Mastery Learning and Grading PD Series

Have you ever felt that traditional grading practices are problematic? Would you like to learn more about Mastery Learning and Grading? Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students' variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning.
