

# MiSiS – My Integrated Student Information System

## Student Support

### Enter and View Prior Interventions

The MiSiS application allows teachers and other authorized staff to document interventions for incidents that have occurred, which do not warrant submitting a referral, and **do not** need actions to be taken by an Administrator/Designee. This input screen includes prior interventions which may later be liked to a submitted referral.

This job aid will walk the user through the processes of entering and viewing prior interventions through the **Teacher's portal**.

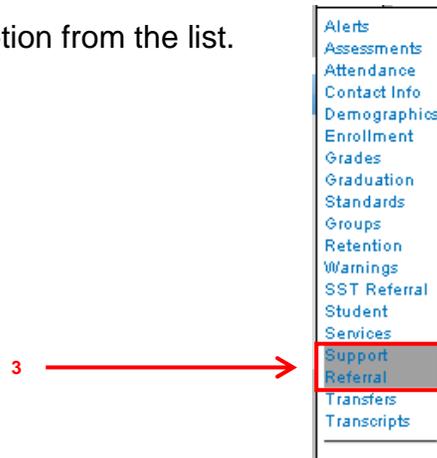

**Step 1** Log into MiSiS at <https://misis.lausd.net/start>, using your single sign-on (SSO) account.

**\*\* Schools with multiple locations housed at the same site will access each location separately.**

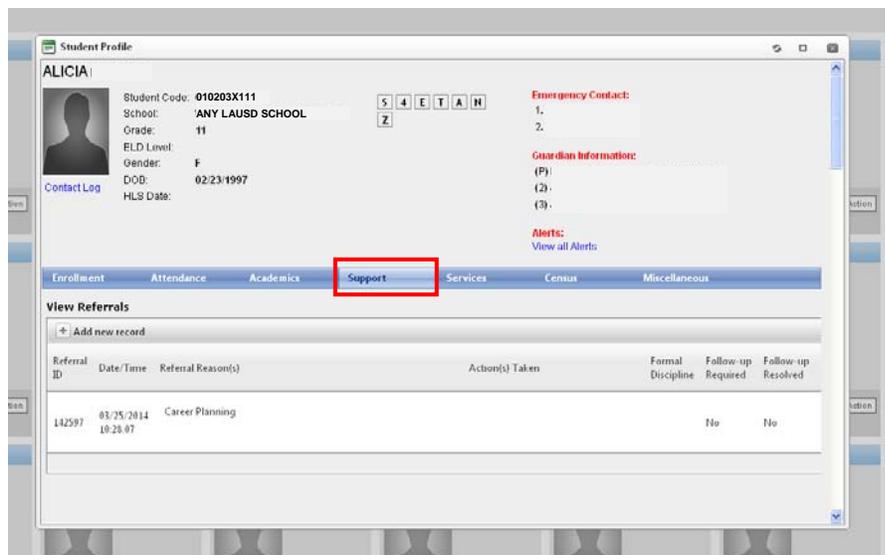

**Step 2** From the Class Roster page, click the Action button for a particular student to view a list of available options.

The screenshot displays the MiSiS interface for a class roster. At the top, there is a navigation bar with 'MSS TESTING' and user information 'MARCEL VAN BAAL (19:23)'. Below the navigation bar, there are filters for 'View: Student Tiles' and 'Set by: First Name, A-Z'. The main area contains a grid of student cards, each with a name, a placeholder image, and a set of buttons labeled 'S', 'A', 'E', 'T', 'A', 'M', and 'Action'. A red box highlights the 'Action' button for the student 'ANDREW', and a red arrow points to it from the number '2'.

**Step 3** Click the **Support Referral** option from the list.

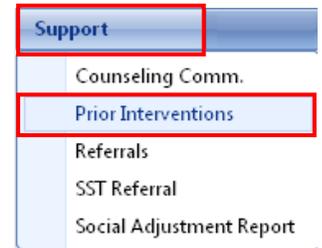

**\*\*** The **Student Profile** screen displays, with the *Support* option highlighted.

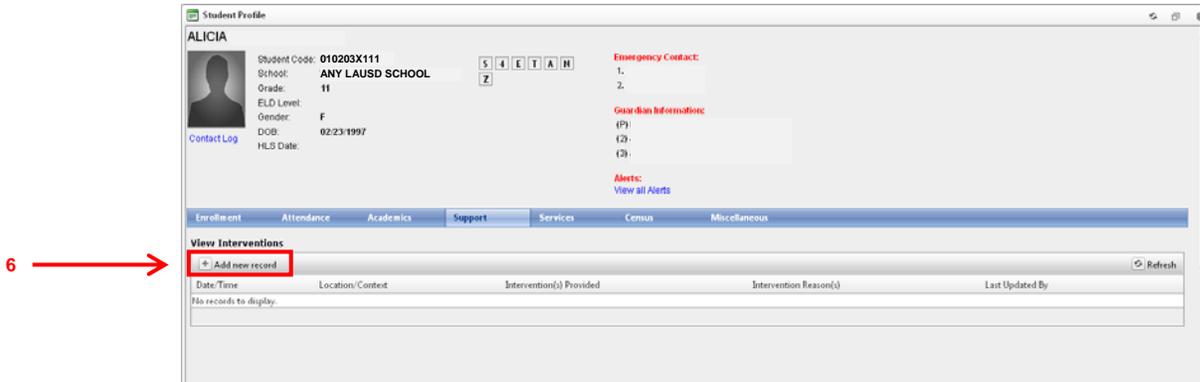

**Step 4** Click the **maximize** button at the upper right corner of the window to view a full screen.

**Step 5** Hover the mouse over the *Support* option and click **Prior Interventions**. (It may be necessary to click in any open space on the screen to collapse the drop-down list.)

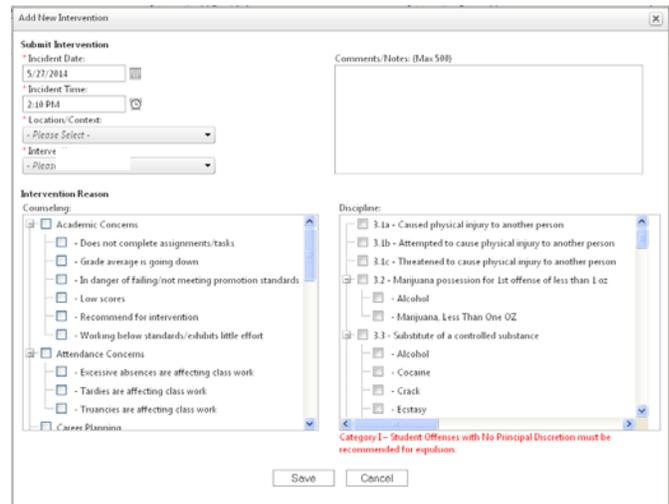

**Step 6** Click the **+ Add new record** link to add a new intervention entry.

**\*\* All required fields are represented by the Red Asterisk.**

**\*\* The **Date** and **Time** fields are defaulted to the current date and time according to the computer settings. These fields are required and should represent the date and time the incident occurred. Users can click and type over the default data, or the icons can be used. The next few steps will demonstrate using the calendar and clock icons.**

**Step 7** To change the date, click the **calendar** icon .

**Step 8** Click the desired date from the date picker to change.

**Step 9** To change the time, click the **clock**  icon

**Step 10** Click the desired time from the **Time Picker** to select.

\*\* The time picker options are on the hour, to add minutes after selecting an available option...

**Step 11** Double-click on the minutes (00) and type the desired minute value.

**Step 12** Click the \* **Location/Context** drop down list arrow .

**Step 13** Click the desired option from the list (*For this example, During lunch was selected*).

**Step 14** Click the \* **Interventions** drop down list arrow .

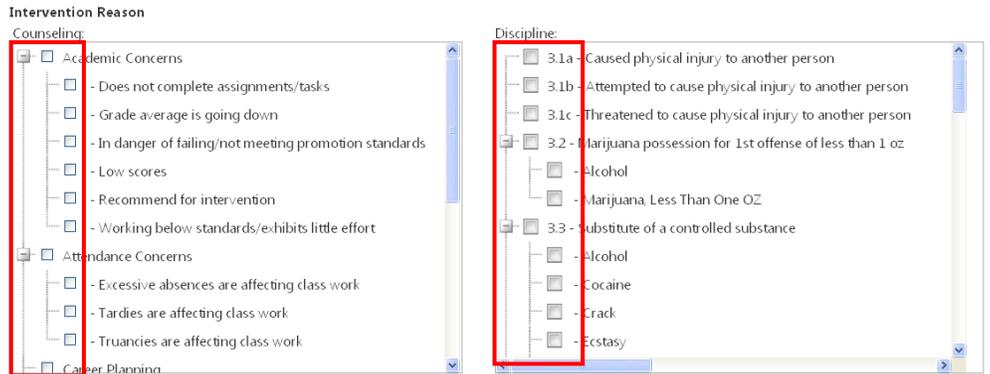

**Step 15** Click the checkbox(es) for the type of intervention provided. Multiple selections can be made by clicking the checkbox for each intervention. (*It may be necessary to click in any open space on the screen to collapse the drop down list.*) (*For this example, Campus Beautification was selected.*)

\*\* To include details of the intervention, click in the **Comments/Notes (Max 500)** field and type any text to be documented along with this particular intervention submittal.

Comments/Notes: (Max 500)

\*\* Interventions may be entered for either a Counseling **-or-** a Discipline reason, but not both at the same time.

Some *parent* Intervention Reasons listed will have *child* list options available. MiSiS will automatically display the lists in an expanded view.

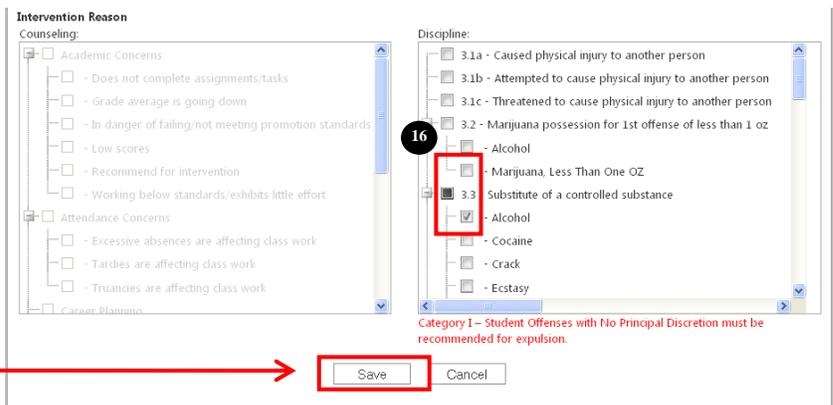

**Selecting an Intervention Reason:**

Counseling – if the desired option has a parent to child relationship, click the checkbox for the child first (ex. Grade average is going down), *then* select the parent (ex. Academic Concerns).

Discipline – if the desired option has a parent to child relationship, clicking the child first (ex. Alcohol) will trigger the system to automatically select the parent (Substitute of a controlled substance).

**Step 16** Click the **Alcohol** checkbox under the Discipline area.

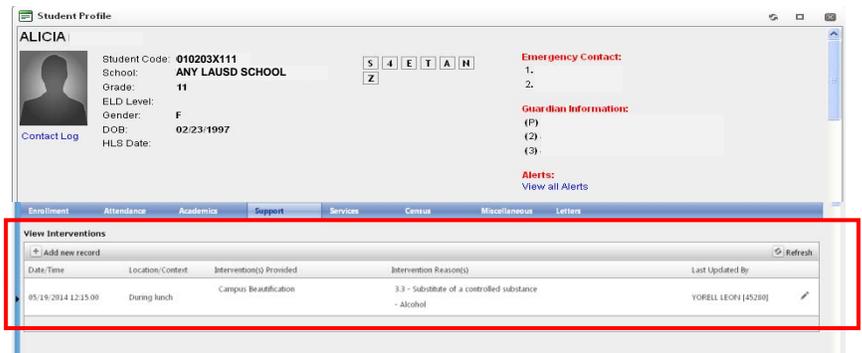

\*\* *Once a selection is made for the Counseling Intervention Reason, the Discipline options will become unavailable, and vice versa.*

**Step 17** Click the button.

\*\* A chronological log of entries will display.

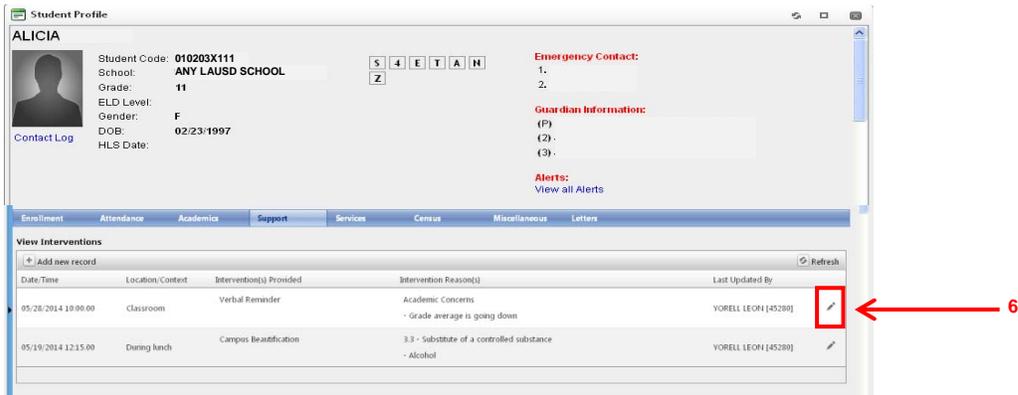

## To Edit and/or View an Intervention Record

Follow steps 1 thru 5 located at the beginning of this document.

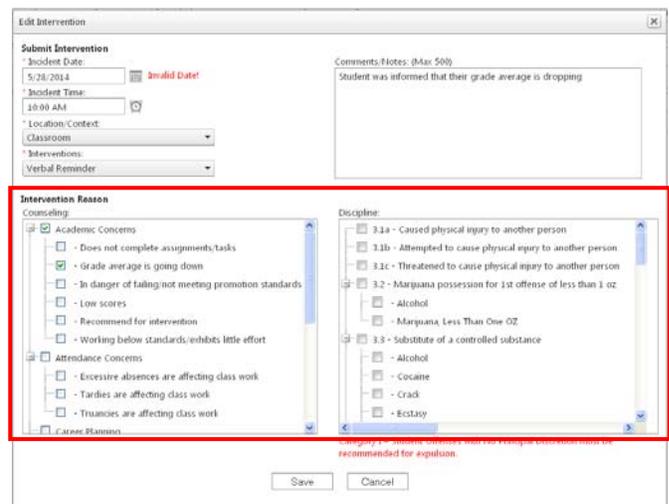

\*\* When the View Interventions window opens, it will display a chronological log of entries.

**Step 6** To edit and/or view an entry, click the **Edit** icon for the desired intervention

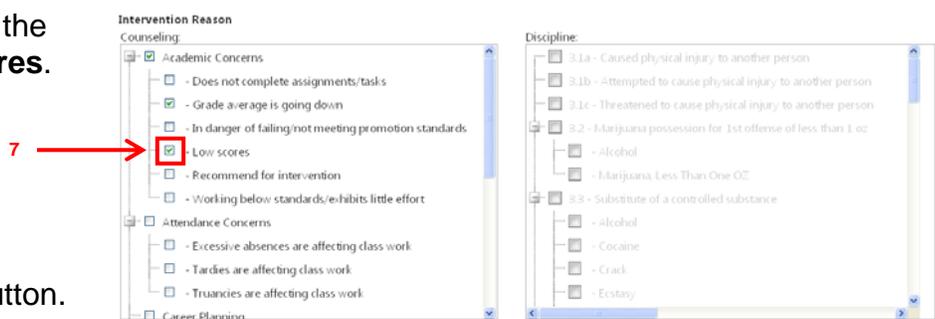

\*\* When the Edit Intervention window displays, **both** Counseling and Discipline options are available for selection. Interventions may be entered for either a Counseling **-or-** a Discipline reason, but not both at the same time.

\*\* Once an edit is made to the Counseling Intervention Reason, the Discipline options will become unavailable, and vice versa.

**Step 7** For this example, click the checkbox for **Low scores**.

**Step 8** Click the **Save** button.
