### **What National Board Certified Teachers say:**

“The professional development model used by TSN is the model that should be used for all staff development in our schools. There is no doubt in my mind that the support of my study group was the single most important factor in achieving my certification.” *Mike Albert, NBCT*

“The Support Network provides a collaborative environment where you can hash out details, get answers & confirmations and, best of all, improve your daily practice. TSN is one of those rare things that works the way it should. Well worth the investment of time, money and effort for the serious candidate.” *Lisa Alva, NBCT*

“Joining The Support Network was one of my best decisions ever. The warm, supportive, you-can-do-it cheerleading we all got and the perceptive feedback I got from my group are two big reasons I achieved National Board Certification. I cannot say enough good things about The Support Network.” *Cheryl Read, NBCT*
