

Program Elements

Documentary Video

“HOPE FOR AMERICAN EDUCATION”

Link: <https://www.youtube.com/watch?v=UBnpgghom3Ns&t=70s>

This documentary video provides an overview of the program's elements and shows several examples of the program being implemented with a wide range of LAUSD K–12 students. The video shows how the Find A Tree program has successfully addressed the over-arching goals of career and college readiness, improving graduation rates, attendance, and proficiency as well as social-emotional wellness and safety. This video also provides evidence of effectively working with the instructional leadership of a school to implement plan-aligned strategies and student support services.

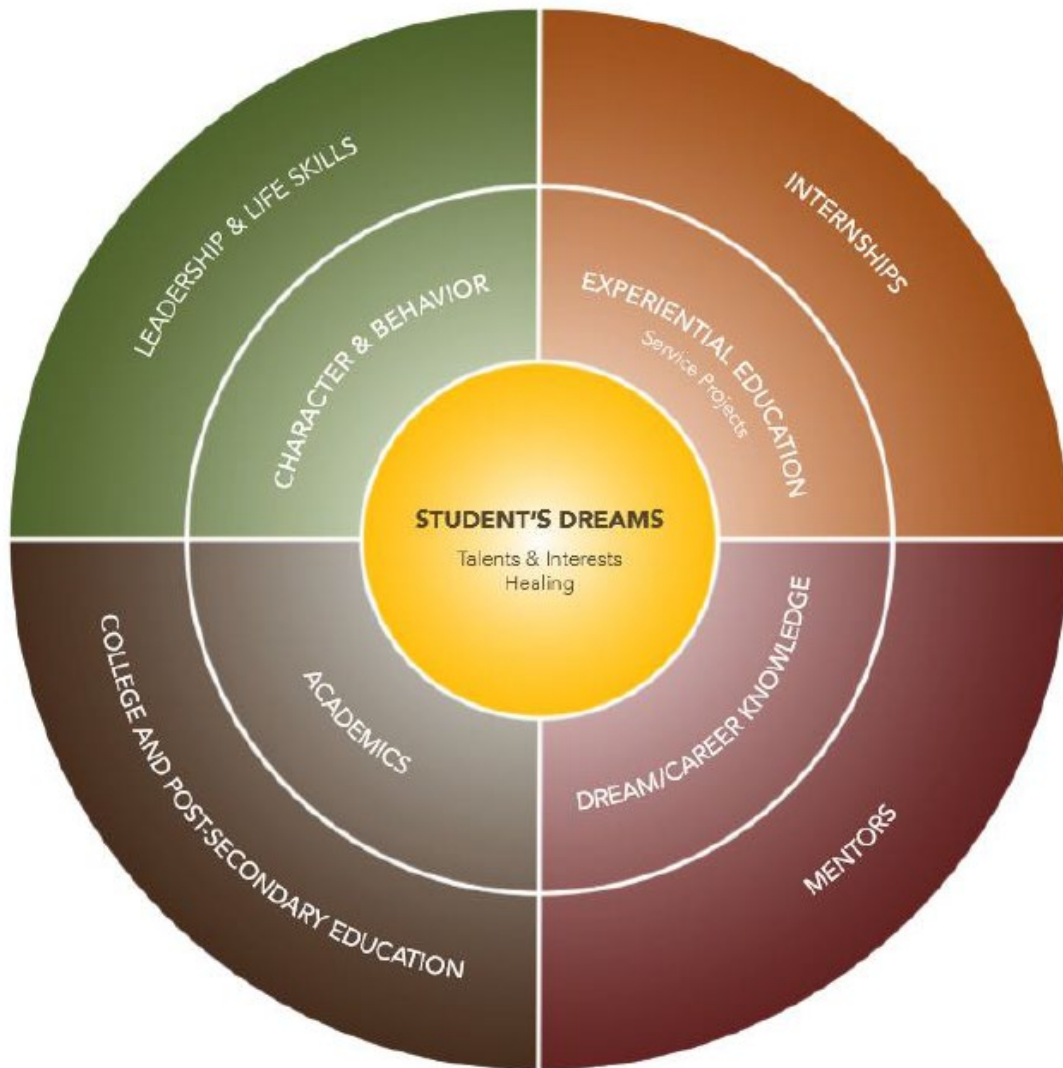

Watch Daniel Armstrong Unlock Students' Potential.

HOW FIND A TREE SUPPORTS STUDENT ACHIEVEMENT

FIND A TREE APPROACH	IMPACT	RESULTS
Instill a dream	Students want to learn	Higher academic achievement and graduation rates
Heal from traumatic life experiences	Students focus on school and not their pain	Better attitudes towards teachers, peers, and school in general
Discover each child's talent and interests	Students develop possible career goals and areas for study in college	Students become college and career ready
Motivate by connecting academics to students' dreams	Student engagement and desire to learn improves	Students take ownership of education
Engage students with dream-related service projects and internships	Improved attitudes, motivation, engagement and self-confidence	Students learn practical life skills
Education: the pathway to students' dreams	School is viewed as place to help them	Higher academic achievement and graduation rates

FIND A TREE EDUCATION MODEL
