INTRODUCTION

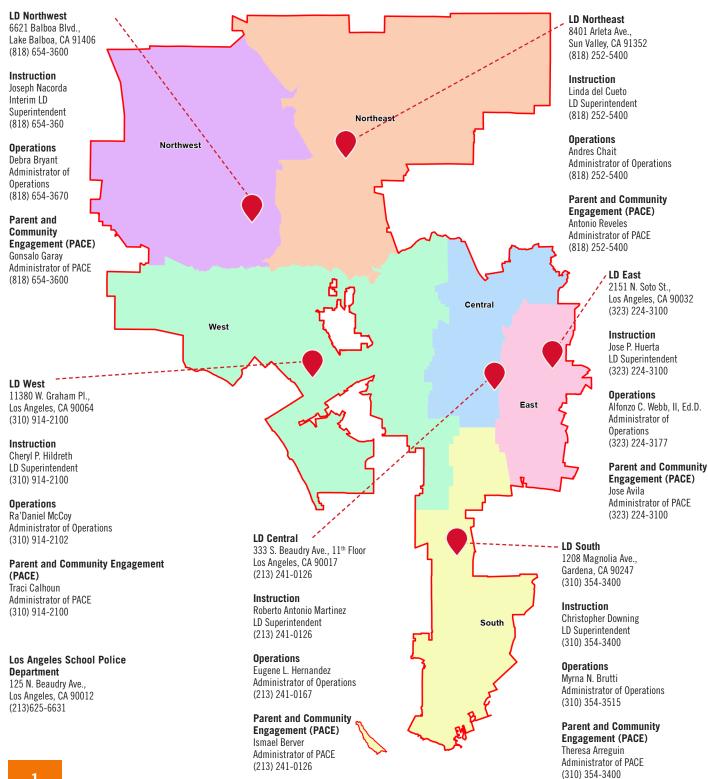

The toolkit is designed to provide information and resources for Students and Families enrolling and currently enrolled within the LAUSD. This information can also be used to support other student populations (such as foster care youth, homeless youth) in the District.

Disclaimer:

"District personnel cannot give legal advice concerning specific immigration matters. However, it is the District's opinion that licensed immigration attorneys are the most likely to provide reliable legal advice on immigration matters. For your protection, the District does not recommend seeking legal advice from non-attorney "notarios." The organizations listed in this toolkit work with communities and families in need of legal advice and other services. Also, a directory of free or low-cost nonprofit immigration legal services providers can be found at https://www.immigrationlawhelp.org. Please note that the advice provided by these organizations and lawyers on this website do not necessarily reflect the opinions of the District."

LOCAL DISTRICT OFFICES

If you have questions about your school and to identify your neighborhood school, please contact your Local District (LD) office. Each LD office provides direct support to all District schools in the areas of instruction, parent engagement, school-wide positive behavior support, attendance, school safety and many other areas.

Type of Service:

Restoring Family Links alleviates the suffering of family members separated by conflict, disasters, migration and other humanitarian crises worldwide. Free of charge, this service gives families a way to restore contact.

Additional Information:

Tracing: Provided to re-establish communication between family members separated internationally by war, migration or other humanitarian situations. The purpose can be to reconnect family members who had been in regular contact with each other before such an emergency situation separated them or to determine or document the fate of a loved one.

Health and Welfare: These inquiries are handled on an exceptional basis for vulnerable clients who have no other means to re-establish contact with their family overseas. These requests are accepted on humanitarian grounds for especially vulnerable individuals such as the elderly, ill, handicapped persons, or minor children. Oftentimes Health and Welfare inquiries involve an elderly person who has recently been hospitalized or transferred to a long-term care facility.

International Disaster Inquiries: After an international disaster Red Cross disaster family linking services may be available. Possible services could include acceptance of Disaster Inquiries, the use of a family linking website (either the ICRC* family links site or a specially developed site for the national society) or other services such as provision of satellite or cellular phones for those affected by the disaster to contact their relatives.

Certificates of Detention: The American Red Cross provides service to individuals of any nationality who request written verification issued by the ICRC of their captivity or detention as a prisoner of war or political detainee. When the ICRC visits detention centers it registers all of the detainees that it visits. The ICRC checks these registration lists in order to provide Certificates of Detention to former detainees.

Travel documents: The American Red Cross works with the ICRC to provide ICRC travel documents for people who are seeking permanent resettlement in a third country and have no valid passport or other document enabling them to cross international borders. The ICRC can issue travel documents to refugees and displaced or stateless persons who are unable to return to their country of origin or go to their country of choice because they lack the proper documents.
