PURPOSE: The purpose of this Bulletin is to outline how food (meals and refreshments) may be purchased with District resources, including for School and District Advisory Committees and Parent Workshops.

MAJOR CHANGES: This Bulletin now incorporates guidelines for providing food to parent advisory committees using general funds. This Bulletin replaces BUL-2188.0 of the same title and BUL-6747.1, Purchase of Refreshments/Meals for School and District Advisory Committees.

GUIDELINES: Provision of food using District resources could be considered a gift of public funds if not done appropriately. As a result, the following guidelines apply.

Food (meals and refreshments) may be purchased with District funds when done so in compliance with the guidelines listed below. As a related issue, the purchase of food items for use in Home Economics classes is also permitted.

Purchase Orders will not be issued, and the Accounts Payable Branch will not provide Imprest Fund Claim reimbursements for any food item or beverage (e.g., bottled water) purchased for school or office staff consumption outside of these guidelines.

For purposes of this Bulletin, “meals” are defined as food items and a beverage(s) that constitute a full course for breakfast, lunch or dinner; “refreshments” are defined as a food item constituting a snack or portion of a meal and/or a beverage(s). In all cases, alcoholic beverages may not be purchased. Administrators should also ensure that purchases are reasonable.

The following are meal and refreshment purchasing guidelines:

- Refreshments may be purchased for parents only for school/District advisory committee/council meetings and workshops or trainings from approved District accounts. Refreshments may be purchased if the cost per
person for each serving does not exceed $5. Full course meals may be purchased if the cost per person for each serving does not exceed $8.
