Instructional Technology Initiative Professional Learning Opportunities

March 2017

ISTE Standards for Students Suite

These professional learning opportunities will focus on the integration of the *ISTE Standards for Students* by leveraging digital resources to empower 21st century learners.

Knowledge Constructor

In this 4-hour course delivered in two 2-hour sessions, learners will focus on the concept of knowledge constructor through the exploration of a realworld issue. Learners will develop ideas, reflect on their instructional design practices, and dialogue about best practices through the use of Google Forms. By the end of this session, learners will have designed a lesson that gives them the opportunity to capture student thought process, and enable them to facilitate a learning experience that promotes reflection and construction of knowledge.
