**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC  
EXECUTION PLAN TO DEFINE AND APPROVE INFORMATION TECHNOLOGY  
NETWORK INFRASTRUCTURE, EQUIPMENT, AND PHONE SYSTEM UPGRADE  
PROJECTS**

WHEREAS, District Staff proposes that the Board of Education amend the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve school Information Technology (IT) network infrastructure, equipment, and phone systems upgrade projects at 88 Early Education Centers (EECs), as listed in Attachment of Board of Education Report No. 122-15/16 attached hereto in addition to staff filing for potential \$1,114,724 in E-rate discounts; and

WHEREAS, advancements in technology have increased the options available to teachers to deliver instructional initiatives as well as changing the way students learn and perform, However that the vast majority of Local Area Network (LAN) projects undertaken over the last decade occurred prior to the introduction of the high throughput and wireless technologies that are used today, and upon which the current instructional technologies depend; and

WHEREAS, as part of the ongoing plan to upgrade the Districts IT network infrastructure, the Board has approved three previous actions for school IT network infrastructure upgrade projects contained in the FSD-SEP (BOE #317-12/13 adopted on June 11, 2013, BOE #248-13/14 adopted on February 11, 2014, and BOE # 392-14-15 adopted on May 13, 2014; and

WHEREAS, the EEC program has approximately 11,000 students in 88 total centers located throughout the District, with most of these sites experiencing increased failure rates impacting instruction and communication; and

RESOLUTION 2015-40

AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC EXECUTION  
PLAN TO DEFINE AND APPROVE INFORMATION TECHNOLOGY NETWORK  
INFRASTRUCTURE, EQUIPMENT, AND PHONE SYSTEM UPGRADE PROJECTS  
PAGE 2

WHEREAS, The average useful life of network equipment is between 3 and 7 years, with the 88 EECs having network equipment between 10 and 11 years in age and newer applications and increased multimedia usage are creating greater speed and bandwidth needs that the older equipment fails to meet, and currently 60% of the EEC sites are experiencing challenges due to lack of bandwidth; and

WHEREAS, Many of these sites have phone services converged on the network and the high failure rate of the networks is causing the loss of vital communication for part or multiple days as replacement parts are becoming more difficult to find to repair obsolete equipment; and

WHEREAS, New network equipment will also have increased management and security capabilities and features that reduce support costs and offer greater protections; and

WHEREAS, the proposed action is consistent with the District's long-term goal to address unmet school facilities needs as described in Proposition BB and Measures K, R, Y, and Q; and

WHEREAS, the proposed action impacts Bond Program funds only. Funding will be provided by Bond Program funds allocated to Early Education Center Facilities Upgrades Executed by FSD in the School Upgrade Program (SUP). There is no impact to the General Fund; and

WHEREAS, District staff has concluded that the proposed SEP Amendment will facilitate implementation of the SEP, and therefore, it will not adversely affect the District's ability to successfully complete the SEP.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The School Construction Bond Citizens' Oversight Committee recommends that the Board of Education amend the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to approve school Information Technology (IT) network infrastructure, equipment, and phone systems upgrade projects at 88 Early Education Centers (EECs), as listed in Attachment A of Board Report 122-15/16 a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference. \$11,949,255 of Bond Program funds earmarked for Early Education Center facilities upgrades will be allocated to design and construct new projects at these school sites. In addition, with this action, staff are authorized to apply for potential E-Rate discounts in the amount of \$1,114,724.

## LOS ANGELES UNIFIED SCHOOL DISTRICT Board of Education Report

<b>Report Number:</b>	122-15/16
<b>Date:</b>	November 10, 2015
<b>Subject:</b>	Amendment to the Facilities Services Division Strategic Execution Plan to Define and Approve School Information Technology Network Infrastructure, Equipment, and Phone System Upgrade Projects
<b>Responsible Staff:</b>	
Name	Mark Hovatter, Chief Facilities Executive Dean S. Tagawa, Administrator
Office/Division	Facilities Services Division Early Childhood Education Division
Telephone No.	213-241-4811 and 213-241-0415

### BOARD REPORT

**Action Proposed:** Staff proposes that the Board of Education amend the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve school Information Technology (IT) network infrastructure, equipment, and phone systems upgrade projects at 88 Early Education Centers (EECs), as listed in Attachment A with a project budget of \$11,949,255. In addition the proposed action approves Staff filing for potential E-Rate discounts in the amount of \$1,114,724.

Staff further proposes that the Board of Education authorize the Chief Facilities Executive and/or his designee to execute all instruments necessary to execute the projects including the purchase of equipment and materials.

**Background:** Advancements in technology have increased the options available to teachers to deliver instructional initiatives, as well as changing the way students learn and perform. However, the vast majority of Local Area Network (LAN) projects undertaken over the past decade occurred prior to the introduction of the high-throughput and wireless technologies that are used today, and upon which the current instructional technologies depend. This is not only true for K-12 campuses, it is also true for EECs.

The EEC program has approximately 11,000 students in 88 total centers located throughout the District. Most of these sites are experiencing increasing failure rates impacting instruction and communication. The

## LOS ANGELES UNIFIED SCHOOL DISTRICT

### Board of Education Report

average useful life of network equipment is between three and seven years, with the 88 EECs (Attachment A) having network equipment between 10 and 11 years in age. Additionally, many of these sites have phone services converged on the network and the high failure rate of the networks is causing the loss of vital communication for part or multiple days as replacement parts are becoming more difficult to find to repair obsolete equipment. In addition, newer applications and increased multimedia usage are creating greater speed and bandwidth needs that the older equipment fails to meet. Currently 60% of the EEC sites are experiencing challenges due to lack of bandwidth. New network equipment and the installation of fiber to the site will offer better performance, greater reliability, and increased bandwidth to the classrooms. The new network equipment will also have increased management and security capabilities and features that reduce support costs and offer greater protections.

As part of the ongoing plan to upgrade the District's IT network infrastructure, the Board has approved three previous actions for school IT network infrastructure upgrade projects at K-12 sites contained in the FSD SEP (BOE #317-12/13 adopted on June 11, 2013, BOE #248-13/14 adopted on February 11, 2014, and BOE #392-13/14 adopted on May 13, 2014). With the action proposed, school IT network infrastructure, equipment and phone system upgrade projects, including the design, construction and installation of scalable fiber, will be authorized at 88 EECs. Additionally, staff are authorized, with the approval of this action, to file for any applicable E-Rate discounts.

**Expected Outcomes:** Approval of the proposed action and the subsequent investment in upgrades to aging IT network infrastructure and obsolete equipment and phone systems at 88 EECs, as listed in Attachment A.

**Board Options and Consequences:** The proposed action provides the funding necessary to move forward with school IT network infrastructure, equipment, and phone system upgrade projects including the design, construction, and installation of scalable fiber at 88 EECs, as listed in Attachment A.

If the Board does not approve the proposed action, the upgrade of network infrastructure and equipment at the 88 EECs listed in Attachment A will not be constructed, thereby preventing student's access to the latest instructional initiatives made available via the installation of wireless network technology.

## LOS ANGELES UNIFIED SCHOOL DISTRICT

### Board of Education Report

- Policy Implications:** This action is consistent with the District's long-term goal to address unmet school facilities needs as described in Proposition BB and Measures K, R, Y, and Q.
- Budget Impact:** This proposed action impacts Bond Program funds only. The total combined FSD-SEP budget for this project is \$11,949,255. Funding will be provided by Bond Program funds earmarked for Early Education Center facilities upgrades executed by FSD in the School Upgrade Program. Any E-Rate discounts received as part of this action will be returned to the EEC Program funds and not applied to fund these projects.
- Issues and Analysis:** In total, this proposed action allocates \$11,949,255 in Bond Program Funds to make school IT network information and equipment upgrades at 88 EECs. Upgrades will be undertaken at each of the sites listed in Attachment A.
- Bond Oversight Committee Recommendations:** This item was considered by the School Construction Bond Citizen's Oversight Committee (BOC) at its meeting on October 29, 2015. Staff has concluded that this proposed FSD-SEP Amendment will facilitate the implementation of the FSD-SEP, and therefore it will not adversely affect the District's ability to successfully complete the FSD-SEP.
- Attachments:** Attachment A – Define and Approve 88 School IT Network Infrastructure, Equipment and Phone System Upgrade Projects at Early Education Centers.
- ☐ **Informative** None.
- ☐ **Desegregation Impact Statement** N/A.
