

CELEBRATING THE 34TH ANNIVERSARY OF THE AMERICANS WITH DISABILITIES ACT (ADA)

DID YOU KNOW.....

ADA defines a person with a disability as a person who has a physical or mental impairment that substantially limits one or more major life activity.

ADA was signed into law on July 26, 1990.

According to the <u>Centers for</u>

<u>Disease Control and Prevention</u>

(CDC), approximately 1 in 4 adults
in the United States has a disability.

Countless inventions were designed with disability in mind: the typewriter, electric toothbrush, fidget spinner, bendy straw, and so much more!

The District is committed to ensuring that programs and services are operated in a manner that promotes equity, program accessibility, and a free appropriate public education.

Thank you for celebrating with us!
