### RESOLUTION 2016-07 BOARD REPORT NO. 296-15/16

### AMENDMENT TO THE INFORMATION TECHNOLOGY DIVISION STRATEGIC EXECUTION PLAN TO UPDATE COMMON CORE TECHNOLOGY PROJECT TO SUPPORT THE DISTRIBUTION OF DEVICES NOT ALLOCATED TO SCHOOLS

WHEREAS, District Staff proposes that the Board of Education approve an amendment to the Information Technology Division (ITD) Strategic Execution Plan (SEP) to update the Common Core Technology Project (CCTP), renamed the Instructional Technology Initiative (ITI), and approve the purchase of 79 carts, 3,273 device cases, and integration services necessary to prepare and distribute approximately 7,500 devices that are not currently in use to 126 school sites (collectively, the "Program") as described in Board Report 296-15/16 attached hereto; and

WHEREAS, The Common Core Technology Project (now referred to as the Instructional Technology Initiative) was established upon BOE approval of the following three actions:

- <u>Board Report #157-12/13</u> Project Definition and Funding Strategy for the Common Core Technology Project Plan and Request for Funding Approval
- <u>Board Report #129-13/14</u> Amendment to the Information Technology Division Strategic Execution Plan to Update the Common Core Technology Project
- <u>Board Report #128-14/15</u> Amendment to the Information Technology Division Strategic Execution Plan to Update the Common Core Technology Project; and

WHEREAS, these actions enabled district staff to provide a 1:1 computing environment at specified schools to support the transition to the Common Core State Standards (CCCS) and to provide an individualized, interactive, and information-rich learning environment. They also supported the procurement and distribution of computing devices to K-12 schools

### **RESOLUTION 2016-07 AMENDMENT TO THE INFORMATION TECHNOLOGY DIVISION STRATEGIC EXECUTION PLAN TO UPDATE COMMON CORE TECHNOLOGY PROJECT TO SUPPORT THE DISTRIBUTION OF DEVICES NOT ALLOCATED TO SCHOOLS PAGE 2**

district-wide to support the administration of Smarter Balanced Assessment Consortium (SBAC) tests; and

WHEREAS, approximately 11,000 devices that were purchased to support the elements of the Program described above are not currently assigned to schools and are available for distribution. These devices are primarily buffer pool devices and SBAC testing devices that are no longer in use by schools.

WHEREAS, District Staff has determined that the Program is necessary to improve educational quality including support of test administration and access to technology; and

WHEREAS, the Board of Education's approval of the Program will authorize District Staff to proceed with the expenditure of bond funds to undertake the distribution of devices as described as part of the Program in accordance with the provisions set forth in Measures K, R, Y and Q; and

WHEREAS, approving these distributions will enable staff to leverage existing resources to address the instructional technology priorities identified by school-site and District leadership; and

WHEREAS, District Staff has concluded that the proposed SEP amendment will facilitate implementation of the ITD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the ITD SEP.

NOW, THEREFORE, BE IT RESOLVED THAT:

- 1. The School Construction Citizens' Bond Oversight Committee recommends that the Board of Education adopt an amendment to the Information Technology Division (ITD) Strategic Execution Plan (SEP) to update the Common Core Technology Project (CCTP), renamed the Instructional Technology Initiative (ITI), with a budget of \$500,000 as defined in Board Report 296-15/16 a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference.
- 2. This resolution shall be transmitted to the Los Angeles Unified School District Board of Education and posted on the Oversight Committee's website.
- 3. The District is directed to track the above recommendation and to report on the adoption, rejection, or pending status of the recommendations as provided in section 6.2 of the Charter and Memorandum of Understanding between the Oversight Committee and the District.

# **BOARD REPORT**

Action Proposed:	Staff proposes that the Board of Education (BOE) amend the Information Technology Division Strategic Execution Plan (ITD-SEP) to update the Common Core Technology Project (CCTP), rename the project the Instructional Technology Initiative (ITI), and approve the purchase of 79 carts, 3,273 device cases, and integration services necessary to prepare and distribute approximately 7,500 devices that are not currently in use, to 126 school sites listed in Attachments A, B, and C.
	This work is scheduled to be complete in April 2016 and the estimated budget is \$500,000.
Background:	<ul> <li>The Common Core Technology Project (now referred to as the Instructional Technology Initiative) was established upon BOE approval of the following three actions:</li> <li><u>Board Report #157-12/13</u> – Project Definition and Funding Strategy for the Common Core Technology Project Plan and Request for Funding Approval</li> <li><u>Board Report #129-13/14</u> – Amendment to the Information Technology Division Strategic Execution Plan to Update the Common Core Technology Project</li> <li><u>Board Report #128-14/15</u> – Amendment to the Information Technology Division Strategic Execution Plan to Update the Common Core Technology Project</li> </ul>
	These actions enabled district staff to provide a 1:1 computing environment at specified schools to support the transition to the Common Core State Standards (CCCS) and to provide an individualized,

interactive, and information-rich learning environment. They also supported the procurement and distribution of computing devices to K-12 schools district-wide to support the administration of Smarter Balanced Assessment Consortium (SBAC) tests.

As part of the contract executed with Apple, Inc., for CCTP/ITI, a 'buffer pool' of devices was established in order to minimize the amount of time a student may be without a device. The use of a buffer pool has enabled the District to quickly replace damaged, stolen, or lost devices. Based on the number and age of devices remaining in the buffer pool, staff feels it is in the District's best interest to distribute a portion of these devices directly to schools for student use.

Approximately 11,000 devices that were purchased to support the elements of the project described above are not currently assigned to schools and are available for distribution. These devices are primarily buffer pool devices and SBAC testing devices that are no longer in use by schools.

Leadership from the Division of Instruction, Local Districts, the Information Technology Division, and the Office of the Superintendent collaborated to develop the following recommendations for distribution of these devices:

- Provide additional devices to middle schools as described in Attachment A to address challenges experienced when administering SBAC tests. This action would ensure that the number of testing carts each middle school has is equivalent to the number of English Language Arts (ELA) teachers in the grade level with the most ELA teachers at that school.
- Provide each primary center identified in Attachment B with one cart of devices to ensure students in those schools have access to technology. Since primary grade students (K-2) do not participate in SBAC testing, primary centers did not receive devices through the initiative. These students currently have limited or no access to technology.
- Provide computing devices to students attending Expanded Transitional Kindergarten (ETK) and Transitional Kindergarten (TK) programs at 1:1 schools established by the CCTP/ITI project (see Attachment C). These programs were established after the 1:1 program was implemented at these schools and the ETK and TK students do not have equal access to devices.

Approving these distributions will enable staff to leverage existing resources to address the instructional technology priorities identified by

Page 2 of 4

school-site and District leadership.

Expected Outcomes:	Staff anticipates that the Board of Education will approve this proposed action to enable the distribution of already procured devices to schools.						
Board Options and Consequences:	address the instructional district leadership by dis approve the proposed ac	Approval of this action will enable staff to leverage existing resources to address the instructional technology priorities identified by school-site and district leadership by distributing computing devices to schools. Failure to approve the proposed action will limit staff's ability to distribute available computing devices to schools in need.
