

# DESTINY BARCODE LABEL PLACEMENT

*All LAUSD barcoded books managed in Destiny Resource Manager need to be labeled with two barcode labels. See below for the placement of the labels. NOTE: Library & Textbook Support will provide schools with pre-printed labels.*

## First Label:

Place the first label on the inside of the front cover of the book, running parallel to the spine as shown below.

## Second Label:

Place the second label on the spine as shown below ONLY if it fits and there is space above and below the label.

## Second Label:

If the second label does not fit on the spine of the book as shown above, then place it on the back cover of the book as shown below, aligned parallel to the spine of the book.
