

Scenario 1

Around 11:30 a.m. on 2/12/18, Principal saw two students (Student A and Student B) taking swings at each other outside room 4. He got in between the two and told them to stop. "A" went down the stairs to the first floor, then changed directions and came back to begin the fight again. While Principal again tried to stop the fight, "A" punched Principal in his lower back. Principal took "B" to the office while "A" left the scene. After Principal took "B's" statement and was leaving the office, "A" attempted to enter the office in an apparent attempt to approach "B". Principal held the door shut so "A" could not enter. "A" then quickly left the building through the west stairwell and exited campus onto 4th Street, pursued by campus aide.
