* The CalEPA Regulated Site Portal (Portal) combines data about environmentally regulated sites and facilities in California into a single, searchable database and interactive map. To use the Portal to identify facilities near an LAUSD school:
 - First zoom in to a school location on the map by either using the search bar to enter the school's address or by using a mouse and zoom tools
 - Once the user has zoomed in to a school site, the map shows all the regulated sites near the school
 - Users can click on the regulated sites to find out additional information about the sites
 - The Portal also includes tools to measure the distances between locations on the map
