaama (Gardena- Carson) Community Adult School (0001916401) and Gardena Early Education Center (0001916501) all located on the same Campus as Gardena Senior High School (0001866401). Gardena Early Education Center (0001916501) was exempted from daily Flushing requirements as of 12/15/2016.
CDS UCLA Site (0001135401) has Plot Points # 70 through # 74 and has a separate DWOR enclosed here for your review and reference.
New Millennium High School (0001816501) has Plot Points # 61 and # 62 and has a separate DWOR which is also enclosed for your review and reference.
Moneta Continuation High School (0001866601) has Plot Point # 156 only and has a separate DWOR which is enclosed here for your review and reference.
Kiriyaama (Gardena-Carson) Community Adult School (0001916401) has a separate Plot Point # 1 which is out of sequence from the Plot Points of Gardena Senior High School (0001866401) and has a separate DWOR enclosed here for your review and reference. This Plot Point # 1 is also shown separately on the Plot Point Plan Map.
Gardena High School Foreign Language/ International Studies Magnet (0001866402) and Gardena- Carson Community Adult School: Alternative Education Work Center (0001899522) have no Drinking Water Sources.
- Plot Point # 40 is reported both on the Active and Decommissioned Sections of the DWOR. This is because Asset Barcode # 196774, 1a, 1b, 2a, 2b (Plot Point # 40) was removed and replaced with Asset Barcode # 615815, 1a, 1b, 2a, 2b (Plot Point # 40) as of 1/7/2016. The Lab results for this Asset # 615815, 1a, 1b, 2a, 2b (Plot Point # 40) is reported in the Active section of the DWOR. This Asset at Plot Point # 40 is shown on the Plot Point Plan Map. (This Asset at Plot Point # 40 has Lab results dated 7/26/2017).
- Plot Point # 41 is reported both on the Active and Decommissioned Sections of the DWOR. This is because Asset Barcode # 196777, 1a, 1b, 2a, 2b (Plot Point # 41) was removed and replaced with Asset Barcode # 615818, 1a, 1b, 2a, 2b (Plot Point # 41) as of 1/7/2016. The Lab results for this Asset # 615818, 1a, 1b, 2a, 2b (Plot Point # 41) is reported in the Active section of the DWOR. This Asset at Plot Point # 41 is shown on the Plot Point Plan Map. (This Asset at Plot Point # 41 has Lab results dated 7/26/2017).
- Asset Barcode # 181242, 1a, 1b (Plot Point # 98) is a Pot Filler. This was removed and Salvaged as of 3/19/2009. Therefore the Lab results for this Asset at Plot Point # 98 are not reported on the DWOR. This Asset at Plot Point # 98 is not shown on the Plot Point Plan Map. (This Asset # 181242, 1a, 1b at Plot Point # 98 has lab results dated 11/06/2008).
- Plot Points # 107, # 109, # 111, # 113, # 115, # 117, # 119, # 121, # 123 and # 125 through # 146 are gaps in the sequence of Plot Points and these Plot Points were never used for this School.

EROFFICE CORRESPONDENCE
Los Angeles Unified School District
Project Unit North

Flushing Exemption Response Sheet

11/13/2017

These come under the category highlighted below for your reference. Therefore the Lab results for these Plot Points # 107, # 109, # 111, # 113, # 115, # 117, # 119, # 121, # 123 and # 125 through # 146 are not reported on the DWOR. These Plot points are not shown on the Plot Point Plan Map. (These Assets at Plot Points # 107, # 109, # 11, # 113, # 115, # 117, # 119, # 121, # 123 and # 125 through # 146 do not have Lab results).

The sample results and related fixture records for the plot plan point(s) listed may not appear on the Drinking Water Outlet Report for the several reasons. The most common reason being that the only method for retiring Drinking Water Fixture records in the old AWMS Maximo 5.2 database was moving fixture(s) to a virtual "salvage location". This could indicate that the fixture was removed, that it was a duplicate record, was replaced by a newly surveyed asset record, or that it was formatted improperly causing it to be abandoned to prevent reporting on any record where the data could be considered suspect. The salvage location in Maximo 5.2 replaced the school location and eliminated the Org Code/Cost Center reference making it impossible to post the related asset as part of the report for this site. Only plot plan points and asset data for fixtures including at least one currently active drinking water outlet are included on the Plot Plan and in the "Active" section of the Drinking Water Outlet Report.

While initial surveys used consecutive Plot Plan Point numbers to identify locations of the Drinking Water Fixtures at a given site on a map, a complete list of Plot Plan Point numbers for a given school site may now have gaps and may no longer be consecutive. Reasons for these gaps include the following scenarios: Fixtures were removed from service or a record was found to be a duplicate and the Asset Record was sent to the virtual "salvage location" in Maximo 5.2, a newly identified fixture was added and a gap was purposely left between the largest plot plan point on the surveyor's map and the newly assigned point to prevent use of duplicate numbers in case the map was not completely up-to-date, a site was split into multiple sites leaving each site without portions of the original sequence, or multiple sites were combined into fewer (or a single) site and existing Plot Plan Points had to be renumbered to preserve uniqueness.

- 1) BEFORE BEGINNING, CLICK 'CONTINUE'. IF YOU GET A POP UP MESSAGE THEN TYPE THE TASK ORDER # AND ORG CODE OF THE SAMPLES ON ROW 6 BELOW.
- 2) USE THE 'SAVE AS' FUNCTION AND NAME THE FILE: WATER SAMPLE RESULTS-WECK LABORATORIES, INC.-001-201818-8664.xls
- 3) COMPLETELY FILL OUT ONE ROW FOR EACH SAMPLE RESULT IN THE SECTION BELOW.

1) WHEN COMPLETE, SAVE THE FILE AND E-MAIL IT TO:

johny_alvarez@weclab.net

WECK LABORATORIES, INC.

An aerial photograph showing a residential area with property boundaries and lot numbers. The lots are labeled 142974, 142975, 142976, 142977, and 142973. The lots are arranged in a grid-like pattern, with 142974 and 142975 on the left, 142976 and 142977 in the center, and 142973 on the right. The photograph is taken from a high angle, showing the streets and the layout of the lots.
