

## ***NNC PACKAGING GUIDELINES for BULK Mini Sweet Peppers***

*For mini-sweet peppers, use recipe #R4609. Click on “FS Tutorial Videos” on our website for instructions on using equipment to seal bagged items. Scroll to the bottom of videos and view the fourth and fifth videos from the bottom related to this topic.*

The Mini Sweet Peppers come in a 20 lb. case. Rinse and Dry. These will come pre-rinsed for sites without a sink for washing.

Estimate a **2 oz portion** of mini-sweet peppers. This picture shows what a single portion size in a ½ lb. boat looks like. The portion ranges from 2 to 4 peppers depending on the size of the peppers. A 2 oz. portion is just enough to cover the bottom of a ½ lb. boat.

Use the tape machine to prepare bags of peppers. Serve the bagged vegetables in the harvest stand.
