INITIATIVE

# Knowledge Constructor

*Individual Professional Learning Opportunities*

## We invite you to learn...

### ISTE Standards for Students Suite

These professional learning opportunities will focus on the integration of the ISTE Standards for Students by leveraging digital resources to empower 21st century learners. Through this suite, learners will be exposed to collaborative digital resources such as, Google Apps for Education, and additional web-based tools. Each session will build on career and college readiness skills and learner agency based on the Instructional Technology Initiative Task Force Recommendations.

## Are you ready to experience and design 21st century instruction?

- Do you want to showcase student understanding through the use of digital tools and resources to capture their thinking process?
- Are you interested in having students curate information and make meaningful connections to their learning?
- Are you ready to leverage digital tools skillfully and critically?

## Course Title: Knowledge Constructor

In this 6-hour session delivered in three 2-hour sessions, learners will focus on the concept of knowledge constructor through the exploration of a real-world issue. Learners will develop ideas, reflect on their instructional design practices, and dialogue about best practices through the use of Google Forms. By the end of this session, learners will have designed a lesson that gives them the opportunity to capture student thought process, and enable them to facilitate a learning experience that promotes reflection and construction of knowledge.

## Registration Information:

Enrollment is limited to new participants and certificated staff. If you have previously taken this course, please contact us for support.

21<sup>st</sup> Century Learning Foundations is required to attend these sessions.
