

Eco-Sustainability Office Climate Literacy Task Force

Preparation Meeting

Monday, December 11, 2023

3:30-4:30 p.m.

Zoom or Conference Room 22-137

Task Force Goal

To convene and organize all other related working groups called for by previous initiatives and resolutions focused on school greening, gardening, outdoor education, and clean energy.

Tasks

- Staff development using curricula across all disciplines.
- Curricula development, especially for climate justice lessons, local issues, and trauma-informed activities, with a Climate Champion at each school
- Streamlining and expanding outdoor education and school greening
- Organization of a resource repository and its promotion
- Develop and support Career Technical Education (CTE) pathways.
- Create opportunities and partnerships that result in internships and apprenticeships for youth and young adults in fields that support green energy and reduce greenhouse gas emissions.
