BOARD REPORT

Action Proposed: Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve 69 Educational Service Center Priority (ESC) and Board Member Priority (BMP) projects (as listed on Attachment A), and authorize the Chief Facilities Executive, and/or his designee, to make any purchases associated with these projects. The total combined budget for these projects is \$3,179,251.

Background: In accordance with the Maintenance and Operations Weighted Allocation Formula, local Bond Measures K, R and Y funds have been allocated to Board-Prioritized Facilities Programs for ESC and BMP projects. Projects are developed at the discretion of the Board District or Educational Service Center with support from Facilities Services Division staff and input from school administrators. All projects must be capital in nature and adhere to bond language and laws.

The projects proposed in this Board Report will upgrade, modernize and/or enhance the learning environment for students. The projects include various modernization, security upgrade and repair scopes of work. Project scopes, schedules and budgets within these categories may vary depending on site conditions and needs.

Expected Outcomes: Execution of these projects will help improve the learning environment for students, teachers and staff.

Board Options and Consequences: A "yes" vote will allow staff to execute the projects listed on Attachment A. Failure to approve this proposed action will delay the projects and ultimately the anticipated benefit to the schools and their students.
