Los Angeles Unified's Advocacy in Support of SB 70 – Mandatory Kindergarten

Senate Bill 70 by Senator Susan Rubio will ensure all children in the state receive critical instruction during their earliest years of learning. Early education is essential for the physical, intellectual, and socioemotional development of children and provides students with the fundamental skills and tools needed for academic success. SB 70 clarifies state law by requiring students to attend kindergarten prior to entering the first grade of a public elementary school. This is an important clarification at a time when the state is moving towards implementing a new grade level through the expansion of universal Transitional Kindergarten for all four-year olds.
