RESOLUTION 2014-44

BOARD REPORT NO. 128-14/15

**AMENDMENT TO THE INFORMATION TECHNOLOGY STRATEGIC EXECUTION
PLAN TO PURCHASE DEVICES AND CARTS FOR THE PURPOSE OF EQUIPPING
SCHOOLS TO COMPLETE THE SBAC TESTING**

WHEREAS, District Staff proposes that the Board of Education amend the Information Technology Division (ITD) Strategic Execution Plan (SEP) to revise and approve the Common Core Technology Project to invest an additional \$13,000,000 of bond funding to address student access needs regarding the Smarter Balanced Assessment and take the following actions as described in Board Report No. 128-14/15, a copy of which is attached hereto in the form it was presented to the Bond Oversight Committee (BOC):

- Purchase and equip schools as follows:
 - Non-Phase 1, 1L and 2a schools with storage/charging carts stocked with tablet devices and physical keyboards or laptop computers necessary to successfully conduct the 2015 Smarter Balanced Assessment testing.
 - Based on the number of students required to take the assessments, the amount of time given to complete the assessments, and feedback given during the Spring 2014 SBAC Field Test, District Staff estimates the total not-to-exceed number of storage/charging carts to be purchased is approximately 537 charging carts, consisting of 14,875 iPads and physical keyboards and 4,000 Chromebooks (35 of each per cart), with schools assigned devices based on their preference. Both devices are compatible for SBAC testing.
 - Authorize District Staff to execute all instruments necessary to implement approved Phases and project scopes for SBAC and instructional technology, including procurement actions (under Public Contract Code sections 20118.1

RESOLUTION 2014-44

AMENDMENT TO THE INFORMATION TECHNOLOGY STRATEGIC EXECUTION PLAN TO PURCHASE DEVICES AND CARTS FOR THE PURPOSE OF EQUIPPING SCHOOLS TO COMPLETE THE SBAC TESTING

PAGE 2

and/or 20111, where appropriate) for the purchase of iPads and Chromebooks, keyboards and accessories.

WHEREAS, in Spring 2014, District students participated in an online field test of the Smarter Balanced Assessment. The Common Core Technology Project, Office of Data and Accountability (ODA), Information Technology Division, and Testing Division made a coordinated effort to provide schools with the devices necessary for students to complete the assessment. The District purchased 47,740 iPads with cases and keyboards, as well as charging carts, for completion of the field test. The amount spent was \$30,968,813 out of \$40,185,304 authorized by the Board of Education on January 14, 2014 (BOE 129-13/14), leaving a balance of \$9,216,491 for future assessment needs.

WHEREAS, at the conclusion of the Spring 2014 field test, ODA surveyed schools regarding the sufficiency of the devices provided, given the parameters of the field test. ODA found that many schools needed more devices, and that they would prefer a choice in which device type to use. Particularly, ODA found a greater need for devices within the District's middle schools and span schools, due to the number of grades tested. In a survey administered recently, roughly half of these schools preferred iPads for testing, one third preferred Chromebooks, and the rest of the schools did not indicate a preference. This survey will be used to inform the purchase of how many and which type of device a school will receive to facilitate the Spring 2015 assessment.

WHEREAS, in response to school needs, the District will use \$8,968,725 of the remaining funds to purchase approximately 10,640 devices and 304 charging carts for schools identified as needing the most devices to complete the testing.

WHEREAS, based on District estimates, the remaining funds designated for the field test will not be sufficient to effectively complete the high stakes testing in Spring 2015. Thus, the District is bringing Board Report 128-14/15 to request approval to purchase and distribute additional testing devices.

WHEREAS, the proposed actions will enable the District to comply with the Board of Education's directive to implement a second phase of the testing device purchase and distribution, advancing efforts to modernize classrooms, prepare students to master Common Core State Standards, facilitate students' proficient use of digital learning technology, equip educators with tools to advance student learning in the classroom, and further close the digital divide between those students who have and do not have access to the most advanced learning tools available.

WHEREAS, District Staff has concluded that the proposed SEP amendment will facilitate implementation of the FSD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD SEP.

RESOLUTION 2014-44

**AMENDMENT TO THE INFORMATION TECHNOLOGY STRATEGIC EXECUTION
PLAN TO PURCHASE DEVICES AND CARTS FOR THE PURPOSE OF EQUIPPING
SCHOOLS TO COMPLETE THE SBAC TESTING**

PAGE 2

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The School Construction Bond Citizens' Oversight Committee recommends that the Board of Education amend the Information Technology Division (ITD) Strategic Execution Plan (SEP) to revise and approve the Common Core Technology Project to invest an additional \$13,000,000 of bond funding to address student access needs regarding the Smarter Balanced Assessment and take the following actions as described in Board Report No. 128-14/15, a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference.
2. This resolution shall be transmitted to the Los Angeles Unified School District Board of Education and posted on the Bond Oversight Committee's website.
3. That a written response as required by the Charter and Memorandum of Understanding between the Oversight Committee and the Board be provided to the Oversight Committee within 30 days, reporting either on action taken or proposed to be taken in response to this resolution and each recommendation herein.

ADOPTED on November 20, 2014 by the following vote:

Board of Education Report

Report Number:	128 – 14/15
Date:	November 13, 2014
Subject:	Amendment to the Information Technology Division Strategic Execution Plan to Update the Common Core Technology Project
Responsible Staff:	
Name	Ramon Cortines, Superintendent of Schools Dr. Ruth Perez, Deputy Superintendent of Instruction Gerardo Loera, Executive Director, OCIS Matt Hill, Chief Strategy Officer Mark Hovatter, Chief Facilities Executive
Office/Division	Office of the Deputy Superintendent of Instruction
Telephone No.	213-241-4822

BOARD REPORT

Action Proposed: Staff proposes that the Board of Education amend the Information Technology Division (ITD) Strategic Execution Plan (SEP) to revise and approve the Common Core Technology Project (CCTP) to invest an additional \$13,000,000 of bond funding to address student access needs regarding the Smarter Balanced Assessment and take the following actions:

- Purchase and equip schools as follows:
 - Non-Phase 1, 1L and 2a schools with storage/charging carts stocked with tablet devices and physical keyboards or laptop computers necessary to successfully conduct the 2015 Smarter Balanced Assessment testing.
 - Based on the number of students required to take the assessments, the amount of time given to complete the assessments, and feedback given during the Spring 2014 SBAC Field Test, staff estimates the total not-to-exceed number of storage/charging carts to be purchased is approximately 537 charging carts, consisting of 14,875 iPads and physical keyboards and 4,000 Chromebooks (35 of each per cart), with schools assigned devices based on their preference. Both devices are compatible for SBAC testing.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

- Authorize staff to execute all instruments necessary to implement approved Phases and project scopes for SBAC and instructional technology, including procurement actions (under Public Contract Code sections 20118.1 and/or 20111, where appropriate) for the purchase of iPads and Chromebooks, keyboards and accessories.

The delegated authority authorized for the Apple Inc. contract dated June 18, 2013 and the Arey Jones contract dated January 14, 2014 for CCTP will be exercised to meet the capacity needs described in this Board Report.

Background:

The proposed actions will enable the District to comply with the Board of Education's directive to implement a second phase of the testing device purchase and distribution, advancing efforts to modernize classrooms, prepare students to master Common Core State Standards, facilitate students' proficient use of digital learning technology, equip educators with tools to advance student learning in the classroom, and further close the digital divide between those students who have and do not have access to the most advanced learning tools available.

The District collected a variety of data and feedback during the Spring 2014 SBAC field testing. Several factors drove the need for the purchase of additional testing devices:

- The SBAC Spring 2015 testing window is high stakes, meaning scores will become a part of a student's transcript and used similarly to CST scores in the past.
- Students will take both the English/ Language Arts and Mathematics test.
- California Department of Education requires that the assessment be untimed and that students have as much as necessary to complete.
- Each content area test is estimated to take four hours of testing to complete, not including setting devices up or moving them between classrooms. It should be noted that the California Department of Education (CDE) requires this to be an untimed test for students.
- Schools will complete testing within a four-week window.

Expected Outcomes: Approval of the proposed actions and the subsequent investment in testing devices will begin immediately upon approval.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

Board Options and Consequences:	Approval of this action will enable full administration of the Smarter Balanced Online Assessment. Failure to approve the proposed actions will critically limit the ability of all schools to participate effectively in the Smarter Balanced Online Assessment.
Policy Implications:	This action is consistent with the District's long-term goal to address unmet school facilities needs as described in Measures R, Y and Q.
Budget Impact:	The estimated total investment for the proposed actions is \$13,000,000. Funding will come from Bond Program funds allocated to the School Upgrade Program (SUP) category of need "Common Core Technology Project." The project will be funded with bonds proceeds from already issued and/or to-be-issued Measures K, R, Y, and Q, where appropriate. There is no General Fund impact.
Bond Oversight Committee Recommendations:	This item was considered by the School Construction Bond Citizens' Oversight Committee (BOC) at its meeting of November 20, 2014. Staff has concluded that this proposed ITD-SEP amendment will facilitate implementation of the SEP, and therefore, it will not adversely affect the District's ability to successfully complete the SEP.
