NOT RECEIVING  
AB922  
SERVICES

## SERVICES

The mission of the Case Management Team is to reduce the risk of suicide and homicide among our most vulnerable students through culturally sensitive assessments, resource linkage, community partnerships, parent engagement, and continuity of care.

Students who engage in high risk behaviors with homicidal intent/ideation or who oscillate between homicidal and suicidal behaviors (fluidity) are prioritized.

The CMT MHP will review the disposition of the case with the student's school of attendance, School Mental Health, Regional Operations, and other relevant departments as needed, or bi-annually.

## REFERRAL PROCESS

### INITIAL CONSULTATION

An electronic referral link will be emailed to the referent for an initial consultation with a Mental Health Practitioner (MHP).

### CONTACT THE REFERENT

After the referral is received a CMT MHP will contact the person who referred to discuss and triage the case.

### REFERRALS/CASE REVIEW

If student does not meet criteria for CMT, referral & consultation are provided to support with student success.  
If student meets criteria, a case review is conducted and goals are established.
