## Board of Education Report

**File #:** Rep-190-24/25, **Version:** 1

**Agenda Date:** 2/11/2025

**In Control:** Facilities

### **Define and Approve Three Projects to Provide Critical Replacements and Upgrades of School Building/Site Systems and Components and Amend the Facilities Services Division Strategic Execution Plan (SEP) to Incorporate Therein**

Facilities Services Division

#### **Brief Description:**

(Define and Approve Three Projects to Provide Critical Replacements and Upgrades of School Building/Site Systems and Components and Amend the Facilities Services Division Strategic Execution Plan (SEP) to Incorporate Therein) Recommends definition and approval of three projects essential for replacing and upgrading critical systems and components of school buildings, as detailed in Exhibit A and the amendment of the Facilities Services Division Strategic Execution Plan to incorporate therein, for a combined budget of \$14,974,504.

#### **Action Proposed:**

Define and approve three projects to provide critical replacements and upgrades of school building/site systems and components, as listed on Exhibit A, and amend the Facilities Services Division (Facilities) Strategic Execution Plan (SEP) to incorporate therein. The total combined budget for these proposed projects is \$14,974,504.

Authorize the Chief Procurement Officer and/or the Chief Facilities Executive and/or their designee(s) to execute all instruments necessary, as legally permissible, to implement the proposed projects, including budget modifications and the purchase of equipment and materials.

#### **Background:**

Priorities for the expenditure of capital funding are evaluated to ensure the District's most pressing priorities are being addressed. More than 60 percent of Los Angeles Unified School District (Los Angeles Unified or District) school buildings were built more than 50 years ago, with more than \$80 billion of unfunded school facilities needs identified Districtwide, and these needs grow every year. As the District's capital needs far exceed available funding, the most pressing unfunded critical needs will continue to be addressed based on an evaluation of known facilities conditions and needs at schools. Projects developed under this category of need, Critical Replacements and Upgrades of School Building/Site Systems and Components, will replace failing building systems that create safety concerns and are disruptive to school operations. Systems in the worst condition, especially those that pose a safety hazard and/or will negatively impact school operations and other building systems if not addressed, will be addressed first.

The project proposals contained in this Board Report align with these priorities. Exhibit A includes three projects to provide roofing replacements at Franklin High School, Fremont High School, and Los Angeles Academy Middle School.

**Bond Oversight Committee Recommendations:**

This item was considered by the School Construction Bond Citizens' Oversight Committee (BOC) at its meeting on January 30, 2025, as referenced in Exhibit B. The presentation that was provided is included as Exhibit C. Staff has concluded that this proposed Facilities SEP amendment is in alignment with BOC recommendations and will facilitate Los Angeles Unified's ability to successfully implement the Facilities SEP.

**Expected Outcomes:**

Staff anticipates that the Board of Education will adopt the proposed amendment to the Facilities SEP to define and approve three projects that address critical replacement and upgrade needs. Approval will authorize staff to proceed with the implementation of the proposed projects to improve student health, safety, and educational quality.

**Board Options and Consequences:**

Adoption of the proposed action will authorize staff to proceed with the expenditure of Bond Program funds to undertake the proposed projects in accordance with the provisions set forth in Los Angeles Unified local bond measures K, R, Y, Q, RR, and US. If the proposed action is not approved, Bond Program funds will not be expended, and critical replacement and upgrade needs will remain unaddressed.

**Policy Implications:**

The proposal is consistent with Los Angeles Unified's long-term goal to address unmet school facilities needs and significantly improve the conditions of aging and deteriorating school facilities as described in Los Angeles Unified local bond measures. The proposed action advances Los Angeles Unified's 2022-2026 Strategic Plan, Pillar 4 Operational Effectiveness, Modernizing Infrastructure by providing critical replacements and upgrades at schools.

**Budget Impact:**

The total combined budget for the three proposed projects is \$14,974,504 and will be funded with Bond Program funds earmarked specifically for critical replacements and upgrades of school building/site systems and components.

Each project budget was prepared based on the current information known and assumptions about the proposed project scopes, site conditions, and market conditions. Individual project budgets will be reviewed as new information becomes known or unforeseen conditions arise and will be adjusted accordingly to enable the successful completion of each project.

**Student Impact:**

Approval of the proposed projects enables the District to continue ongoing efforts to undertake facilities improvements that help ensure the approximately 4,140 current and future students attending these three schools are provided with a safe school environment that promotes teaching and learning.

**Equity Impact:**

Building components/systems in the worst condition, especially those that pose a safety hazard and/or negatively impact school operations and other building systems if not addressed, will be addressed first.

**Issues and Analysis:**

It may be necessary to undertake feasibility studies, site analysis, scoping, and/or due diligence activities on the proposed projects. As necessary, the Office of Environmental Health and Safety (OEHS) will evaluate the proposed projects in accordance with the California Environmental Quality Act (CEQA) to ensure compliance. If, through the planning process, it is determined the proposed project scopes will not sufficiently address the critical needs identified, the project scope, schedule, and budget will be revised accordingly.
