

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24

AUGUST 2023

MAJOR CHANGES

- For fiscal year 2023-24, class sizes for Priority Schools will be reduced by 1 student in accordance with UTLA Agreement Article XVIII Section 2.3a.
- The state has enacted new class size and staffing rules for the youngest UTK students. Staffing guidelines are posted under the section “Universal Transitional Kindergarten.”
- For fiscal year 2023-24, Transitional Expansion Kindergarten (TE) students will be included in schools’ Norm teacher and aide calculations.
- To satisfy the state requirement and maximize the utilization of resources allocated for TE students, when TE enrollment is insufficient to create a class size of 20 students, the District norm allocation combines TE and TK up to grade 3 students to reach the 20:1 capacity. Please refer to the new section “Universal Transitional Kindergarten” for details of the calculation.

GUIDELINES

TEACHERS

The teacher staffing ratios for the 2023-24 school year will be as follows:

- 1) Grades TK-3 for Priority Schools – Class-size will be reduced by 1 student. See Appendix 4, Attachment A for the list of Priority Schools.
 - 2) Grades TK-3 for all other schools excluding Priority Schools – Teacher staffing ratios will be the same as those in place for the 2022-23 school year.
 - 3) Grade TE will now be incorporated into the norming. Please refer to the section on Universal Transitional Kindergarten and Appendix 1 for teacher calculation.
 - 4) Grades 4-5(6) for Priority Schools – Class-size will be reduced by 1 student. See Appendix 4, Attachment A for the list of Priority Schools.
 - 5) Grades 4-5(6) for all other schools excluding Priority Schools– Teacher staffing ratios will be the same as those in place for the 2022-23 school year.
- For Local Control Funding Formula (LCFF) reporting purposes, enumerated below is the determination of the funding or program code to be used for the norm teacher resources generated by the following norm tables:

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

Appendix 2 – Various norm tables for the 2023-24 Class Size for all Schools

Appendix 3 – Various norm tables for the 2017-18 Class Size for all Schools (Base)

- The norm teacher resources generated from the 2017-18 class size for grades 4-5(6) in Appendix 3 (Attachments A to D) will be allocated in program code 11020 (K-12 Norm Teachers) or program code 11119 (Dual/Foreign Language/Bilingual).
- The difference between the norm teacher resources generated using the staffing ratios in Appendix 2 (Attachments A to D) and the norm teacher resources generated from the 2017-18 class size for grades 4-5(6) in Appendix 3 (Attachments A to D) will be allocated in program code 10989 (TSP-CSR Teacher/Librarian).
- Dual Language Program (Dual Language Two-Way Immersion, Dual Language One-Way Immersion, and World Language Immersion Programs):

Grades TK-3 for Priority Schools and all other schools excluding Priority will receive the norm teacher resources based on a 23:1 student teacher ratio and 24:1 student teacher ratio respectively in each program language. Grades 4-5/6 will also be normed separately and will receive the norm teacher resources based on the applicable norm table for Grades 4- 5(6).

In addition, a new cost center will be established for each newly approved elementary program language in 2023-24 school year (e.g., Spanish, Korean, Mandarin, Arabic, Armenian, French, etc.) to facilitate the collection and validation of enrollment counts.

Norm teacher resources for Dual Language Program using the 2017-18 staffing ratios in Appendix 2 will be allocated in program code 11119 (Dual/Foreign Language/Bilingual) the CSR teachers generated using norm tables in Appendix 2 will be allocated in program 10989.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

- Norm Enrollment Adjustments - The following adjustments will be applied to Norm Day Enrollment for the 2023-24 school year:
 - Age ineligible students – grade placement that does not adhere to the age eligibility rules for TE and TK. Schools should use the Chronological Age Calculator at <https://agecalculator.lausd.net/> to determine the correct grade placement of age-eligible students. Please refer to the table below for the 2023-24 Minimum Age Requirement for Enrollment in TE, TK, and K:

**2023-24 MINIMUM AGE REQUIREMENT
FOR ENROLLMENT IN TE, TK, AND K**

Grade Level	5 Years Old as of	Date of Birth
K	09/01/23	On or before 09/01/18
TK *	09/02/23 – 04/02/24	09/02/18 – 04/02/19, inclusive
TE **	04/03/24 – 09/01/24	04/03/19 – 09/01/19, inclusive

*Kindergarten-aged students may be placed in TK at the request of Parent and concurrence of School Administrator. Must have the completed Kindergarten Continuance form in school file.

**For UTK/CC classes, students who are TE-aged must be assigned to grade level TE, not PK.

- Students with 13 absence days or more, from enrollment date through Norm Day
 - Students with more than one enrollment record
 - No Show students (students who are scheduled into classes but have not attended school, i.e., marked absent each day) who were not flagged by the school in MiSiS as No Show by Norm Day data capture will be manually deducted from the school's Norm Day enrollment count.
- Only enrolled students with scheduled classes in MiSiS will be counted. In other words, students must be both enrolled and scheduled for norm purposes. Schools should ensure that every enrolled student's class schedule is entered into MiSiS. Otherwise, enrolled students without scheduled classes will be excluded from Norm Day Enrollment count.
 - In addition to ensuring that students are both enrolled and scheduled in MiSiS, schools must also ensure that students are enrolled in the Appropriate cost center (i.e., home school versus magnet center or dual language center). Students approved to be enrolled at the magnet center

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

must be enrolled at the magnet center's cost center unless documentation exists to rescind magnet placement. School staff must correct all enrollment errors, including incorrect cost center and class(es), before enrollment counts are captured for Norm day, September 15, 2023.

- Special Day Program (SDP) students at Elementary Schools: Students enrolled in the class/section of a Special education teacher are categorized in the Classification Report as SDP. The total SDP counts are excluded in the calculation of General Education Norm teachers.
- Special education teachers are assigned to elementary schools based on the number of students with special needs and their specific disabilities. Refer to Attachment E for the Special Education norm table guide. The class sizes in the norm table guide are based on the Los Angeles Unified School District and United Teachers Los Angeles Collective Bargaining Agreement.
- Pursuant to Education Code section 42238.02, as a condition of receiving a grade span adjustment for kindergarten through grade three (TK–3 GSA), a component of Local Control Funding Formula (LCFF), school districts must make progress towards or maintain a TK–3 maximum average class size of 24 or less at each school site. If the annual independent audit of a school district shows that a school district did not comply with these conditions, the California Department of Education (CDE) will retroactively reduce the school district's funding.
- The Education Code imposes financial penalties on school districts that exceed specified class sizes. To safeguard against financial penalties, the number of pupils assigned to individual classes may not exceed 33 in kindergarten at any time, 32 in grades 1-3 at any time, and 36 in grades 4-6.

Note: These limits also apply to “combination” classes. For purposes of the Class Size Penalties report to the California Department of Education, any class combining pupils in kindergarten or in any grade(s) 4 through 8 with one or more of Grades 1, 2, or 3 shall be considered a class of grades 1, 2, or 3. For example, if five (5) grade 3 pupils are added to a grade 4 class of 28, the class would be considered a grade 3 class of 33. In this example, a fiscal penalty would be assessed on the District because the class exceeded the class size requirement of 32 for grade 3.

- The “Position Simulator (Norm Allocation)” tool is available on the School Fiscal Services website (<https://www.lausd.org/Page/794>). The purpose of this tool is to provide schools with transparency as to how Norm Teacher counts are calculated based on their enrollment, Norm Category, and Affiliated Charter status. In addition to the Norm Teacher count, this tool will also calculate the number of Counselor, Administrator, and Clerical norm positions. Schools can also use the tool to assist with the norm calculation during budget planning and development. The

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

tool has been updated to help calculate your Transitional Kindergarten Teacher and Aide allocation.

- After Norm Day, school resources are recalculated based on validated Norm Day enrollment, and schools may experience no change, an increase, or a decrease in resources. For teachers, new positions will be established based on enrollment growth, or existing positions will be closed based on enrollment decline.

The following are the Class Size and Norm Table information for different norm categories for Grades K-5/6. Average Class Size without K-3 Grade Span Adjustment Funding.

School Norm Category (Priority Schools)	K	1-3	4-5(6)
District Norms for Regular Schools	28.5	31.0	34.5
Schools Designated as Predominantly Hispanic, Black, Asian & Other Non-Anglo (PHBAO)	28.5	28.5	26.0
Schools Designated as Non-PHBAO Schools, PWT, CVP, CAP Receivers Satellite Zone)	28.5	31.0	31.5

School Norm Category (All Other Schools)	K	1-3	4-5(6)
District Norms for Regular Schools	29.5	32.0	35.5
Schools Designated as Predominantly Hispanic, Black, Asian & Other Non-Anglo (PHBAO)	29.5	29.5	27.0
Schools Designated as Non-PHBAO Schools, PWT, CVP, CAP Receivers Satellite Zone)	29.5	32.0	32.5

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24

AUGUST 2023

UNIVERSAL TRANSITIONAL KINDERGARTEN (new section)

The state of California has introduced new class size maximums and adult-to-student ratios for specific Universal Transitional Kindergarten (UTK) students. These requirements go into effect in the 2023-24 school year and will expire at the end of the 2024-25 school year. This section explains the new state laws and shows how norms are calculated to help ensure that the ratios and class size requirements are met.

UTK includes students who:

- Are turning 4 between June and September 2023. Effective July 1, 2023, these students are identified by the state as “early enrollment” students.
- Already turned 4 between September 2022 and May 2023

For enrollment tracking and norming purposes, the District will identify “early enrollment” students using the “TE” indicator in MiSiS, and all other UTK students as “TK” students. In 2023-24 only, “TE” students will also include those turning 4 between April and June of 2023.

Below are the new state rules on early enrollment students for UTK.

- Any classroom that includes TE students shall maintain an adult-to-pupil ratio of at least one adult to every 10 pupils.
- Any classroom that includes TE students shall not exceed 20 pupils.
- UTK classes without any TE students shall maintain an adult-to-pupil ratio of one adult for every 12 students, and a class size that may not exceed 24.
- The law goes into effect in 2023-24 and expires at the end of 2024-25.
- These ratios and requirements do not apply to Special Day classes.

The below steps demonstrate how to calculate your school site’s respective teacher and aide calculation with respect to TE students.

Teacher Calculation for TE students

To satisfy the state requirement and maximize the utilization of resources allocated for TE students, the District norm allocation combines TE and TK up to grade 3 students to reach the 20:1 capacity when TE enrollment is insufficient to create a class size of 20 students.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

The grade group norm is determined as follows:

1. Round up the TE count to the next denomination of 20. This will be the TE/TK norm group.
2. Add TE to Grade 3 and subtract by the count in (1). This will be the TK-3 norm group.
3. Once the respective norm groups are identified, use table 1TE to determine the TE teacher allocation and the respective table in Appendix 2 to determine your TK-3 teacher allocation.

The following examples illustrate how students will be grouped for norming.

SCHOOL A

Students by Grade							Grade Group Norm		
TE	TK	K	1	2	3	Total	TE/TK	TK-3	Total
11	20	20	17	24	16	108	20	88	108

1. Round up the 11 TE students to the next denomination of 20, which is 20. Use table 1TE to determine your respective teacher allocation for the TE norm group.
2. TE to G3 is 108. Subtract 20 from 108, which is 88. Use the appropriate table from Appendix 2 to determine your respective teacher allocation for the TK-3 norm group.

Since there are less than 20 TE students, 9 TK students are added to 11 TE students to make a class of 20. The remaining 11 TK students are included in the TK-3 norm.

SCHOOL B

Students by Grade							Grade Group Norm		
TE	TK	K	1	2	3	Total	TE/TK	TK-3	Total
25	17	76	78	66	81	343	40	303	343

1. Round up the 25 TE students to the next denomination of 20, which is 40.
2. TE to G3 is 343. Subtract 40 from 343 which is 303.

20 TE students will form one class. 5 TE students and 15 TK students will form another class. The remaining 2 TK students are included in the TK-3 norm.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24

AUGUST 2023

SCHOOL C

Students by Grade							Grade Group Norm		
TE	TK	K	1	2	3	Total	TE/TK	TK-3	Total
20	28	33	36	51	52	220	20	200	220

1. Round up the 20 TE students to the next denomination of 20, which is 20.
2. TE to G3 is 220. Subtract 220 from 20 which is 200.

Since there are exactly 20 TE students, no TK students are added to the class. All TK students are part of the TK-3 norm group.

Aide Calculation for TK students

TK Aides are calculated in a similar fashion.

SCHOOL A

Students by Grade			Aide Group Norm		
TE	TK	Total	TE/TK	TK Remaining	Total
11	20	31	20	11	31

In School A, there 11 TE students and 20 TK students.

1. Round up the 11 TE students to the next denomination of 20, which is 20. Under table 1TEA, they would receive one TK Aide for this group.
2. TE to TK is 31. Subtract 20 from 31, which is 11. Under table 1TKA, they would receive one TK aide for this group as well.
3. The school receives one TK aide for its TE/TK class, and another TK aide for the remaining 11 TK students that will be combined with K to form a class of 24:1.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

SCHOOL B

Students by Grade			Aide Group Norm		
TE	TK	Total	TE/TK	TK Remaining	Total
25	17	42	40	2	42

In School B, there are 25 TE students and 17 TK students.

1. Round up the 25 TE students to the next denomination of 20, which is 40. Under table 1TEA, they would receive 2 aides for this group.
2. TE to TK is 42 total. Subtract 40 from 42, which is 2. Under table 1TKA, they would receive 1 aide for this group.
3. This school receives two TK aides for its TE classes, and another aide for its remaining 2 TK students that will be combined with K to form a class of 24:1. In total, this school receives three aides.

SCHOOL C

Students by Grade			Aide Group Norm		
TE	TK	Total	TE/TK	TK Remaining	Total
20	28	48	20	28	48

In School C, there are 20 TE students and 28 TK students.

1. Since there are 20 TE students, this automatically generates one aide according to table 1TEA.
2. Since there 28 TK students, this generates two aides under table 1TKA.
3. The school receives 3 aides total.

Please use the staffing simulator on the School Fiscal Services webpage to calculate your respective school site's allocation.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24

AUGUST 2023

TK-3 Grade Span Adjustment¹

Norm Tables

- a. Schools identified as PHBAO- use Appendix 2 Attachment A, Table 1P1 for Priority Schools and Appendix 2 Attachment A, Table 1P for all other schools; schools identified as Non-PHBAO, use Appendix 2 Attachment B, Table 1D. Tables for Priority Schools and all other schools are based on a maximum class size of 23:1 and 24:1 respectively.
- b. School identified as PHBAO Affiliated Charter Schools, use Appendix 2 Attachment C, Table 1PA, 1PAA and 1PAB. Table 1PA is the number of teachers needed for a student teacher ratio of 24:1. Table 1PAA (TIIG PHBAO) is the number of teachers needed for a student teacher ratio 29.5:1. Table 1PAB (District Norm) is the number of teachers needed for a student teacher ratio of 32:1.
 - TK-3 Class Size Reduction resources are used to fund the difference between the number of teachers generated from the TIIG PHBAO Norm (Table 1PAA) and the PHBAO K-3 Norm (Table 1PA).
 - TIIG class size reduction resources are used to fund the difference between the number of teachers generated from the District Norm (Table 1PAB) and the TIIG PHBAO Norm (Table 1PAA).
- c. School identified as Non-PHBAO Affiliated Charter Schools, use Appendix 2 Attachment D, Tables 1DA and Table 1DAB. Table 1DA is the number of teachers needed for a student teacher ratio of 24:1. Table 1DAB (District Norm) is the number of teachers needed for a student teacher ratio of 32:1. Please note that the District Norm and the TIIG class size for TK-3 for non-PHBAO schools is the same.
 - TK-3 Class Size Reduction resources are used to fund the difference between the number of teachers generated from the District Norm (Table 1DAB) and TK-3 Norm (Table 1DA).

The number of norm teachers for grades TK-3 at PHBAO Affiliated Charter Schools that began operations prior to fiscal year 2013-14 will be calculated as follows:

- I. Determine the number of teacher positions based on TK-3 enrollment from Table 1PA.
- II. Determine the number of teacher positions based on TK-3 enrollment from Table 1PAA.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

- III. Determine the number of teacher positions based on TK-3 enrollment from Table 1PAB.
- IV. Subtract the number of teacher positions in Step III from Step II to determine the TIIG funded class size reduction positions. Affiliated Charter schools that began operation before 2013-2014 will use the Charter School Categorical Block Grant to fund the number of positions calculated in this step.
- V. Subtract the number of teacher positions in Step II from Step I to determine the TK-3 CSR funded positions.

Grades 4-5(6)²

Norm Tables

- a) Schools identified as PHBAO-use Appendix 2 Attachment A, Table 2P1 for Priority Schools, and Appendix 2 Attachment A, Table 2P for all other schools; schools identified as Non-PHBAO use Appendix 2 Attachment B, Table 2D. Schools identified as PHBAO Affiliated Charter Schools use Appendix 2 Attachment C, Table 2PA; schools identified as Non-PHBAO Affiliated Charter Schools use Appendix 2 Attachment D, Table 2DA.
- b) These norms provide an average class size of 26 pupils for PHBAO Priority schools and 27 pupils for PHBAO Schools excluding Priority Schools, an average class size of 32.5 for Non-PHBAO schools, and an average class size of 35.5 (District norm) for Affiliated Charter Schools.
- c) Affiliated Charter schools that began operations prior to fiscal year 2013-14 will use the Charter School Categorical Block Grant to implement Grades 4-5(6) class size reduction (27:1 for affiliated charter schools identified as PHBAO or 32.5:1 for affiliated charter schools identified as non-PHBAO).

To calculate the number of positions for a student teacher ratio of 27:1 (PHBAO):

- I. Determine the number of teacher positions based on grades 4-5(6) enrollment from Attachment A, Table 2P.
- II. Determine the number of teacher positions based on grades 4-5(6) enrollment from, Attachment C, Table 2PA.
- III. Subtract the number of teacher positions in Step II from Step I to determine the TIIG funded class size reduction positions. Affiliated Charter schools that began operation before 2013-2014 will use the Charter School Categorical Block Grant to fund the number of positions calculated in this step.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

To calculate the number of positions for a student teacher ratio of 32.5:1 non-PHBAO):

- I. Determine the number of teacher positions based on grades 4-5(6) enrollment from Attachment B, Table 2D.
- II. Determine the number of teacher positions based on grades 4-5(6) enrollment from Attachment D, Table 2DA.
- III. Subtract the number of teacher positions in Step II from Step I to determine the TIIG funded class size reduction positions. Affiliated Charter schools that began operation before 2013-2014 will use the Charter School Categorical Block Grant to fund the number of positions calculated in this step.

^{1,2}Continuing for the 2023-24 fiscal year, funding for Targeted Instructional Improvement Block Grant (TIIG) resources for Affiliated Charter Schools that began operations prior to fiscal year 2013-14 is included in the Charter School Categorical Block Grant. Therefore, these Affiliated Charter Schools are not eligible for class size reduction funded by District TIIG resources (PHBAO or Non-PHBAO). Norm Charts displayed in Attachment C and D.

However, Affiliated Charter Schools that started operations in fiscal year 2013-14 and beyond do not receive Charter School Categorical Block Grant allocations. Instead, these schools are eligible for class size reduction funded by District TIIG resources (PHBAO or Non-PHBAO).

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

ADMINISTRATORS

- The administrator staffing will be the same as those in place for the 2022-23 school year.
- Administrative personnel are allocated based on total school-wide enrollment, including transitional kindergarten expansion, special day program classes (SDP), state preschool (SPS), pre-kindergarten special education, magnet center, and dual language center enrollment.
- The Assistant Principal positions will be allocated in program code 10332 (TSP-Norm AP & APSCS).
- After Norm Day, school resources are recalculated based on validated Norm Day enrollment, and schools may experience no change, an increase, or a decrease in resources. For administrators, growth positions are allocated but reductions are not implemented.

Elementary Schools Administrator Staffing

Enrollment From	Enrollment To	Principal	Assistant Principal
1	999	1.0	-
1,000	1,809	1.0	1.0
1,810	2,419	1.0	2.0
2,420	and above	1.0	3.0

- The allocation of norm administrative position(s) for span schools will be based on the total school-wide enrollment, including transitional kindergarten expansion, special day program classes (SDP), state preschool (SPS), pre-kindergarten special education, magnet center, and dual language center enrollment using the Middle/Senior High School Administrative Staffing table.

CLERICAL

- The clerical staffing will be the same as those in place for the 2022-23 school year.
- Each elementary school receives the number of clerical positions using the staffing tables displayed below, based total school-wide enrollment, including transitional kindergarten expansion program, special day program students (SDP), pre-kindergarten special day classes, magnet center, and dual language center enrollment. Additional clerical resources to support State Pre-School classes are allocated separately by the Early Childhood Education Division.

ELEMENTARY SCHOOLS STAFFING RATIOS FOR FY 2023-24 AUGUST 2023

- Starting in 2020-21 fiscal year, the Modified Consent Decree clerical position has been changed to “Special Education Clerical Support”. Sites do not have flexibility over this position.
- After Norm Day, school resources are recalculated based on validated Norm Day enrollment, and schools may experience no change, an increase, or a decrease in resources. For clerical support, growth positions are allocated but reductions are not implemented.

Elementary Clerical Staffing

Enrollment From	Enrollment To	School Admin. Asst.	Special Education Clerical Support	Additional Clerical Support	Total Clerical Staff
1	300	1.00	0.50	0.50	2.00
301	749	1.00	1.00	-	2.00
750	1,499	1.00	1.00	1.00	3.00
1,500	2,199	1.00	1.00	2.00	4.00
2,200	2,899	1.00	1.00	3.00	5.00
2,900	3,599	1.00	1.00	4.00	6.00
3,600	4,299	1.00	1.00	5.00	7.00
4,300	and above	1.00	1.00	6.00	8.00

- Starting FY 2021-22, the allocation of norm clerical position for span schools is based on the Middle and Senior High School Clerical Staffing tables using the total school-wide enrollment, excluding enrollment in state pre-school. K-8 Span Schools use the Middle School Clerical Staffing table. 6-12 and K-12 Span Schools use the Senior High School Clerical Staffing table.

Clerical Staffing pattern

- The typical staffing pattern at elementary school is as follows:
 - One (1) - School Administrative Assistant (Job ID 24102500)
 - All other clerical positions - Office Technician(s) (Job ID 24102828)

Los Angeles Unified School District

APPENDIX 2 - NORM TABLES FOR ELEMENTARY SCHOOLS

ATTACHMENT A– Norm Tables for PHBAO Elementary Schools

The 2023-24 norm tables provide one position for every 23 students in grades TK-3 classes for Priority Schools, and one position for every 24 students for other schools. For schools with TE students, allocation for TK-3 is based on the net of TK-3 enrollment after deducting the enrollment used for TE norm teacher calculation.

To prevent loss of Local Control Funding Formula TK through 3 Grade Span Adjustment funding, the school district must maintain a maximum average class size of 24 or less at each school site.

A class with 4th, 5th, or 6th grade students combined with any TK-3 students is considered a K-3 class. Therefore, maximum average class size is 24. Attendance & Enrollment Section captures school month end enrollments for compliance with TK-3 class size guidelines and will work with Regions in monitoring of class sizes.

The Education Code imposes financial penalties on school districts that exceed specified class sizes. To safeguard against financial penalties, the number of pupils assigned to individual classes may not exceed 33 in kindergarten and 32 in grades 1-3.

Note: These limits also apply to “combination” classes. For purposes of the Class Size Penalties report to the California Department of Education, any class combining pupils in kindergarten or in any grade(s) 4 through 8 with one or more of Grades 1, 2, or 3 shall be considered a class of grades 1, 2, or 3. For example, if five (5) grade 3 pupils are added to a grade 4 class of 28, the class would be considered a grade 3 class of 33. In this example, a fiscal penalty would be assessed on the District because the class exceeded the class size requirement of 32 for grade 3.

APPENDIX 2 - NORM TABLES FOR ELEMENTARY SCHOOLS

ATTACHMENT D – Teacher Norm Tables for Non-PHBAO Affiliated Charter Elementary Schools

The 2023-24 norm tables provide one position for every 24 students in grades TK-3 classes. For schools with TE students, allocation for TK-3 is based on the net of TK-3 enrollment after deducting the enrollment used for TE norm teacher calculation.

To prevent loss of Local Control Funding Formula TK through 3 Grade Span Adjustment funding, the school district must maintain a maximum average class size of 24 or less at each school site.

A class with 4th, 5th, or 6th grade students combined with any K-3 students is considered a TK-3 class. Therefore, maximum average class size is 24. Attendance & Enrollment Section captures school month end enrollments for compliance with TK-3 class size guidelines and will work with Regions in monitoring of class sizes.

The Education Code imposes financial penalties on school districts that exceed specified class sizes. To safeguard against financial penalties, the number of pupils assigned to individual classes may not exceed 33 in kindergarten and 32 in grades 1-3.

Note: These limits also apply to “combination” classes. For purposes of the Class Size Penalties report to the California Department of Education, any class combining pupils in kindergarten or in any grade(s) 4 through 8 with one or more of Grades 1, 2, or 3 shall be considered a class of grades 1, 2, or 3. For example, if five (5) grade 3 pupils are added to a grade 4 class of 28, the class would be considered a grade 3 class of 33. In this example, a fiscal penalty would be assessed on the District because the class exceeded the class size requirement of 32 for grade 3.

ATTACHMENT D – Teacher Norm Tables for Non-PHBAO Affiliated Charter Schools

TABLE 1DA: Transitional Kindergarten, Kindergarten, plus Grades 1,2 and 3 for Non-PHBAO Affiliated Charter Schools

This table provides an overall teacher ratio of 24:1 in TK-3 classes at Non-PHBAO Affiliated Charter elementary schools. For schools with TE students, allocation for TK-3 is based on the net of TK-3 enrollment after deducting the enrollment used for TE norm teacher calculation.
