

# POURAWAY® CADET™

The PourAway Recycling System was created to address a fundamental sustainability need, removing liquids from the waste stream. Whether for the purpose of reducing waste hauling costs, providing safety or reducing greenhouse gas production, the PourAway Cadet has you covered.

*New* Cadet  
with sign fittings!  
8.5" x 11" Snap Frame  
Vertical & Horizontal  
For Display Signs.

Sturdy handle with commercial grade wheels makes moving the PourAway® Cadet™ easy and safe along with caster brakes for locking into place.

## PourAway®

PourAway Cadet™ is the ultimate in quality and durability - engineered to manage the extreme demands of liquid waste capture.

Cadet available in 12+ Colors. Visit our website to see all options. [www.PourAway.com](http://www.PourAway.com)

Removable Aluminum and Stainless-Steel strainer keeps solids from clogging the unit and is easy to clean.

The highly visible liquid level gauge shows full at 23 gallons, but the cadet holds 30 gallons of liquid safely.

The BioActive MICROBIAL Enzyme Puck was design to address organic buildup in our liquid receptacle.
