Individual Professional Learning Opportunities

We invite you to learn...

ISTE Standards for Students Suite

These professional learning opportunities will focus on the integration of the ISTE Standards for Students by leveraging digital resources to empower 21st century learners. Through this suite, learners will be exposed to collaborative digital resources such as, Google Apps for Education, and additional web-based tools. Each session will build on career and college readiness skills and learner agency based on the Instructional Technology Initiative Task Force Recommendations.

Are you ready to experience and design 21st century instruction?

- Do you know how to leverage digital tools and resources to enhance your instruction?
- Are you interested in creating an environment that cultivates thoughtful learning?
- Do you want to empower students to take their learning to deeper and deeper levels while developing essential skills that will prepare them for success in the 21st century?

Course Title: Empowered Learner

In this 4-hour session delivered in two 2-hour sessions, learners will explore how collaboration allows students to take an active role in achieving and demonstrating their learning goals. Through the use of Google Docs, learners will plan and design collaborative lessons, scaffold learning in real time and create a customized learning experience for their students. This session is designed for the classroom teacher who is looking to empower students to create, produce, and communicate their learning goals through the use of collaborative digital resources.

Registration Information:

Enrollment is limited to new participants and certificated staff. If you have previously taken this course, please contact us for support.
