

NNC Site Instructions for Ordering Vegan Options

- **LUNCH:** For Elementary, Entrée 3 Vegan Line, and for Secondary, Entrée 5 Vegan Line, are on the menu starting the week of 11/6.
- Each day has a different vegan item. There are three ways to order vegan items: 1) If this item is popular, order the IW Burrito and Chili by the case; 2) order items by basket(s) of 10; or 3) order the *Vegan Items Mixed Basket* by basket(s) of 10, with two each of 5 different vegan options on the menu.
- For 1 or 2 students requesting a vegan entrée, the *Vegan Items Mixed Basket* is a good option as this one basket will last the whole week for the students. If you have 6 students requesting vegan entrees, three baskets are needed to last the week.
- All options except the burrito also have a grain that must be offered. Below are the entrees and the grain to order with them.
- Regardless of if cases or baskets of 10 are ordered, **entrees and the grains must be MANUALLY added to the shopping list and production record.** They are NOT in the Menu Plan. See below for recipe and CMS numbers needed for manually adding these items.
- **BREAKFAST:** The only vegan option is Blueberry Chex Cereal (CMS# 1675). Order this through EZ Steps as you normally do. Additional vegan options are coming later in November and December.
- **SUPPER:** Use the same vegan options available for lunch; however, be sure to offer an item **DIFFERENT** than what was served at lunch. Provide upon request only.
