Individual Professional Learning Opportunities

We invite you to learn...

ISTE Standards for Students Suite

These professional learning opportunities will focus on the integration of the ISTE Standards for Students by leveraging digital resources to empower 21st century learners. Through this suite, learners will be exposed to collaborative digital resources such as, Google Apps for Education, and additional web-based resources. Each session will build on career and college readiness skills and learner agency based on the Instructional Technology Initiative Task Force Recommendations.

Are you ready to experience and design 21st century instruction?

- Do you know what the international Society for Technology Education (ISTE) Standards for Students are and why LAUSD has adopted them?
- Are you interested in learning how to design lessons for the digital age learner?
- Do you want to be an innovator in your field, push the limits of what's possible, and try new things?

Course Title: 21st Century Learning Foundations

Prerequisite:

This is a 4-hour session prerequisite that sets the foundation for the ISTE Standards for Students Suite of professional learning that will be offered throughout the school year. This highly interactive session provides a deep dive into the Instructional Technology Initiative Task Force Recommendations and the ISTE Standards for Students. Learners will also engage in learning opportunities surrounding the TPACK and SAMR models. The resources shared in this session help to create a framework for examining the use of digital tools and resources to promote communication, collaboration, creativity and critical thinking to ultimately redefine teaching to support common core instruction and 21st century learning.

Registration Information:

This is a prerequisite for new participants. This session sets the foundation for the ISTE Standards for Students Suite of professional learning that will be offered through the school year.
