

## Steps for Scanning a QR Code to Access the School Experience Survey

### **For iPhone (iOS 11 and later):**

1. Open the **Camera** app.
2. Point the camera at the QR code.
3. Ensure the QR code appears within the frame and stays in focus.
4. When the QR code is detected, a notification will pop up at the top of the screen.
5. Tap the notification to open the link or information associated with the QR code.

### **For Android:**

1. Open the **Camera** app (on most newer phones).
2. Point the camera at the QR code.
3. Make sure the code is in focus.
4. A notification or prompt will appear once the QR code is detected.
5. Tap the notification to open the link or information related to the QR code.

### **If Your Phone Doesn't Support QR Code Scanning with the Camera:**

If your camera app doesn't automatically scan QR codes, you can use a third-party QR code scanner app:

1. Download a QR code scanner app from your app store (e.g., "QR Code Reader").
2. Open the app and follow the instructions to scan the code.
