I. Site Specific Planning Form

This document is to be completed by each site and posted at all LA Unified schools, along with the most current pre-filled version of the Los Angeles County Department of Public Health's Guidelines for COVID-19 Prevention in TK-12 Schools.

School Name: _____ **Location Code:** _____

School Address: _____

School Phone Number: _____

Name of Site Administrator: _____

Name of COVID-19 Compliance Officer: _____

School Communications

Information that was sent to parents/students: (Check all that apply)	
☐ Isolation and quarantine policies as they apply to students who have symptoms or may have been exposed to COVID-19	☐ Options for COVID-19 testing if the student or a family member has symptoms or exposure to COVID-19
☐ The effectiveness of face masks at decreasing risk of transmission of COVID-19 and other respiratory infections	☐ Changes in academic and extracurricular programs to avert risk
☐ How to conduct a symptom check before students leave home for school	☐ Who to contact at the school if students have symptoms or may have been exposed
☐ Importance of student compliance with physical distancing and infection control policies	☐ Importance of providing up-to-date emergency contact information, including multiple parent contact options
☐ School policies concerning parent visits to school and advisability of contacting the school remotely	☐ The right of all individuals to wear a mask without threat of interference or discrimination

II. Educational Models

Two Models: In-School and Online Independent Study

1: In-School 	2: Online Independent Study 
This model invites 100% of the student body to return for five full days of instruction inside school buildings.	This model is available for families with medical, socioemotional, or other concerns. Students receive daily online instruction for part of the day and complete independent work when not learning directly with a teacher online.

Los Angeles Unified offers the following two models for continuing to meet the educational needs for successful learning:

1. Five full days of In-School Instruction
2. Online Independent Study

Students in grades PreK-12 have been issued iPads, Chromebooks, or laptop computers. Online platforms (such as Schoology) will be maintained by all teachers to ensure that we stay ready to move seamlessly and rapidly between in-school instruction, hybrid, or distance learning as needed, and to maximize classroom instruction. High quality, online resources and technology tools are in place to support differentiation and personalized learning. We are committed to ensuring that students meet with their teachers, either in-person or online, on a regular basis. Online options are not available for California State Preschool Programs (CSPP) or Early Education Centers (EEC).

Health and Safety Compliance

Adjusting to Public Health Data

Working in close partnership with the Los Angeles County Department of Public Health (LACDPH), Los Angeles County Office of Education, the Governor's Office, and experts in the scientific community, we are monitoring changing health conditions in our community to modify plans and respond accordingly, based on public health data.

County of Los Angeles Department of Public Health: Guidelines for COVID-19 Prevention in PreK-12 Schools

- Schools must have a written COVID-19 Prevention Program that complies with the Cal/OSHA COVID-19 Prevention Non-Emergency Regulations.
- This plan requires the designation of a COVID-19 Compliance Officer who serves as the liaison to the Department of Public Health (DPH) in the event of an outbreak on campus.

Health and Safety

The safety of students and staff is always the District's priority and of paramount importance during any outbreak. The following plan describes the District's comprehensive approach to preventing and containing the spread of COVID-19 on school campuses and non-school locations. This document is the "COVID-19 Safety Plan" for the Los Angeles Unified School District and is consistent with the "COVID-19 Public Health Guidance for K-12 Schools in California, 2022-23 School Year," Los Angeles County Public Health Officer Orders, and the California Code of Regulations, Title 8, Section 3205. This plan does not include protocols for instructional programs. Response to COVID-19 is a dynamic process and is subject to change, pending updates to Los Angeles County Public Health Officer Orders and newly acquired scientific knowledge that informs District actions.

Los Angeles Unified will continuously monitor the guidance and mandates set forth by those entities listed above as well as the U.S. Centers for Disease Control. Updated information and guidance is posted on the COVID-19 Employee Resources website at <https://achieve.lausd.net/covid>.

The principal/site administrator will be the designated liaison with LACDPH in the event of an outbreak on campus. The Principal may also designate staff to act as the COVID-19 Compliance Officer as appropriate.

Vaccinations

As part of Los Angeles Unified School District's efforts to provide the safest possible environment in which to learn and work, all District employees were required to be fully vaccinated against COVID-19 no later than November 15, 2021. This requirement also applies to District partners, contractors, volunteers, co-located charter school employees, and other adults who provide services on District property. The COVID-19 vaccine is highly encouraged for all eligible students, but not required at this time.

The District's employee vaccination policy applies to all LAUSD-authorized independent charter schools and charter schools authorized by other chartering authorities occupying LAUSD facilities.

Potential Exemptions

District employees who serve the District in any capacity may apply to seek exemption from the COVID-19 vaccine requirements only under the following circumstances:

- a. The employee submits a written statement from a licensed physician identifying a need for accommodation due to the person's disability or serious medical condition. This statement must be submitted on the employee's doctor's office letterhead with the doctor's printed name, license number, signature and date the statement is issued.
- b. The employee seeks accommodation based on a sincerely-held religious belief.

The COVID [Reasonable Accommodation Application](#) is to be completed if either of the above apply.

III. Operations Plan

County of Los Angeles Department of Public Health: Guidelines for COVID-19 in TK-12 Schools and Guidance for Early Childhood Education Providers

- LACDPH recommends measures that allow for improved ventilation and reduced crowding.
- LACDPH recommends measures to optimize infection control.
- Actively encourage employees, students, parents and visitors to stay home when sick.
- Schools are encouraged to maintain signage at the entry to the school, office and throughout noting that face masks are effective at preventing transmission of COVID-19 and other respiratory illnesses.
- Masking is recommended for all persons in the school nurse's office or health office.

Physical Distancing

Where possible, classrooms have been configured to maximize space between students, personal furniture and extra district furniture will be removed, and instructional activities and PE classes are offered outdoors.

When engaged in activities that could generate respiratory droplets such as enunciating (i.e., theater workshops) or dancing, physical distancing should be increased and activities should be conducted outdoors. Music classes that involve instruments where a face mask must be removed to play should be held outdoors and should maintain 3 feet physical distance. Instrument bell covers should be used when playing wind instruments. Booths need to be well ventilated to promote full air exchange and shared equipment must be sanitized between users.

Material Sharing

Protocols have been developed to minimize the need to have multiple students sharing high touch materials when feasible. These materials include, but are not limited to books, computers, calculators, writing utensils, computer keyboards, headphones, hall passes, art supplies, musical instruments and learning aids. Single-use disposable materials are encouraged when feasible. Each school will try to supply students with their own materials when feasible. Cubbies and lockers should not be shared.

Signs, Messages, and Training Protocols

Signs and messages explaining District protocols and expectations to stop the spread of disease will be posted throughout our schools. These signs are age-appropriate and in languages representative of our community. Staff members will all be provided with Personal Protective Equipment (PPE) supplies and will have in-service training for ensuring health and safety in the workplace.

- Signs will be posted in highly visible locations, such as school entrances and restrooms that describe how to stop the spread of germs (i.e. handwashing, facemasks).
- When communicating with families (school website, social media) messages will include health hygiene, mask wearing and social distancing habits to stop the spread of COVID-19.
- Signs and messages related to disease transmission will be accessible for students with disabilities and in languages appropriate for the school population.
- [School safety signage from LAUSD Reprographics](https://www.lausdrepro.net/category/SchoolReopeningCOVID19Items) is available for schools at <https://www.lausdrepro.net/category/SchoolReopeningCOVID19Items>.

Staff members will be provided training on health and safety protocols before in-person instruction will begin. All staff members who are hired after this date, including substitutes, will be required to complete training before their first day of work. Topics covered in the training will include physical distancing, cleaning protocols, Health Office referrals and hygiene practices. Additional video training may be provided to students and families so they can practice before the start of school. In-person student instruction on new school protocols will include topics regarding expectations in health and safety practices.

School Building Protocols

Heating, Ventilation and Air Conditioning (HVAC) Systems

- HVAC systems will be inspected and tested regularly to confirm they operate properly.
- Ventilation systems will remain on when buildings are in use.
- HVAC filters have been upgraded to a MERV 13 rating or as high as possible, provided the unit is able to operate safely. The filters will be inspected regularly and changed as needed.
- Doors and windows are kept open during the school day when feasible and outdoor conditions make this appropriate. Fire-rated doors must be kept closed, in accordance with existing fire codes.
- Outdoor instruction will take place when feasible and when safety conditions and physical space allow.
- If the HVAC system is not operational, then additional ventilation should be provided with the use of fans or relocating classes until repairs are completed.

Restroom Protocols and Cleaning

The following restroom protocols will be implemented:

- Student restrooms will be serviced at least twice a day. Full cleaning and disinfecting using electrostatic equipment will be conducted by the night cleaning crew once per day.
- Students and staff will be given frequent opportunities to wash their hands for 20 seconds with soap and water. Paper towels will be provided to dry hands thoroughly.
- No personal items may be stored within the restroom (including staff bathrooms).
- Trash cans will be placed near the door and students and staff will be instructed to use a paper towel to prevent touching the handle with their hands.
- Restrooms that are used by confirmed positive cases or symptomatic individuals must be cleaned and sanitized before other occupants may use it.

Water systems

- Students and staff will be encouraged to bring their own water or refillable bottles.
- Drinking fountains and bottle filling stations will be turned on.
- Drinking water sources, including food preparation faucets, will be cleaned and sanitized daily.
- Water systems will be thoroughly flushed after long periods of inactivity.

Cleaning Protocols

Los Angeles Unified will follow LACDPH and CDC guidance for cleaning and disinfecting schools.

- Routine cleaning of all buildings will occur daily.
- Health Office areas including the general health/nurse's office may require more frequent cleaning and rapid response as needed.
- Areas where aerosol generating procedures are conducted will also require additional cleaning and disinfection.
- High touch surfaces and playground equipment will be disinfected at least once daily.
- Only [District-approved disinfectants](#) effective against COVID-19 that meet all Federal and State standards (listed on the Environmental Protection Agency (EPA)-approved list "N") will be used.
- When possible, cleaning and disinfecting products with asthma-safer ingredients will be selected to reduce the risk of asthma.
- Student restrooms will be serviced at least twice daily. Additional disinfecting will be implemented when an individual with COVID-19 symptoms has used a restroom.
- Appropriate personal protective equipment will be worn during cleaning in accordance with cleaning and disinfectant product directions.
- Custodial and other staff responsible for cleaning and disinfecting school surfaces will be trained on the manufacturer's directions and as required by the Healthy Schools Act, as applicable.
- When needed, enhanced cleaning will be conducted while students are not at school or during periods of lowest occupancy with adequate time to let spaces air out before the start of the school day.
- All cleaning products will be kept out of reach for children and stored in secured locations.

Other Considerations

- Supplies of soap, paper towels, and tissues will be available.
- Protective Plexiglas guards may be installed at reception desks/food service lines.
- Personal refrigerators, microwave ovens, and coffee machines are prohibited from classrooms. Health Office refrigerators must be locked and used exclusively for student medication and health supplies.

Daily Operations

County of Los Angeles Department of Public Health: Guidelines for Infant/Toddler and PreK-12 Schools

- Public schools should be aware of the requirements in AB 130 to offer independent study programs for the 2022-23 school year.
- Schools need to have contingency plans for full or partial closure to in-person school operations if that should become necessary based on an outbreak in the school or community.

Stable Groups in Early Education and Care Centers

Students may be placed into stable learning groups when feasible at Early Education and Infant/Toddler Centers. These groups are implemented to reduce the number of students and staff that may be exposed if a COVID-19 individual is introduced to the group. The primary stable group for students is their classroom. Class groups will be as consistent as feasible, with the same class group remaining with the same staff for the day when practical.

Visitors

All visitors must check-in and provide their name, phone number and email address, so that they can be contacted if there is an exposure during their visit. Visitors are encouraged to review the daily screening questions at the entrance to the school or office. If a visitor must be accompanied by another person (e.g. for translation, visitor is a minor or has minor students), then their information needs to be captured in the visitor log as well.

All visitors, age 2 and older, will be encouraged to wear a face mask. Any parent/guardian picking up a student who has been placed on isolation, must stay outside campus and the student will be brought to them for dismissal.

Please refer to the following charts for campus entry requirements for visitors and outside providers.

Campus Entry Requirements for Parents/Guardians Updated August 2022				
				
Requirement	Wear a Mask Indoors	Answer Daily Health Check Questions <i>Verbally upon arrival; Daily Pass QR Code is not required</i>	Proof of Full Vaccination <i>Initial vaccine series, plus two weeks; booster not required</i>	Other Processes or Procedures
Visit Purpose				
Visiting a Main Office, Open House, After-Hours Sporting Event or Performance	Follow latest District guidelines	Yes	No	No
Classroom Observation or Other Campus Interaction Lasting <u>More Than One Hour</u>	Follow latest District guidelines	Yes	No	No
Attending an IEP, Training, Conferences, etc. with School Personnel	Follow latest District guidelines	Yes	No	No
Parent Organization (PTA, PTO, Booster Clubs supporting campus event during school hours)	Follow latest District guidelines	Yes	Yes – uploaded and approved in Daily Pass	Apply to School Volunteer Program Complete non-academic facilities MOU
Official School Volunteers	Follow latest District guidelines	Yes	Yes – uploaded and approved in Daily Pass	Apply to School Volunteer Program
<i>All campus admissions are ultimately at the discretion of Site Administrators</i>				
Page 1 (of 2)				

Campus Entry Requirements for Outside Providers

Updated August 2022

Requirement	Wear a Mask Indoors	Answer Daily Health Check Questions <i>Verbally upon arrival; Daily Pass QR Code is not required</i>	Proof of Full Vaccination <i>Initial vaccine series, plus two weeks; booster not required</i>	Other Processes or Procedures
Visit Purpose				
First Responders	First responders entering a District facility during an emergency must be allowed entry to campus without formal screening procedures.			
Counselors and Student Teachers	Follow latest District guidelines	Yes	Yes – uploaded and approved in Daily Pass	Request Single Sign On via School or Sponsoring Office
Service Providers with No-Cost MOUs Who Provide Services to Students, including therapists	Follow latest District guidelines	Yes	Complete Vaccination Certification Form via Sponsoring Office	Request Single Sign On via School or Sponsoring Office
Contractors, Vendors, and other Partner Organizations (including major league sports and philanthropic partners)	Follow latest District guidelines	Yes	Complete Vaccination Certification Form via Sponsoring Office	No
Visitors Engaging in a One-Time Interaction with Students/Staff Lasting More Than One Hour (Ex: Auditors, Testing Proctors, One-Time Library Event)	Follow latest District guidelines	Yes	No	No

All campus admissions are ultimately at the discretion of Site Administrators

Page | 2 (of 2)

Third-Party Use

“Third party” means one or more of the following: an individual, group, organization, for-profit or non-profit entity, governmental agency, public (including charter) or private school or other educational institution, contractor, or business that is a separate legal entity from LAUSD.

Until further notice, any third-party presence or use of LAUSD property:

1. Shall be restricted by and limited to those currently permitted by LAUSD, the California Department of Public Health (CDPH), Los Angeles County Department of Public Health (LACDPH), and/or other applicable authorities.
2. Must comply with all current requirements and guidelines established by the CDPH, LACDPH, LAUSD, and/or other applicable authorities. This shall include, but not be limited to, incorporating LAUSD’s COVID-19 Containment, Response and Control Plan (“LAUSD’s Containment Plan”) into any COVID-19 Safety Plan (“CSP”).
3. Is not permitted without a written document signed by LAUSD’s Chief Facilities Executive (or designee), and such document must be in the third party’s possession and on-site at all times when the third party is present.

All charter schools on District property must adhere to the guidelines outlined in the updated containment plan. Please contact the Charter Schools Division at 213-241-0399 for specific questions.

Child Nutrition

Meal Program Compliance

Breakfast, lunch, and supper, compliant with USDA guidelines, will continue to be available for all enrolled students. For the 2022-2023 school year, all students will receive meals free of charge.

Student Meals and Food Service

When eating indoors, space between tables and/or chairs will be increased and windows/doors will be open to maximize airflow when feasible.

Staff supervision will be exercised during this period to remind students to physical distance. Buffet and family style meals will resume at Early Education Centers. At K-12 schools, Breakfast in the Classroom has also resumed. Lunch will be served at the cafeteria. Students will take their meal and eat in designated areas.

Students in after-school programs will be provided a hot supper meal on campus after the dismissal bell. All meals must be consumed on campus. Federal waivers no longer allow parents and students to take meals home.

Transportation

County of Los Angeles Department of Public Health: Guidelines for COVID-19 Prevention in PreK-12 Schools

- Recommend thorough cleaning daily and disinfection after transporting any individual who is exhibiting symptoms of COVID-19.
- Face masks are strongly recommended but not required on school buses and vans.
- Consider improving ventilation on school buses by opening windows as air quality and rider safety concerns allow.

Bus Transportation

Parents are encouraged to transport their students to and from school whenever possible to enable increased physical distancing on buses. Parents may request adding a student to a bus roster. Accommodations will be made when space is available.

Bus Protocols

- Buses will be operating at full capacity.
- Parents/guardians are required to stay nearby until the bus driver pulls away from the bus stop in case a student develops symptoms.
- Students who report symptoms while on the bus will be isolated at the school nearest the drop-off if the parent is unable to pick up the student immediately.
- Windows will be open to increase ventilation if air quality and rider safety allow.
- Face masks are strongly recommended but not required for all bus occupants. Buses will have disposable masks and will provide them to any student boarding the bus without a mask upon request.
- Buses are thoroughly cleaned daily. Buses are disinfected when an individual who is exhibiting symptoms of COVID-19 is transported with District approved products that are listed on the EPA's list "N" of effective products for COVID-19.
- Drivers will be provided disposable gloves and any other required personal protection equipment (PPE).

IV. Health Practices and Protocols

Practices and Protocols

Standard Public Health, Hygiene Practices, and Instruction

Los Angeles Unified Schools will promote health and hygiene practices that prioritize keeping our students and staff safe. District-created videos, CDC videos, posters, signs, and classroom instruction will be used to educate students and families in our health protocols. Families will be provided with an information packet prior to the start of in-person instruction so they can practice protocols at home and acclimate students to the concepts of physical distancing, frequent hand washing, correct use of face masks to completely cover nose and mouth, and respiratory and cough etiquette.

The following health and hygiene practices will be observed:

1. Hand Hygiene

- Teaching and reinforcement of hand washing with soap and water for at least 20 seconds.
- If soap and water are not readily available, hand sanitizer with at least 60% ethanol will be made available at school entrances and every classroom. They will be kept in secure areas and used by students with supervision.
- All students and staff will be encouraged to perform hand hygiene on campus at the start of each day.
- Hand-washing breaks will be incorporated into younger students' daily routines, including before and after: eating or drinking, outdoor play, group activities, preparing food, touching one's face and face covering, and using the restroom.
- [Hand-washing signs](#) will be posted as visual reminders.
- Staff are instructed to model frequent hand washing, especially in lower grades.

2. Face Masks

- All students, staff and visitors are encouraged but not required to wear face masks indoors while on District school and administrative sites or being transported by a bus. Children under 2 years of age should not wear masks.
- Face masks are required indoors in medical care settings such as medical clinics and within the Nurse's office.
- All staff are required to wear face masks indoors and outdoors, except when eating or drinking, for the full 10 days of isolation.
- Students who are identified as close contacts are recommended to wear face masks indoors for the entire quarantine period. It is strongly recommended that students

returning early from isolation also wear face masks indoors for the 10 day isolation period.

- Students and staff are encouraged to bring their own face mask but will be provided with one if they do not have one.
- All students and employees are encouraged to wear surgical-grade masks (also referred to as medical procedure masks) or higher-level of PPE (e.g., KN95 or N95 respirators).
- No person will be prevented from wearing a face mask as a condition of participation in an activity or entry into a school site unless wearing a mask would pose a safety hazard.
- Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate a face mask.

3. Physical distancing

- Physical distancing will be utilized when feasible.
- When eating or drinking, it is preferred to do so outdoors and away from others. For staff, eating or drinking at a cubicle or workstation is preferred to eating in a breakroom if eating in a cubicle or workstation provides greater distance from and barriers between staff.

4. Enhanced Cleaning and Disinfection of Surfaces

- Staff members responsible for cleaning and disinfecting will be provided training on the appropriate and safe use of all provided cleaners and disinfectants.

5. Provide Adequate Supplies

- All restrooms will be supplied with adequate amounts of soap and paper towels.
- Hand sanitizer will be provided in strategic locations and hand sanitizer stations will be available at entrances to buildings, offices, elevators, and reception areas.
- All students and staff will be provided with a disposable surgical type face mask by request or if they do not have one. N95 respirators will be provided only to employees and by request.
- Disposable gloves will be provided to staff for medical uses, cleaning/disinfection, and when handling food items.
- Facial tissues will be available in each classroom and office area.

Reporting Illnesses

County of Los Angeles Department of Public Health: [COVID-19 Exposure Management Plan for PreK-12 Schools](#)

- Develop a plan to report all school-associated clusters of 3 or more epidemiologically linked COVID-19 cases within 1 business day to Department of Public Health.
- Employers are required to offer testing at no cost to employees during paid time for all employees who had a close contact to a COVID-19 case and all employees exposed during an outbreak regardless of vaccination status.
- Instruct students and staff to inform the school if they are sick with COVID-19 related symptoms, particularly if they had a known contact with someone diagnosed with COVID-19 and have also had contact with the school population.
- Educate staff and families about when to stay home.
 - Instruct staff and students (or their parents and guardians) to perform a self- assessment prior to leaving for school to identify fever and other possible COVID-19 symptoms. Communicate this expectation and provide parents with reminders about the symptoms consistent with COVID-19 that require keeping their students at home.

Stay at Home Guidelines during the COVID-19 Pandemic

For as long as the risk of community spread of COVID-19 remains, the guidelines below and consultation with a health care provider should guide actions when symptoms are experienced. COVID-19 is an illness caused by a virus that can spread person to person. COVID-19 symptoms can range from mild (or no symptoms) to severe illness. The virus is transmitted through respiratory droplets when an infected person talks, coughs or sneezes. The virus may also be airborne or transmitted by touching a surface or object that has the virus on it, and then touching your mouth, nose or eyes. Anyone with COVID-19 symptoms must not attend school or work. They should inform the school/site if they are sick with COVID-19 related symptoms or if they had known contact with someone diagnosed with COVID-19. Close contacts are persons who are considered exposed to a COVID-19 case during the infectious period (48-hours before the person's positive test or symptoms onset).

COVID-19 symptoms can vary, but may include the following if not due to a chronic condition:

For students:

- Fever greater than or equal to 100.4 degrees Fahrenheit (F)
- New cough
- Diarrhea
- Vomiting

For employees:

- Fever greater than or equal to 100.4° F
- Cough
- Diarrhea
- Nausea or vomiting
- Feeling feverish (chills or sweating)
- Shortness of breath or difficulty breathing
- Muscle or body aches
- New loss of taste or smell
- Fatigue
- Congestion or runny nose
- Headache
- Sore throat

If a student or staff member experiences any of the above symptoms, they must stay home and should contact their health care provider for further instruction. They must also notify the school/workplace of their absence and that they have COVID-related symptoms.

COVID-19 Exposure

The COVID-19 virus is a highly infectious disease that can be spread from an infected person's mouth or nose in small liquid particles when they cough, sneeze, speak or breathe. A person who has COVID-19 is considered infectious from 2 days before their symptoms first appeared until their isolation period ends. A person with a positive COVID-19 test but no symptoms is considered infectious from 2 days before their positive test was taken until their isolation ends.

The COVID-19 Compliance Officer will work with each case to identify any one that may have been exposed to the confirmed positive case during the infectious period. Those persons who had close contact may be subject to quarantine. A close contact is a person who shared the same indoor airspace with the infected person for 15 minutes or more over a 24-hour period during their infectious period. In large indoor airspaces (greater than 400,000 cubic feet per floor), they are considered a close contact if they were within 6 feet of the infected person for a cumulative total of 15 minutes or more over a 24-hour period during the infectious period. Persons with an outdoor exposure are not considered close contacts.

All identified close contacts will be notified by the Site COVID-19 Compliance Officer or Community Engagement and provided with instructions on what actions to take.

Quarantine

Close contacts that remain asymptomatic, regardless of vaccination status, may remain on campus or the worksite and should take the following actions:

1. Monitor for symptoms for 10 days after the last date of exposure,

2. Wear a highly protective face mask indoors, except when eating or drinking, for 10 days after the last date of exposure, and
3. Test for COVID-19 between days 3-5 after the last date of exposure using an LAUSD-provided rapid antigen test at home or by getting a PCR or rapid antigen test with an external healthcare provider.
4. If an individual develops COVID-19 symptoms, they must remain at home and test immediately. If they test positive, they must follow isolation protocols.

Students and staff who are close contacts will appear as “Allowed” in the Principal’s Daily Pass Dashboard. These students will also be identified in the “Access” column in the Daily Pass Dashboard Cases tab, to indicate the dates indoor masking is recommended.

Close Contact Indoor Masking Calendar

Principals and Worksite Access Dashboards will reflect the date by which close contacts should test. This date will be displayed under the “Cases” tab in the “Early Test Eligibility Date” column.

School sites and worksites must provide close contact students and employees with a rapid antigen test kit and directions to take a test at home between Days 3-5 after exposure. They must then upload the results to Daily Pass. ([Family Employee Letter Template At Home Testing Guidance for Close Contacts.](#))

Individuals who had a positive COVID-19 test in the past 30 days are not recommended to test as long as they do not develop symptoms but are recommended to mask for the full 10 days. Individuals with a positive COVID-19 test within 31 to 90 days, are strongly encouraged to test 3-5 days after exposure and mask for 10 days. All individuals who have not had a positive COVID-19 test within 90 days are recommended to test 3-5 days after exposure.

If a student who is identified as a close contact has a mask exemption, they may remain on campus as long as they remain asymptomatic. It is strongly recommended they wear a face shield with a drape for the 10 days following the date of exposure, test immediately and a second time 3-5 days after the last exposure. They should also monitor for symptoms for 10 days after the last date of exposure.

There may be school-specific situations when LACDPH determines that individuals are required to mask or quarantine at home after exposure as a result of an outbreak investigation. Principals and families will be immediately notified in this event.

COVID-19 Daily Health Check Questions

All employees and students (or their parents or guardians) are asked to perform a self-assessment prior to leaving for school or work to identify fever or other COVID-19 symptoms. The daily health check asks about COVID-19 symptoms and potential exposure. If the answer to the question listed below is "YES", then employees and students must remain home and notify the school or supervisor of the absence. Those who answer "NO" to the daily health check questions may attend school or work.

COVID-19 Testing Program
DAILY PASS
Programa de Pruebas COVID-19
PASE DIARIO

DAILY HEALTH CHECK | CHEQUEO DE SALUD DIARIO

Are you feeling any COVID-19 symptoms or have you been in close physical contact with anyone with a confirmed or suspected COVID-19 case in the past 14 days?

¿Siente algún síntoma de COVID-19, o ha estado en contacto físico cercano de una persona con un caso confirmado o sospechado de COVID-19 en los últimos 14 días?

Symptoms may include any of the following not due to a chronic condition:

Los síntomas pueden incluir cualquiera de los siguientes que no se deban a una condición de salud crónica:

			
Fever of 100 degrees or greater Fiebre de 100 grados o más	Shortness of breath or difficulty breathing Falta de aliento o dificultad para respirar	Chills Escalofríos	Fatigue (new or severe) Fatiga (nueva o grave)
			
Cough Tos	Congestion or Runny Nose Congestión o goteo nasal	Muscle or body aches Dolores musculares o corporales	Headache Dolor de cabeza
			
Sore throat Dolor de garganta	Nausea/Vomiting Náuseas/Vómitos	Diarrhea Diarrea	Loss of taste or smell Pérdida del gusto o del olfato

You can answer the Daily Health Check online at <https://dailypass.lausd.net> or open your camera to scan this QR code.

Puede responder al Chequeo Diario de Salud en línea en <https://dailypass.lausd.net>, o ingrese abriendo su cámara para escanear este código QR.

“Daily Health Check” signage shall be posted at all entrances so that they are visible to visitors and employees. They are also listed on Los Angeles Unified’s web-based Daily Pass Tool at <http://dailypass.lausd.net>. If an employee or visitor answers “YES” to any question, they may not stay on site and are to leave the site immediately. Employees are to contact their supervisor for further instructions on COVID-19 work option guidelines.

Adult visitors and staff who are not allowed entry or who report symptoms at any point during the school day are instructed to return home, self-isolate and keep away from others until further instructions are given by the COVID-19 Compliance Officer.

Students who screen positive, or who experience symptoms at any point during the school day will be given a medical mask and accompanied to the nurse's office where they must remain while arrangements are made for their return home.

The COVID-19 Compliance Officer is informed of any positive screening results in the school and will then coordinate response with the Community Engagement team.

Screening questions may change, based on updates from the LA County Department of Public Health. Updated questions will be posted at achieve.lausd.net/covid19.

Use of Face Masks and Personal Protective Equipment

County of Los Angeles Department of Public Health: [Guidelines for COVID-19 in TK-12 Schools](#) and [Guidance for Early Childhood Education Providers](#)

- Masking is strongly recommended but not required for anyone entering school buildings or transports such as school buses.
- Highly protective masks are strongly recommended for individuals who are at risk for severe disease in closed spaces with poor air flow, crowded places with many people nearby, and close contact settings.
- Masking is strongly recommended for all persons in the school nurse's office or health office.
- Employers are required to offer for voluntary use well-fitting medical masks and respirators, such as N95, KN95 or KF94, at no cost to their employees who work indoors and have contact with other workers, students, or members of the public.
- Employers must ensure that no person is prevented from wearing a mask as a condition of participation in an activity or entry into a school site unless wearing a mask would pose a safety hazard.
- Employees engaged in activities such as provision of physical therapy or personal assistance to individual students must be equipped with the appropriate personal protective equipment.
- Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who have medical reasons why they cannot use or tolerate a face mask.

General Expectations

Los Angeles Unified strongly recommends students, employees, and visitors while on school sites or on a school bus to wear a face mask indoors. This includes parents who are dropping off or picking up children. Face masks are required indoors at medical clinics, COVID-19 Testing sites, Vaccination sites, and Nurse's Office. A face mask will be provided to any student or employee who does not have one.

Face Masks: There are many types of face masks that can be used to protect against getting and spreading COVID-19. Face masks must fit snugly against your nose and chin with no large gaps around the sides of the face or nose. They should also be comfortable to wear. Face masks must cover the nose and mouth. They can be secured to the head with ties or straps.

All employees are encouraged to wear a surgical mask, N95, KN95 or KF94 indoors while on District property. A cloth face mask by itself is no longer acceptable for employees under quarantine or

isolation orders. Students and visitors are also highly encouraged to wear an upgraded level of protection which includes a well-fitting, non-cloth mask of multiple layers with a nose wire.

Even better protection can be achieved by double masking (i.e., wearing a cloth mask over a surgical mask).

Face masks must be replaced daily. Cloth face masks, used as a second layer, must also be replaced or laundered daily. Cloth masks should be laundered with your regular laundry and detergent using the warmest setting appropriate for the cloth. Soiled or wet face masks will be replaced immediately. Parents are encouraged to provide a second face mask for school each day in case the one a child is wearing is soiled or lost.

Instructions for the [use of face masks](#) are available from the CDC. All staff will be provided training on the use of face masks and PPE. Face masks with one-way valves, bandanas, gaiters and scarfs are NOT permitted. Face masks are not respiratory protective equipment.

Face masks are encouraged at all times indoors while on school property except when eating, drinking, and napping or when wearing a face mask is otherwise impracticable (e.g. showering).

The following individuals are exempt from wearing a face mask per the LACDPH guidelines.

- a. Children that are age 2 and under.
- b. Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
- c. Anyone for whom use of a face mask would be contrary to his or her health or safety because of a medical condition.
 - All students who cannot wear a mask due to medical conditions must have written documentation provided from their physician on file with the school nurse. A Student Mask Accommodations Plan will be created and on file.
 - Employees must provide written documentation from their physician to their site administrator and should engage in the Reasonable Accommodations process outlined in [Bulletin 4569.1, Reasonable Accommodations for Individuals with Disabilities](#).

Alternatives for teachers in early grades and those with specialized groups such as Deaf/Hard of Hearing include use a plastic face shield with a tucked-in drape below the chin or a clear mask as a substitute for a face mask to enable students to see their teacher's face and avoid potential barriers to instruction.

Alternative protective strategies may be adopted to accommodate students who are on individualized Education or 504 Plans and who cannot use or tolerate cloth face masks.

Surgical Masks: Also known as medical-grade masks will be provided to all employees. Students who are placed in isolation during the school day will also be provided a medical grade mask if they do not already have one. These masks will have multiple layers of non-woven material with a nose wire. The fit and filtration of a surgical mask can be improved by knotting and tucking or by wearing it under a cloth mask. These masks must be discarded if they get wet/dirty or after a day of use, whichever comes first.

N95 Respirators: N95 respirators will be worn by Healthcare Professionals who may be involved in aerosol generating procedures, such as suctioning, providing oxygen via high-flow nasal cannula, nebulizer treatments and sample collection for COVID-19 testing. Designated staff must be medically screened, trained and properly fitted to the N95 respirator according to the written Respiratory Protection Plan in compliance with by California Occupational Safety and Health Administration (Cal/OSHA) regulations (8 CCR 5144).

Employees who are in a setting where they are in close contact with other people may request an N95 or KN95 respirator. These individuals may voluntarily use these respirators in accordance with the respiratory standard. They must be provided with training or materials on the proper use of these respirators as discussed in [Safety Alert 21-01, Voluntary Use of N95 Respirators by Employees](#).

Additional information on employee use of respirators and surgical masks is discussed in [Safety Alert 22-01, Employee Use of N95, KN95 and KF94 Respirators & Surgical Mask for COVID-19](#).

Face Shields: Face shields protect the eyes, nose and mouth from contamination from respiratory droplets, along with masks and respirators. Face shields are worn in addition to a face mask to provide additional protection. Face shields may be used by staff who are involved in aerosol-generating procedures, by staff who support students with special healthcare needs and are not able to wear a face mask, and by staff assisting students who are not able to physically distance.

Students and staff may also wear face shields with a tucked-in drape during speech and language exercises when face masks are not appropriate for the activity, while maintaining physical distancing guidelines.

Clear Plastic Barriers: A clear plastic or solid surface barrier may be used in areas where it may be difficult for individuals to physically distance. (E.g. reception desks or workstations).

Protective gowns: Staff providing aerosol-generating procedures must wear disposable protective gowns. A protective gown may be worn by staff who support students with special healthcare needs, when conducting sample collection during COVID-19 testing or when there is likelihood of contact with respiratory secretions or other body fluid.

Gloves: Universal precautions will be followed by all staff using disposable single-use gloves when there is possible blood or body fluid contact. This includes, but is not limited to, during healthcare procedures, toileting students, assisting with meals, temperature screening, or any other instance where there may be contact with a body fluid, including respiratory secretions. Vinyl disposable gloves will also be required when handling food and chemicals. Gloves are not recommended unless specific responsibilities require them.

V. Health Monitoring and Containment Plan

County of Los Angeles Department of Public Health: [Guidelines for COVID-19 in TK-12 Schools](#) and [Guidance for Early Childhood Education Providers](#)

- To comply with the [Cal/OSHA COVID-19 Prevention Non-Emergency Regulations](#), an employer must develop a written COVID-19 Prevention Program.
- Employees with an exposure or suspected exposure to a person who has COVID-19 must follow post exposure guidance as detailed in [COVID-19 Exposure Management Plan for TK-12 Schools](#).
- Employers are required to exclude employees from the workplace who have COVID-19 symptoms.
- Schools are required to report clusters of 3 or more cases of COVID-19 in a classroom, office or predefined or identifiable group who were linked on campus at any point within the 14 days prior to illness onset to LACDPH.

Health Monitoring and Health Office Guidance

Communicable Disease Monitoring

Students and staff with suspected or positive COVID-19 cases will be managed by the COVID-19 Compliance Officer.

Daily Health Self-Assessment: All students and staff are to self-assess for COVID-19 symptoms prior to leaving home for school each day. A list of COVID-19 symptoms can be found in the previous section titled “Reporting Illnesses.”

Illness at School/Office

Any student or staff member who becomes ill at school or the workplace with COVID-19 symptoms must be separated from others immediately.

Confidentiality of the ill individuals will be maintained in accordance with Health Insurance Portability and Accountability Act of 1996 (HIPAA), privacy expectations and the ADAAA. All communication will follow the District’s COVID-19 Response and Communication Protocols.

Ill Student: Students will be given a medical-grade mask and will be escorted to the nurse’s office by designated staff. Students will be supervised until picked up by parent/guardian, emergency contact provided by parent/guardian, or released to another healthcare facility. Students will not be left unattended.

Parent/guardian will be required to pick up their ill student within one hour. Parents/guardians will be provided a rapid antigen COVID-19 test to be administered at home and should consider seeking medical advice from their health care provider. The parent/guardian will need to upload the COVID-19 test result to the student's Daily Pass or provide a copy to the school.

Ill staff: An ill staff member will leave work immediately. Staff members will be provided a rapid antigen COVID-19 test to be administered immediately at home. They must upload the test result to their Daily Pass and notify their employer when test results are known. If the staff member requires urgent medical care, they will be isolated while waiting for transfer to a health care facility.

Health Office Complex

To prevent potential exposure to infectious diseases for vulnerable students receiving medical treatments, all student visits to the Health Office will be triaged and prioritized based on the severity of injury or illness. All students and staff will have their temperature and COVID-19 risk factors screened prior to arrival at the Health Office.

The School Nurse will train classroom staff on basic first aid and schools will provide basic first aid supplies to reduce close contacts in the health office areas. Students who screen positive or experience COVID-19 symptoms will wait in the nurse's office until picked up by parent/guardian or transferred to a healthcare facility. All students in the nurse's office will be supervised by a staff member. The staff member will be provided with a medical mask and gloves as needed. Physical distancing of six feet or greater will be maintained when possible. Students with symptoms will be separated from other students as feasible. A log will be maintained by the staff person in the nurse's office of all persons that enter.

Containment of Infection

Confirmed COVID-19 Positive Student

When a school is notified that a student who was physically on campus is confirmed to have COVID-19, the COVID-19 Compliance Officer must provide the list of close contacts through the IEM Reporter App. If the student was tested externally, the school will need to ensure the parent/guardian uploads the test result to the Daily Pass. In addition, those in close contact with the student will be notified of the potential exposure by school administration and instructed on current [LACDPH protocol](#) and [decision pathways](#) related to exposure.

In the event of multiple COVID-19 positive cases at a school or District site, the District Superintendent may offer short term independent study to impacted students to allow LACDPH to investigate the COVID-19 situation and to implement further cleaning and disinfection procedures as recommended by LACDPH and CDC. Los Angeles Unified will communicate all dismissal decisions and possible COVID-19 exposure with all staff, families, students and stakeholders.

The Superintendent will decide, in consultation with LACDPH, if a building or entire school is closed and if any staff will be allowed in the building during school closure and when students and staff can safely return to in-school learning.

Confirmed COVID-19 Positive Staff

When a school or office is notified that a staff member is confirmed to have COVID-19, the COVID-19 Compliance Officer must provide the list of close contacts through the IEM Reporter App. If the employee was tested externally, the supervisor will need to ensure the employee uploads the test results to the Daily Pass. In addition, those in close contact with the staff member will be notified of the exposure by the site administrator and instructed on current LACDPH protocol related to exposure.

The Site Administrator must also ensure that the positive employee has been provided with the [workers' compensation claims form](#) (DWC-1). All positive COVID-19 tests of staff must be immediately reported to the District's third party administrator for workers' compensation, Sedgwick CMS. The School Administrative Assistant or Office Manager shall follow the procedures outlined in Reference Guide [REF-1279 Workers' Compensation Claims Reporting](#).

All "serious" employee illnesses must be reported to the California Occupational Safety and Health Administration (Cal-OSHA) within 8 hours. A COVID-19 case would be considered serious if it resulted in the employee's transport to the hospital from the workplace, if the employee was admitted to the hospital, or if the employee passed away due to an illness occurring in or in connection with employment. All notifications to Cal-OSHA need to be made immediately and be documented in ISTAR. You must also contact the Office of Environmental Health and Safety at 213-241-3199. You may refer to [Safety Alert 02-09, Reporting Employee Injuries to OSHA](#).

Exposure Management Plan

The District formed a dedicated Community Engagement team to assist in exposure management protocols for those that test positive. Community Engagement is a confidential process used to reduce the spread of the virus. Those known to be exposed to an employee or student with the virus will be notified and referred for testing and medical care as appropriate.

Details of the case and the list of those exposed is submitted by Community Engagement to the Los Angeles County Department of Public Health to conduct full public health contact tracing. Community Engagement entry and exit interviews to return to school or work are not required.

Implementing Exposure Management Plan in LA Unified Schools

Planning

Each District site is required to designate a School COVID-19 Compliance Officer that ensures that safety protocols are observed and that education is provided to staff, families and students. The COVID-19 Compliance Officer role, who acts as liaison to the Los Angeles County Department of Public Health (LACDPH), may be filled by the principal/site administrator, or it can be assigned to a designee. The Compliance Officer must be listed on the Site-Specific Planning Form (page 2).

Every positive COVID-19 case connected to a school or office requires home isolation for people who are not exempt per LACDPH protocol. A list of students and/or employees with exposure to the case while infectious must also be generated. **Infectious** is defined as two days before symptoms first appeared until the time they are no longer required to isolate. A person with a positive COVID-19 test but no symptoms is considered infectious from 2 days before their test was taken through day 5 after their test. **Exposure** is defined as being within the same indoor airspace with an infected person for 15 cumulative minutes or more over a 24-hour period, even if face masks are worn. Unprotected contact with body fluids or secretions of a COVID case is also considered exposure. In large indoor airspaces (greater than 400,000 cubic feet), those considered exposed may be limited to the following:

1. Those in a pre-defined or identifiable group (e.g., teammates, club members, cohort, etc.),
2. Those within 6 feet of the infected person for 15 minutes or more over a 24-hour period.

Case Management

The procedures for managing exposures to one or more COVID-19 cases at schools are described in [COVID-19 Exposure Management Plan for TK-12 Schools](#) and in the [COVID-19 Exposure Management Plan Guidance in Early Care and Education Sites](#).

One case

The COVID-19 Compliance Officer instructs the individual who tested positive (case) to follow the [LACDPH COVID-19 Home Isolation](#) instructions and informs the case that LACDPH may contact them directly to collect additional information and issue Health Officer Order for isolation. The COVID Compliance Officer or Site Administrator will also provide the positive individual with two rapid antigen tests to take at home.

The COVID-19 Compliance Officer works with the case to identify close contacts and notifies all of the close contacts of the recommendation to wear a mask for 10 days after exposure and test between Days 3-5. The close contacts may be contacted by Community Engagement and LACDPH directly to collect additional information and issue Health Officer Order for quarantine.

Positive individuals must isolate at home away from others for at least 5 days, even if they do not have symptoms. They may end isolation and return to school or work once on Day 6 only if they have been fever free for at least 24 hours without the use of fever-reducing medicine and other symptoms are not present, or are mild and improving. If symptoms are not improving, they must continue to isolate at home until they do improve or until after Day 10. It is strongly recommended that the individual test negative (using a rapid antigen test) for COVID-19 prior to returning, but not required. Masking is highly recommended for students who return between Days 6-10 but required for staff for the full 10 days, regardless of when the employee returns to work.

A photo image of all COVID-19 test result must be uploaded into Daily Pass with their full name, date of birth, test result, date the test was taken and the last date the individual was on site written on the test cartridge or on a separate piece of paper next to the test result. Directions for how to upload test results can be found on the [Uploading of External COVID-19 Record](#) reference.

For each positive case at a site, the Site Administrator or COVID Compliance Officer is responsible for completing and submitting the Initial Exposure Management Report using the Initial Exposure Management Reporter Application (IEM Reporter App, available at <http://iemreporter.lausd.net> or in PowerApps). This application is used to identify the positive case and all close contacts. The

COVID-19 Compliance Officer must submit the list of exposed individuals through the IEM Reporter App. This information is maintained by Community Engagement and transmitted to LACDPH, as needed.

If there is no documentation of an external positive test result, then a case cannot be generated using the IEM Reporter App. The individual should be instructed to contact the lab that administered the test to provide a copy of the result or have the individual retest at home using an LAUSD-provided rapid antigen test. The individual should be directed to isolate at home until the test result is provided.

The Compliance Officer notifies the principal/site administrator of all positive cases. The site administrator sends a [notification letter](#) (AB685 Notice) to all staff, visitors and their union representatives who were at the worksite during the infectious period (3 days prior to the positive test date) within one business day. This notice of potential exposure will not reveal any personal identifying information of the COVID-19 case. Personal information of COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential.

The District will send an email notification to individuals who have uploaded a positive test result from outside the District, as well as those who may have been exposed to the case. Employees or students who test positive will receive a link to view their test result with instructions to isolate immediately. The Community Engagement team may call the individual and provide isolation instructions. Parent/guardians of a positive student may contact Community Engagement directly at (213) 443-1300 and employees can call (213) 241-2700 to discuss case status. Families and employees may also email CE@lausd.net for support. In addition to the list of close contacts identified by the Compliance Officer, the Community Engagement team may also contact household members, employees, and students who may have been in contact with a positive case, provide quarantine instructions and refer them for a test.

Three cases within 14 days

In addition to implementing the above measures, the Community Engagement Team will report the potential cluster to the LACDPH Acute Communicable Disease Control (ACDC) Education Sector Team immediately by submitting an online report to: <https://spot.cdph.ca.gov/s/?language=enUS> or by submitting the line list to ACDC-Education@ph.lacounty.gov. If the LACDPH Acute Communicable Disease team determines that these cases meet the criteria for an outbreak, LACDPH will send a public health investigator to coordinate next steps.

An outbreak may be determined when there are at least three confirmed cases within 14 days in a group that is epidemiologically linked (epi-linked). The group can be a classroom, school event, extracurricular, team, club, transportation. The infected persons must have been present in the same setting during the same time while infectious. Outbreak criteria may be different in other District settings.

Household contacts will be grouped as a single case. Cases who have a close contact outside of the school setting in common will be grouped as a single case. For example, if two unrelated students

have the same babysitter after school, and both test positive for COVID-19, they will be considered one case when establishing epi-links on campus.

The COVID-19 Compliance Officer will investigate and determine possible workplace-related factors that contributed to the outbreak. The Compliance Officer will also review COVID-19 policies, procedures and controls, and implement changes as needed to prevent further spread. The investigation and review will be documented.

Communication Plan for Transition between Instructional Models

In the event that there is a report of possible COVID spread within a school and the LACDPH recommends long-term or short-term suspension of in-person instruction, the communication plan will follow the same protocols from the District Closings & Dismissal Procedures. The District will use Blackboard Connect messages and the District and school websites to communicate with families and staff regarding any school closure. The Board of Education will be immediately informed of the reasons for the closure and procedures being put into place by the District. The District may transition to short term independent study under the advisement of LACDPH and authorization by the District Superintendent.

COVID-19 Response Teams and Responsibilities

COVID-19 Compliance Officer

The Site COVID-19 Compliance Officer will:

- Monitor illness trends of student and staff absences,
- Collaborate with the Community Engagement Team and LACDPH regarding contact tracing and any other mitigation or containment procedure as directed,
- Notify the Principal/Site Administrator of suspected or confirmed COVID-19 illness,
- Provide support to the student and family regarding concerns arising from COVID-19 diagnosis or exposure,
- Order and provide rapid antigen test kits to students and staff to be administered at home.
- Assure confidentiality of all medical information of student or staff member.

District Response Team to COVID-19 Illness

The District's COVID-19 Compliance Officer will:

- Ensure that the school and district response team have followed protocols, the communication tree has been followed and responsibilities completed,
- Be available to students, staff and family or community members to answer questions and provide guidance.

The Superintendent will:

- Determine school dismissal and building or site closures, in collaboration with LACDPH.

The Director of Maintenance and Operations will:

- Communicate with plant managers and custodians regarding cleaning and disinfecting protocols consistent with LACDPH, CDC, State and District protocols,

The Community Engagement Team will:

- Provide guidance and information to employees regarding medical leave due to illness,
- Conduct exposure management and notification of potentially exposed student, staff and visitors,
- Complete the line list and notify LACDPH of all positive results and clusters.

Return to School or Work after COVID-19 Diagnosis or Symptoms

All students or staff returning from any or suspected COVID-19 illness are to adhere to the following guidelines. Clearance from the Community Engagement Team after safely isolating or quarantining to return to school and work is not required.

Confirmed Positive COVID-19 Diagnosis

If diagnosed with COVID-19, with or without symptoms, the following LACDPH guidelines will be followed for returning to school or work.

1. Students with confirmed cases of COVID-19 may return when **ALL** the following are met:
 - At least 5 days have passed since symptom onset or if asymptomatic, the date of a positive COVID-19 test,
 - 24 hours of no fever without using fever-reducing medications, and
 - Other symptoms are not present, or are mild and improving.

If symptoms are not improving, they need to continue to isolate until symptoms improve or until after Day 10. Masking is strongly recommended through Day 10.

2. Employees with confirmed cases of COVID-19 may return when **ALL** the following are met:
 - At least 5 days have passed since symptom onset or if asymptomatic, the date of a positive COVID-19 test,
 - 24 hours of no fever without using fever-reducing medications, and
 - Other symptoms are not present, or are mild and improving.
 - Staff are **required** to wear a highly protective face mask indoors and outdoors except when eating or drinking for the entire 10 days following the positive test result.

If symptoms are not improving, they need to continue to isolate until symptoms improve

or until after Day 10.

**It is strongly recommended that a negative test result for COVID-19 is obtained prior to ending isolation by students and staff between Day 6-10. If COVID-19 symptoms return or get worse after ending isolation, it may be a [COVID-19 rebound](#) case. The individual must retest with an antigen test immediately. If the test is positive, they will need to restart isolation at Day 0 and should consult with their doctor.

COVID-19 Symptoms with NO testing

1. Students and staff may return when **ALL** the following are met:
 - At least 10 days from when symptoms appeared or medical provider note indicating cleared to return,
 - 24 hours of no fever without using fever-reducing medications, and
 - Symptoms such as cough and shortness of breath have improved.

COVID-19 Symptoms with Negative Test Result

1. Students and staff may return when all of the following are met:
 - 24 hours of no fever without fever-reducing medications, and
 - Symptoms such as cough and shortness of breath have improved.

VI. COVID-19 Testing Program

County of Los Angeles Department of Public Health: [Guidelines for COVID-19 in TK-12 Schools and Guidance for Early Childhood Education Providers](#)

- Employers are required to offer testing at no cost to the employees during paid time for:
 - All employees who had a close contact with a person with COVID-19 except for employees considered recently returned cases without symptoms.
 - All employees exposed during an outbreak regardless of vaccination status.

In response to the COVID-19 pandemic, Los Angeles Unified implemented a program to provide enhanced safety measures at schools. The key components of the program include daily health checks, COVID-19 testing of symptomatic students and staff and their confirmed close contacts, and community engagement to follow up on positive cases of COVID-19 and individuals who may have been exposed. Additionally, reporting procedures have been developed in accordance with the law to keep the school community informed of this testing and its results and of the District's continued health mitigation measures.

COVID-19 Testing Process

COVID-19 testing of employees and students is conducted at frequencies recommended by a consortium of leading health experts from UCLA, Johns Hopkins University and Stanford University and in accordance with California and Los Angeles County Public Health Orders.

COVID-19 response testing is provided for all students and staff at no cost. Take home Rapid Antigen Tests (RAT) will be provided to all students and staff who present with symptoms, or who have been exposed to a confirmed positive case (inside or outside of school or work). All test results must be uploaded into the Daily Pass.

There are three different scenarios when COVID-19 testing is strongly recommended:

1. **Symptomatic** testing is for students and staff who are experiencing COVID symptoms.
2. **Exposure** testing is for students and staff who are confirmed close contacts to a positive COVID case.
3. **Early Return** testing is for students and staff who have tested positive for COVID-19 and plan to return from isolation early (after Day 5).

*COVID-19 testing may be required when an outbreak has been declared by the LACDPH.

Individuals who have recovered from laboratory-confirmed COVID-19 within the last 30 days are not required to test for COVID-19 unless they develop new onset of symptoms. If new symptoms appear within the 30-day period, then they will be provided a Rapid Antigen Test.

No at-home antigen tests have been authorized by the FDA for use in children under 2 years of age. Families with children under 2 years of age who are required to test due to symptoms or close contact exposure may visit a county testing site for free PCR testing. Families can visit <https://dhs.lacounty.gov/covid-19/testing/>. When searching for testing locations, families should enter 'tests minors' in the search criteria.

All test results and data collected is stored in a secure database and kept private. Some of the data is also provided to our health experts at UCLA, the Johns Hopkins University and Stanford University for additional research, which will inform others across the nation or world of ways to keep our schools safer. Such information is only shared to the extent permitted under applicable privacy laws and/or when your express authorization has been obtained to share the information.

VII. Serving Students with Disabilities

County of Los Angeles Department of Public Health: [Guidelines for COVID-19 in TK-12 Schools and Guidance for Early Childhood Education Providers](#)

- Develop a plan for updating Individualized Education Programs (IEPs) and 504 Plans of students with special needs to ensure that education can continue without undue risk to the student.
- This plan includes a method for proactive school contact with parents to assure that issues related to the student's education and safety are being addressed.
- Modifications to IEPs and 504 plans may involve remote learning, modifications to the classroom to accommodate student needs, school attendance in a separate area with few students, or a hybrid approach combining in-class and remote learning.
- Steps taken to modify IEPs and 504 plans to assure student safety comply with relevant provisions of state and federal law.

Individuals with Disabilities Education Act (IDEA) /Americans with Disabilities Act (ADA)

Los Angeles Unified is prepared to provide Free Appropriate Public Education (FAPE) in the least restrictive environment for each child. All students with disabilities will receive services according to their IEP. In accordance with IDEA, it is critical to reinforce the understanding that students receiving special education services or 504 accommodations are general education students first. Balancing the educational needs with the health and well-being of students and staff is the District's top priority.

Every student with a disability is entitled to FAPE and is entitled to special education services based on their individualized education program. In order to provide the required level of safety, systems, processes and service delivery models have been reviewed. Adherence to physical distancing guidelines will be followed as feasible. Employees engaged in activities (such as provision of physical therapy or personal assistance to individual students) that may not permit physical distancing will be equipped with personal protective equipment (gloves, masks, gowns, etc.), as appropriate.

Timelines and Evaluations

All IDEA/ADA compliance timelines will be followed on schedule and in accordance with IDEA/ADA regulations. All IEP and 504 meetings will continue either virtually or in-person, as appropriate.

Service Provision

Students attending in-person instruction will receive services as outlined in their IEP.

- Where possible, each student will be included into the Least Restrictive Environment. Special education teachers supporting students in the general education setting will provide services, in small groups to students, a push in model into the classroom, one-to-one, or a combination of these, as appropriate.
- Related service providers will provide services to students in the following ways, in small groups to students, a push in model into the classroom, one-to-one, online, or a combination of these, as appropriate.
- The IDEA allows for flexibility in determining how to meet the individualized needs of students receiving special education services. State guidelines for the delivery of special education and related services will be implemented while protecting the health and safety of students as well as the individuals providing the services.
- If a student is unable to access their education in person due to medical or other circumstances, alternative means of delivering these services will be provided. In the event that the Department of Public Health requires the level of mitigation that would require the District to return to a full Distance Learning Model, each student will have an Individualized Distance Learning Plan reinstituted that is in accordance with the IEP. FAPE will continue to be provided.
- The District will provide appropriate protective equipment relative to the responsibilities of all Support Service Staff.
- If a student in special education is unable to wear a face mask, alternative protection strategies may be adopted. Additional PPE will be considered to mitigate COVID-19 spread. A Face Mask Accommodations Process is in place to support the needs of students who are unable to comply with wearing a face mask due to a disability, medical, or mental condition.
- Staff will be supplied with protective equipment as appropriate, including masks, shields, gloves and gowns.
- All Staff and students will receive training on the appropriate use of PPE and healthy hygiene practices that are proven to mitigate the spread of COVID-19.

504 Accommodations

The 504 Plan is developed to ensure that a child who has a disability identified under ADA receives appropriate accommodations that provide equitable access to the learning environment. All accommodations within the 504 Plan will be followed. The team may need to provide other accommodations to meet specific criteria under the school plan. Case managers will review 504 Plans to make sure that students receiving accommodations have equitable access to their education under both educational models. When required a 504 meeting will be held to provide appropriate added accommodations.

VIII. Family and Student Engagement

Family Support and Communication

County of Los Angeles Department of Public Health: [Guidelines for COVID-19 in TK-12 Schools](#) and [Guidance for Early Childhood Education Providers](#)

- Implement measures that communicate to the school community and the public related to policies and procedures for COVID-19 testing, physical distancing, changes in academic and extracurricular programming, parent visits to school, etc.
- Prepare to provide families with clear and ongoing communication about what to expect, during and prior to reopening. This includes, but is not limited to, guidance on the school protocols related to health and safety guidelines.

Communication with, and in Support of, our Families

LA Unified places a high priority on providing timely communications to our stakeholders during this unprecedented time. The District communicates with families through multiple platforms including:

- Traditional communications (email, calls, text, U.S. mail)
- Social media (Facebook, Twitter)
- Digital media (Website, Zoom and Google Meet).
- Video broadcasts (via KLCS)

Los Angeles Unified is committed to the continual support of our families.

- The schools will engage and communicate with families via newsletters, Blackboard Connect messages, and virtual informational sessions about health protocols, academic requirements, distance and in-person learning expectations and resources available for support.
- The District will continue to comply with state and federal family engagement requirements during the COVID-19 pandemic. Virtual platforms may be used to facilitate the various events the District hosts including, but not limited to monthly PTO meetings, board of education meetings, School Governance meetings, open houses, introductions to administrators, virtual tours and orientations.
- Staff training will be provided at the beginning of the school year to cover safety protocols, including physical distancing, hand washing, face coverings, respiratory/cough etiquette, and cleaning/disinfection of surfaces. Training will also be available for substitutes and new staff.

- Student training will be provided in a format appropriate to students' age groups.

COVID-19 Vaccination Support

The availability of vaccines for all eligible children is an important part of our school's path to recovery. There are various Community Partner and Student & Family Wellness Centers throughout the District that will continue to offer all vaccines to children. The COVID vaccine (where available) will also be offered.

Students ages 2 and up can visit any one of our LAUSD run school-based clinic sites to receive a COVID vaccination. Please note that parents/caregivers will need to accompany children ages 2-15 years of age when they are vaccinated. All children eligible to receive the COVID vaccine who are 17 years of age and younger will require a signed parent/guardian consent. The accompanying adult may also be offered the COVID vaccine. Student appointments can be made by calling 213-202-7590. Additional information can be found at <https://achieve.lausd.net/sms#spn-content>.

Los Angeles Unified is expanding the safety net we are providing to include vaccinations as part of our commitment to do all we can to protect the health and safety of everyone in the school community. Family members of Los Angeles Unified students are eligible to receive COVID vaccinations at several of our schools' partner run vaccination centers. Additional information for an updated list of school sites can be found at <https://achieve.lausd.net/Page/17638> or by calling the Los Angeles Unified Family Vaccination Hotline at (213) 328-3958.

Social and Emotional Support

Children and adults watching the news, reading content on-line and in newspapers and overhearing talk about the current coronavirus pandemic, may feel stressed, scared, confused or anxious. Some react right away; while others may show signs that they are having a difficult time later. Every person can support wellness and healing by teaching and implementing resilience strategies. For more information, please contact our Student Health and Human Services Division at <https://achieve.lausd.net/Page/16621#spn-content> or call the Student and Family Hotline at 213-241-3840.

Student Health & Human Services provides support with mental health, accessing food, health insurance and other basic needs such as school enrollment and immunizations.

IX. COVID-19 Related Employee Benefits

District-Sponsored & Employee Benefits:

The Family & Medical Leave Act (FMLA) and the California Family Rights Act (CFRA) provide up to 12 workweeks of unpaid, job-protected time away from work to eligible employees for qualifying reasons, including an employee's own serious health condition. An employee must have at least 12 months of employment with the District within the last 7 years AND at least 130 days worked (1250 hours for units A, E, G & Classified Substitutes) in the 12 months immediately preceding the first absence for the qualifying reason. Employees may be eligible to use their own available illness (full & half-pay) days, Personal Necessity, and/or vacation with or without FMLA/CFRA benefited time for their own serious health condition.

Workers' Compensation:

Workers' compensation provides wage replacement benefits to employees who are unable to work due to an illness or injury arising out of and in the course of employment with the District. It provides medical care at no cost to the employee related to on-the-job illnesses and injuries. It prohibits employers from retaliating against employees who file a Workers' Compensation claim.

Union Contracts:

Employees may be eligible and entitled to mandatory and/or permissive leave as outlined under the Leaves of Absences section of their Collective Bargaining Agreement (CBA). Employees may be eligible and entitled to additional benefits as outlined under any Memorandum of Understanding (MOU) and/or Side Letter Agreements for their respective bargaining unit.

Union contract information can be found on the LAUSD Labor Relation webpage at <https://achieve.lausd.net/Page/1>. Click the "Offices" tab at the top of the page, then "Office of Labor Relations."

State Disability Insurance (SDI) Benefits:

Classified employees may be eligible for State Disability Benefits for their own illness or injury through the California Employment Development Department. SDI information can be found on the Employment Development Department (EDD) website: <https://edd.ca.gov/>.
