

INTEROFFICE CORRESPONDENCE
Los Angeles Unified School District
Division of Instruction

TO: All Principals

DATE: July 26, 2024

FROM: Frances Baez, PhD 
Chief Academic Officer

SUBJECT: Supplemental Digital Instructional Tools 2024-2025

On June 4, 2024, the Board of Education approved Supplemental Digital Instructional Tools Bench No. 2000003260, authorizing 35 vendors for purchasing supplemental digital instructional tools. This bench allows teachers to use selected tools to create interactive lessons that enhance critical thinking and personalized learning in literacy, numeracy, STEAM, and social-emotional learning (SEL). These tools complement the adopted digital core instructional applications available through the Schoology App Center at lausd.org/lmsappcenter or by signing in at lms.lausd.org.

For the 2024-2025 school year, centrally funded digital tools will be available for schools for specified grade levels (see Attachment A). Schools can also purchase tools from the approved digital tools bench that align with their annual school plan goals. Attachment B lists the approved supplemental digital instructional tools available for schools to purchase directly.

Training for the centrally funded digital tools will commence during the Summer PD for teachers on August 5-6 and will continue throughout the school year via MyPLN.

In addition, Lightspeed Systems will be utilized to monitor student online activity, enabling educators to monitor engagement, identify trends, and enhance learning outcomes.

For additional information, please contact Sophia Mendoza, Director, Instructional Technology Initiative, sophia.mendoza@lausd.net
