Teacher Leader Network

ITI INSTRUCTIONAL TECHNOLOGY INITIATIVE

The Teacher Leader Network offers two pathways for participants to select from:

OPTION 1:

Professional Learning for 21st Century Instruction:
Focus is on instructional design that strategically integrates and cultivates the skills and practices addressed in the 2016 ISTE Standards for Students.

OPTION 2:

Integrating Computer Science Education:
Focus is on instructional design that strategically integrates the skills and practices addressed in the 2016 ISTE Standards for Students AND the K-12 Computer Science Framework.

For more information, read related Interoffice Correspondence

Is this for you?

- Do you have a growth mindset?
- Are you open to reflecting and refining your instruction to enable students to thrive in a connected, digital world?
- Are you ready to distinguish the differences between leveraging digital resources to transform learning versus leading with the tool?
- Do you recognize that making mistakes and asking questions are integral to learning and growing?
- Do you believe that every student is entitled to learning experiences that addresses their individual needs?
- Do you believe in interdisciplinary instruction that leverages digital resources to provide real world application?
- Are you committed to being part of a professional learning network and sharing your learnings with others?
