596 OVERTIME

Education Code 45127

The workweek of a classified employee, as defined in Section 45103 or Section 45256, shall be 40 hours. The workday shall be eight hours. These provisions do not restrict the extension of a regular workday or workweek on an overtime basis when such is necessary to carry on the business of the district. Nothing in this section shall be deemed to bar the district from establishing a workday of less than eight hours or a workweek of less than 40 hours for all or any of its classified positions.

Notwithstanding the provisions of this section and Section 45128, a governing board may, with the approval of the personnel commission, where applicable, exempt specific classes of positions from compensation for overtime in excess of eight hours in one day, provided that hours worked in excess of 40 in a calendar week shall be compensated on an overtime basis. Such exemption shall be applied only to those classes which the governing board and personnel commission, where applicable, specifically find to be a subject to fluctuations in daily working hours not susceptible to administrative control, such as security patrol and recreation classes, but shall not include food service and transportation classes.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

Education Code 45128

The governing board of each district shall provide the extent to which, and establish the method by which ordered overtime is compensated. The board shall provide for such compensation or compensatory time off at a rate at least equal to time and one-half the regular rate of pay of the employee designated and authorized to perform the overtime.

Overtime is defined to include any time required to be worked in excess of eight hours in any one day and in excess of 40 hours in any calendar week. If a governing board establishes a workday of less than eight hours but seven hours or more and a workweek of less than 40 hours but 35 hours or more for all of its classified positions or for certain classes of classified positions, all time worked in excess of the established workday and workweek shall be deemed to be overtime. The foregoing provisions do not apply to classified positions for which a workday of fewer than seven hours and a workweek of fewer than 35 hours has been established, nor to positions for which a workday of eight hours and a workweek of 40 hours has been established, but in which positions employees are temporarily assigned to work fewer than eight hours per day or 40 hours per week when such reduction in hours is necessary to avoid layoffs for lack of work or lack of funds and the consent of the majority of affected employees to such reduction in hours has been first obtained.

For the purpose of computing the number of hours worked, time during which an employee is excused from work because of holidays, sick leave, vacation, compensating time off, or other paid leave of absence shall be considered as time worked by the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

Education Code 45129

When compensatory time off is authorized in lieu of cash compensation, such compensatory time off shall be granted within 12 calendar months following the month in which the overtime was worked and without impairing the services rendered by the employing district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

Education Code 45130

Notwithstanding the provisions of Sections 45127 and 45128, a personnel commission, when applicable, or a governing board of a school district may specify certain positions or classes of positions as supervisory, administrative, or executive and exclude the employees serving in such positions and the positions from the overtime provisions.

To be excluded from such overtime provisions, the positions or classes of positions must clearly and reasonably be management positions. In approving positions or classes of positions for exclusion from the overtime provisions, the personnel commission, when applicable, or the governing board of a school district shall certify, in writing, that the duties, flexibility of hours, salary, benefit structure, and authority of the positions or classes of positions are of such a nature that they should be set apart from those positions which are subject to the overtime provisions, and that employees serving in such excluded positions or classes of positions will not be unreasonably discriminated against as a result of the exclusion.

Notwithstanding the provisions of this section, if a person serving in an excluded position is required to work on a holiday, as provided for in this code, or by action of a governing board, he shall be paid, in addition to his regular pay for the holiday, compensation, or given compensating time off, at a rate not less than his normal rate of pay.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.
