All of your school's prior-year E-CAR reports are available on your school's E-CAR Dashboard. Once you submit your E-CAR application for review, your school's current-year Provisional E-CAR Report also becomes available. After School Management Services – Master Planning & Demographics finishes evaluating your E-CAR application, your school's final E-CAR Report becomes available.

The classroom inventory for this school is complete and accurately reflects the allocation of those spaces at this time. I have reviewed and understand the assessment of this school's enrollment capacity. I am aware that this information will be shared with other LAUSD offices, to be used in the evaluation of future campus needs and in the assessment of potential utilization.

PAGE 2 - These calculations determine the number of classrooms needed at the (8) Elementary level and/or (9) Secondary level (as applicable to the school's grade configuration). Elementary and Secondary calculations account for separate norming of the school's Host (primary) program and any Magnet and/or Dual Language programs. Secondary calculations account for Master Program requirements by grade-level. Calculations are based on (10) the appropriate norm tables, and determine (11) the number of classrooms needed for the reported enrollments and (12) the capacities in those classrooms.

PAGE 3 - **13** School-Wide Capacity compares **a** the school's total number of classrooms available for Instruction with **b** the total number of classrooms needed for Instruction, and reports the variance as **c** Under/Over Allocated Classrooms. **d** The capacities of classrooms needed is reported for Elementary and Secondary Instruction and Secondary magnets, followed by added capacity needed for "out of classroom" adjustments for students in secondary Physical Education, capacity needed for Special Day enrollments, and the adjustment to capacity for classrooms Under/Over. **e** The school's resulting 2-Semester Capacity is displayed. If applicable, **f** additional capacity allowances are provided for traveling at the Secondary level.

14 The Classroom Utilization Summary is the tally of classrooms, by allocation, as identified for non-instructional use during the Principal's classroom inventory review, plus the classrooms determined by the calculation process to be needed for instruction, plus any classrooms determined to be needed to support additional teaching positions.
