RESOLUTION 2017-19

BOARD REPORT NO. 530-16/17

**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC
EXECUTION PLAN TO DEFINE AND APPROVE THE 2017-2018 EDUCATION
CODE SECTION 47614 (PROPOSITION 39) FACILITIES RENOVATION
EFFORT**

WHEREAS, District Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve the 2017-2018 Education Code Section 47614 Proposition 39 facilities renovations at up to 96 school sites as listed on Attachments A and B, and authorize the Chief Facilities Executive, and/or his designee, to make any purchases associated with these projects; and

WHEREAS, the total combined not-to-exceed budget for the 2017-2018 Education Code Section 47614 (Proposition 39) facilities renovations effort is \$19,262,800; and

WHEREAS, District Staff has concluded that each of the charter schools identified in attached Board Report 530-16/17 submitted a legally sufficient facilities request to the District and may locate on District school sites for the 2017-2018 school year pursuant to Proposition 39; and

WHEREAS, Bond Program funds earmarked for charter school facilities projects will be available to immediately execute renovations at multiple District school sites in order to satisfy the District's responsibilities under Education Code 47614 and related regulations; and

WHEREAS, the facilities improvements will increase the likelihood that the District school and charter school will successfully co-locate on a single school site with minimal interference and disruption to their respective educational programs; and

Resolution 2017-19

**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC
EXECUTION PLAN TO DEFINE AND APPROVE THE 2017-2018 EDUCATION
CODE SECTION 47614 (PROPOSITION 39) FACILITIES RENOVATION EFFORT
PAGE 2**

WHEREAS, projects included in the FSD SEP presented to the Board of Education were developed by FSD in consultation with the Complex Project Managers, Regional Facilities Directors, Administrator of Operations, the affected School Principals, and the communities; and

WHEREAS, the 2017-2018 Proposition 39 Facilities Renovation Effort includes various facilities renovations and reconfigurations, and technology, furniture and equipment, and communications/safety systems purchases and upgrades; and

WHEREAS, funding for the 96 2017-2018 Education Code Section 47614 (Proposition 39) facilities renovations will come from Bond Program funds earmarked for charter school facilities projects; and

WHEREAS, District Staff has concluded that the proposed SEP amendment will facilitate implementation of the FSD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD SEP.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The School Construction Bond Citizens' Oversight Committee recommends that the Board of Education adopt an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve the 2017-2018 Education Code Section 47614 (Proposition 39) Facilities Renovation Effort, with a total combined not-to-exceed budget of \$19,262,800, as described in Board Report 530-16/17, a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference.
2. This resolution shall be transmitted to the Los Angeles Unified School District Board of Education and posted on the Oversight Committee's website.
3. The District is directed to track the above recommendation and to report on the adoption, rejection, or pending status of the recommendations as provided in section 6.2 of the Charter and Memorandum of Understanding between the Oversight Committee and the District.

Amendment to the Facilities Services Division Strategic Execution Plan to Define and Approve the 2017-2018 Education Code Section 47614 (Proposition 39) Facilities Renovation Effort May 9, 2017

Facilities Services Division and Division of Instruction

Action Proposed:

Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve 2017-2018 Education Code Section 47614 Proposition 39 facilities renovations at up to 96 school sites as listed on Attachments A and B, and authorize the Chief Facilities Executive, and/or his designee, to make any associated purchases. The not-to-exceed cumulative budget for this renovation effort is \$19,262,800.

Background:

With the passage of Proposition 39 in November 2000, California Education Code Section 47614 was amended with the intent that public school facilities should be shared fairly among all public school students, including those in charter schools. Proposition 39 requires that school districts make available, to all charter schools operating in their school district that submitted a legally sufficient facilities request, facilities in conditions reasonably equivalent to those in which the charter students would be accommodated if they were attending other public schools of the district. Facilities provided shall be contiguous, furnished and equipped, and shall remain the property of the school district.

Each of the charter schools identified on Attachments A and B submitted a legally sufficient facilities request to the District and may locate to District school sites for the 2017-2018 school year pursuant to Proposition 39. In accordance with the requirements and timelines of Proposition 39, preliminary proposals are issued on February 1st and final offers are issued on April 1st each year.

With approval of this proposed action, Bond Program funds earmarked for charter school facilities projects will be made available to immediately execute renovations at multiple District school sites in order to fulfill the District's responsibilities imposed by Proposition 39. These facilities improvements will increase the likelihood that the District school and charter school will successfully and safely co-locate on a single school site with minimal interference and disruption to their respective educational programs. The scope of work to be undertaken at each school site and its associated schedule and budget may vary depending on site conditions and needs.

The 2017-2018 Proposition 39 Facilities Renovation Effort includes various facilities renovations, reconfigurations, technology, furniture and equipment, and communication/safety systems purchases and upgrades, such as:

- Low Voltage Systems: Local area data networks, phone and public address systems, and independent intrusion alarm. Modifications to reconfigure facilities for District-operated programs or another charter school where an existing charter school occupant will relocate to another District school site or private/third party site, or cease operations.

- Site Renovations and Reconfigurations: Miscellaneous renovations and reconfigurations to classroom space identified for charter school use. Improvements to school facilities where charter schools currently occupy space but will not continue occupancy in the 2017-2018 school year will be returned to its original condition, including reconnecting low-voltage systems for District-operated programs.
- Technology Equipment: Repurpose and purchase computers, laptop carts and/or end user peripherals.
- Furniture & Equipment: Repurpose existing furniture and equipment, and plan, purchase and deliver new furniture and equipment (e.g. desks, chairs, book shelves, waste bins, emergency radio systems and hand-held devices, but excluding technology equipment).
- Re-Keying: Charter school spaces only.
- Office of Environmental Health and Safety: California Environmental Quality Act (CEQA) analysis, including traffic studies and associated regulatory obligations.

The space allocated to each charter school by the District must be furnished, equipped and available for occupancy by the charter school for a period of at least 10 working days prior to the first day of instruction of the charter school. For good cause, this period is subject to reduction by the District, but to no fewer than seven working days. As such, work will commence immediately after Board approval to ensure adequate facilities are allocated in a timely manner to each charter school.

Attachment B lists all existing co-location sites on which charter schools will continue to occupy the same space in 2017-2018 as they currently occupy in the 2016-2017 school year (i.e. “No Growth”). Although there is typically no new scope required for these sites, the District may need to perform some renovation work in order to continue to ensure the conditions of the facilities occupied by a charter school remain reasonably equivalent. The potential scope of work for each “No Growth” site may vary depending on site conditions and needs. If any additional work is required, District staff will follow the Budget Modification Request process for the corresponding site referenced in Attachment B, in accordance with District policy.

Expected Outcomes:

Approval of the proposed action will allow the execution of the 2017-2018 Proposition 39 facilities renovations at up to 96 District school sites.

Of the 69 school sites listed on Attachment A, renovations at four are specific to school facilities where charter schools currently occupy space but will not continue occupancy in the 2017-2018 school year. (Note, Attachment A includes two sites which are also listed on Attachment B). Sites vacated will be returned to previous conditions with all low-voltage systems reconnected to District-operated programs. Renovations at the remaining District school sites in Attachment A are for charter schools that are expected to serve a collective total in-district charter school enrollment of approximately 19,000 students in 806 classrooms and special education spaces, and 74 administrative offices.

Of the 29 District school sites in Attachment B, charter schools are expected to continue serving a collective total in-district charter school average daily attendance of approximately 9,743 in 354 classrooms and special education spaces, and 30 administrative offices.

Collectively, charter schools are expected to enroll 28,743 students in 1,160 classrooms and special education spaces, and 104 administrative offices.

Board Options and Consequences:

A “yes” vote will result in the FSD-SEP being amended and the District utilizing Bond Program funds earmarked for charter school facilities projects to complete facilities renovations at District school sites as identified in Attachments A and B for use by charter schools in the 2017-2018 school year.

A “no” vote will result in the District being obligated to use General Funds to complete the facilities renovation projects identified in Attachments A and B due to the obligation to allocate the use of reasonably equivalent, contiguous, furnished and equipped facilities to the charter schools pursuant to Proposition 39 for the 2017-2018 school year.

Policy Implications:

This action does not change District policies.

Budget Impact:

The not-to-exceed cumulative budget for this renovation effort is \$19,262,800. The renovation effort is funded by Bond Program funds earmarked for charter school facilities projects. Should a charter school not accept the District’s offer of space, the school site may be allocated to another charter school, or renovations at that individual school site will not be undertaken and the associated funding will not be expended.

Issues and Analysis:

Proposition 39 requires school districts to make available, to all charter schools operating in their school district that submit a legally sufficient facilities request, facilities in conditions reasonably equivalent to those in which the charter students would be accommodated if they were attending other public schools in the district. Facilities provided shall be contiguous, furnished, equipped and available for occupancy by the charter school for a period of at least 10 working days prior to the first day of instruction of the charter school.

To fulfill this mandate, the District faces numerous challenges, including:

- Extremely brief amount of time between a charter school’s May 1st acceptance of the District’s final offer and the deadline for the District to provide occupancy at least 10 working days before each charter school’s first day of instruction.
- Very narrow window of time to assess the type, amount and condition of the District’s existing technology, furniture and equipment, match it to the charter schools’ grade levels and plan, repurpose/purchase, receive and deliver additional/supplemental technology, furniture and equipment.
- Varying conditions of allocated spaces on different school sites, including amount and type of furniture and equipment that may change between original site survey and actual occupancy.
- Limited sources of reasonably equivalent existing furniture and equipment, and lead time required to research, locate, validate, repair and repurpose it.

The District has implemented numerous successful strategies to reduce project costs and timelines, including:

- Establishing procedures to streamline the process from pre-planning to post-occupancy.
- Re-purposing existing furniture and equipment recovered from charters that vacated District facilities or have expiring furniture and equipment leases.
- Creating templates for reasonably equivalent furniture and equipment for specific grade levels in order to improve planning, repurposing/purchasing and delivery.
- Standardizing manufactured item selections to speed purchase, production and delivery.

Bond Oversight Committee Recommendations:

This item was considered by the School Construction Bond Citizens' Oversight Committee (BOC) at its meeting of April 27, 2017. Staff has concluded that this proposed FSD SEP amendment will facilitate implementation of the FSD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD SEP.
