Subject: Annual Immunization Assessment Reporting for 2019-2020

<u>California Health and Safety Code Section 120375 and California Code of Regulations Section 6075</u> require all child care facilities and schools (including home schools) to review students' immunization records and report annually on their immunization status of students.

Before reporting, please review the guidance at <a href="www.ShotsforSchool.org/reporting">www.ShotsforSchool.org/reporting</a>. Check that each student has in the cumulative file a complete and accurate:

- California School Immunization Record (CSIR or "Blue Card"), or
- Electronic record of required vaccinations (or stored in a computerized system).

If your school is closed or does not have students for the applicable ages or grades, please sign-in to report the school's closure or lack of students.

#### SB 277 - Cessation of New Personal Belief Exemptions since 2016

Under Senate Bill 277, since January 1, 2016, personal belief exemptions from the vaccines that are required for entry into child care facilities or school are no longer permitted.

In addition, immunization requirements do not apply to students who attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents or guardians must continue to provide immunization records for these students to their schools and homeschools who received this communication must continue to report.

Reporting will continue to monitor all students who are missing vaccines for any reason, including reasons allowed by Senate Bill 277.

Students who have an individualized education program (IEP) should continue to receive all necessary services identified in their IEP regardless of their vaccination status.

Thank you for your continued efforts to protect California's schoolchildren from lifethreatening diseases.
