# Introduction

The Los Angeles Unified School District (District) is committed to supporting schools and offices as they work to maintain a safe and caring learning and working environment. School and office administrators have a responsibility to document and report incidents which occur on or near District facilities or involve District students, employees, and the school community so that they can be addressed in a timely and accurate manner.

The District's Incident System Tracking Accountability Report (iSTAR) is an improved and upgraded version of the previously released Incident Reporting System first introduced on April 1, 2010. It is the Districtwide electronic tool for documenting and reporting incidents which occur on or near District schools and sites. Accurate reporting enables Educational Service Center, Central Office and other responders to mobilize efficiently and effectively provide appropriate resources to address incidents and provide follow-up support to schools, offices, and affected individuals. It provides a common framework in which staff from various divisions can work together effectively to provide a standardized response and assistance. The system is also intended to reduce potential miscommunication. Since its first release in 2010, the system has been upgraded and improved to capture more specific incident information and produce more accurate and meaningful data to find similarities in incidents or problems so that divisions can develop solutions and strategies to address the issue(s) or improve the response process(es).

The 2011-2012 iSTAR Annual Report illustrates that the implementation of the on-line system expanded our understanding of the factors that contribute to school and office incidents and safety challenges and trends. The Office of School Operations collaborated with District divisions and various agencies to immediately implement several procedural improvements and initiatives which successfully contributed to the noticeable decrease in the occurrence of several incident categories. The iSTAR system produces reports that provide important data that elucidates why and how incidents occur, thus providing data-driven decision-making related to the effective use of limited resources and process improvements so that LAUSD can continue to keep our campuses safe and secure.

The Office of School Operations acknowledges the contribution and dedication of principals, administrators and staff members for their continued work in keeping LAUSD safe.

Michelle King  
Senior Deputy Superintendent, School Operations

Philip Chang-Chien.....	<i>Web Architect</i>
Pablo Miramontes.....	<i>Sr. Program Analyst</i>

# Key Points

The mission of the Office of School Operations is to ensure that every LAUSD site receives support and guidance toward creating and maintaining a safe and caring environment that supports learning and achievement. One of our goals is to create and improve on-line data systems to increase accuracy and use of data to strategically plan operational improvements.

The iSTAR system was developed to electronically document and access electronic data for information and data reporting. School Operations continues to work with other divisions to merge reporting tools related to incidents. LAUSD needs accurate school safety and security data for:

- School improvement.
- Program evaluation and planning.
- Resource allocation.
- Mandated state and federal reporting requirements.

The Principal at a school and office site administrator has the responsibility to report incidents through iSTAR. The system captures specific incident information with some data limitations due to the following:

1. Not all incidents are reported.
2. Reporters incorrectly categorize incidents.
3. Incidents are reported with incomplete information.
4. Various independent reporting tools (i.e., School Police, M&O, Transportation, Facilities, etc.).

# Summary at a Glance

- Total number of incidents reported: **21,945**
- Top 5 issue types reported see below
- Detailed analysis and focus of 2011-2012 Annual Report (\*)
- Decrease in incident reports for 6 issue types as a result of new programs and initiatives (page 5)
- **61%** increase in total number of incident reports from 2010-2011 as a result of system awareness and school use of the on-line system

TOP 20 ISSUE TYPES REPORTED 2011/12 SCHOOL YEAR	TOTAL PER INCIDENT TYPE
Injury	4,288
Accident	3,788
Medical	1,950
Assault/Battery	1,067
Bullying *	1,030
Suicidal Behavior *	911
Sexual Behavior – Inappropriate *	899
Inappropriate Conduct	842
Harassment *	729
Possession of Weapons *	602

## LEGEND:

Numbers  
Decreased

Percentage  
of increase  
< 50%

Percentage  
of increase  
> 50%

\*Due to multiple coding these reported issues will exceed the number of unique incidents.

# REPORTS

The **decrease** in iSTAR reports of the following issue types can be attributed in part to programs and initiatives that were put into place during the 2010/11 school year.

- Burglary
- Vandalism/Property Damage
- Weapons-Shooting
- Theft

ISSUE TYPE	2010 – 2011	2011 – 2012	DECREASE
Burglary	311	265	-15%
Vandalism/Property Damage	184	135	-27%
Shooting	80	54	-33%
Theft	135	56	-59%

The following initiatives successfully contributed in the continuous decline in incidents reported for the issue types mentioned above:

- Information Alert Communication to administrators regarding activation and deactivation of the intrusion alarm system
- E-mail reminders to site administrators regarding the activation and deactivation of the intrusion alarm system
- Ongoing collaboration with School Police, Facilities Division, LCW and ITD to ensure the proper functioning and use of the school intrusion alarm systems
- Updated Bulletin 5460.0 – Accessing and Securing Sites During School Hours, Non-School Hours, and Holiday Breaks to include procedures and checklists for accessing and closing a school site
- Revised and updated various District Bulletins

# REPORTS

In 2011-2012, School Operations reviewed the following issues reported through the iSTAR system and have included detailed analyses in this report.

Arrests

Bullying

Burglary

Harassment

Possession of Illegal/  
Controlled Substance

Sexual Behavior-  
Inappropriate

Suicidal Behavior

Possession of Weapons

We are also including a special report on the Random Metal Detector pilot program.

# REPORT - Arrest

In reviewing the **601** reports of arrests selected as issue type, we found the following:

- 88% of suspects arrested were students (A total of 706 individuals were reported in iSTAR for arrest.)
- The second highest percentage (7%) of arrests were of Others, or persons unrelated to the school or District.
- Employee arrests accounted for almost 5% of the total.

PERSONS INVOLVED	TOTAL
Student	619
Other	46
Employee	35
Parent	6
<b>TOTAL</b>	<b>706</b>

Of the **student arrest** reports in which the charges were specified, the top **5** charges were:

- possession of a knife
- assault & battery
- possession of an illegal or controlled substance
- robbery and
- possession of weapons – other.

Of the **35** reports of **employee arrests**

- **16** were certificated
- **17** were classified
- **2** were misidentified as suspects of crimes and not arrested
- **9** of the arrests were related to inappropriate conduct with minors – from felony child annoyance to lewd acts on a child.

**Parents** were arrested for the following charges:

- **2** - Disruptive presence
- **1** - Making threats & gun possession
- **1** - Possession of weapon on campus
- **1** - Assault/Battery
- **1** - Violation of a restraining order

# REPORT - Bullying

## TOGETHER WE STAND UP AGAINST BULLYING!

YOU  
CAN MAKE A  
DIFFERENCE

Los Angeles Unified School District  
Office of the Superintendent

SCHOOL OPERATIONS  
Human Relations, Diversity & Equity

(213) 241-5337

The iSTAR  
system tallied  
**1,030** issues  
associated with  
**bullying.** Double

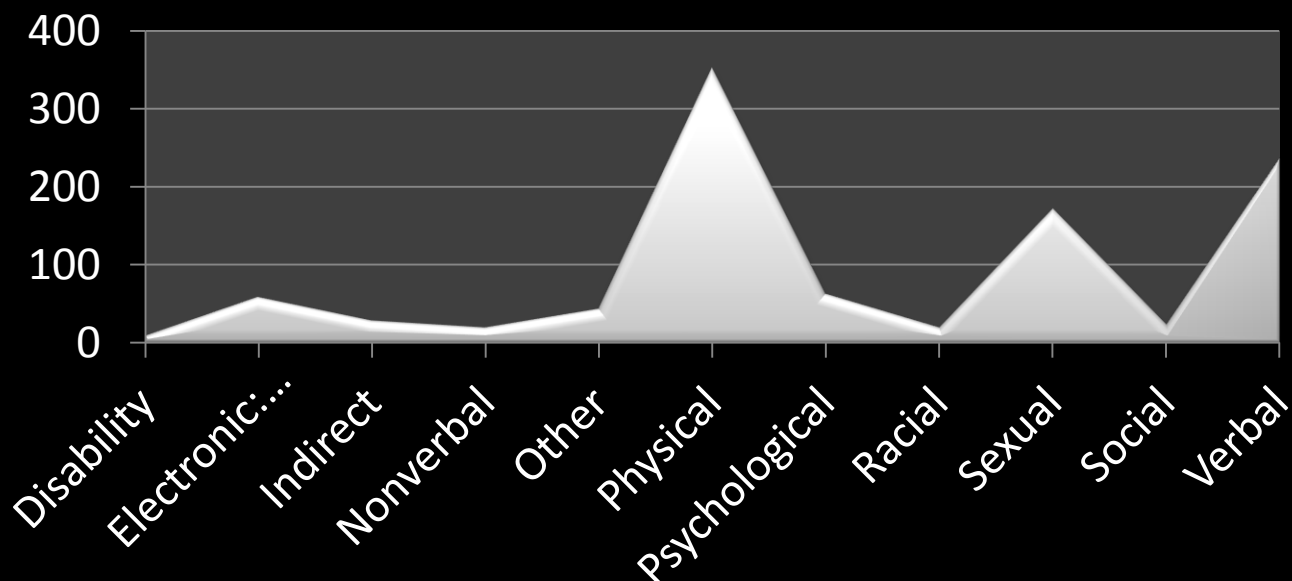

coding (e.g., bullying that is  
both verbal and physical) results  
in double counting of some  
incidents.

Type	Issues Reported
Disability	9
Electronic: cyber-bullying/Sexting	59
Indirect	29
Nonverbal	20
Other	44
Physical	352
Psychological	63
Racial	20
Sexual	172
Social	24
Verbal	237
<b>TOTAL</b>	<b>1030</b>

Of the 1,030 issues reported, 816 were unique incidents of bullying. Approximately 232 incidents occurred among adults (parents, employees and community members), 81 incidents occurred off campus.

Of the 584 incidents of student:student bullying, 86% occurred on campus or on the bus. Physical bullying was the most frequently reported form of bullying (57%), followed by verbal bullying (55%) and sexual bullying (27.8%).

## Reports by Issue Type

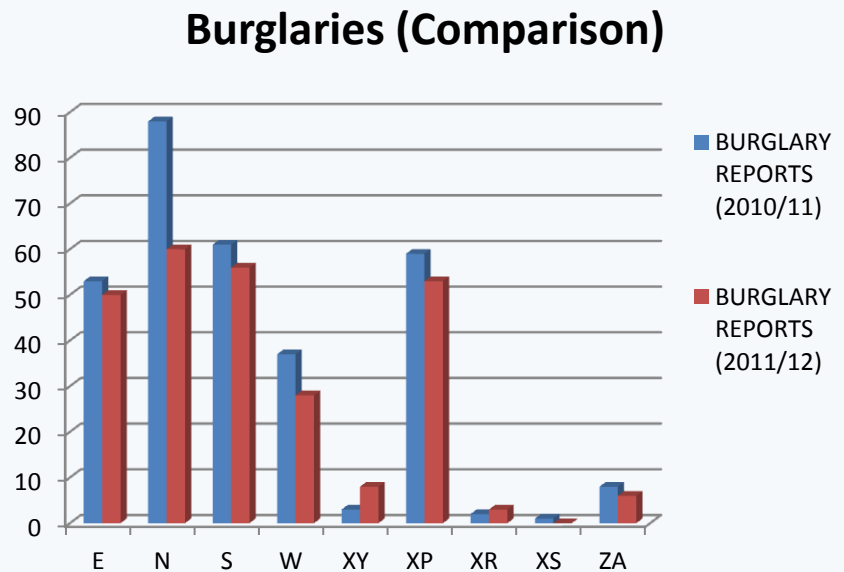

# REPORT - Burglary

In 2010, the first year iSTAR was released, we saw an upward trend in burglaries and vandalism on school campuses. School Operations reviewed the reports and in response implemented several programs and initiatives.

In comparing the data for 2010-2011 and 2011-2012, a 15% decrease in burglaries was seen Districtwide.

ESC	BURGLARY REPORTS (2010/11)	BURGLARY REPORTS (2011/12)
E	53	50
N	88	60
S	61	56
W	37	28
XY	3	8
XP	57	53
XR	2	3
XS	1	0
ZA	9	6
Grand Total	311	264

**A 15% decrease** in burglaries was seen District-wide.

**In working with various units and informing Principals of the school burglary incidents, School Operations implemented the following programs and initiatives:**

- District Intrusion Alarm Committee
- Intrusion Alarm Activation information to Principals
- Monthly e-mail reminders to schools referencing – Bulletin 5460.0 – Accessing and Securing Sites During School Hours, Non-School Hours, and Holiday Breaks
- Increased LASPD patrols of sites during non-school hours and reporting of unsecured sites in iSTAR. *(208 of the 481 reports of 'Other' issues were about unlocked doors, gates, windows, etc. at schools leading to the addition of 'Unsecured Access to School Site' to the iSTAR list of issue types.)*

# REPORT – Harassment

**Employees** constituted almost **23%** of individuals involved in harassment incidents. Of the **729 total** reports of harassment, employees accounted for **29%** reported as suspects.

**Students** made up roughly **70%** of all individuals involved in incidents of harassment. Of the **729 total** reports of harassment, students accounted for **85%** reported as victims.

■ Student  
■ Employee  
■ Parent  
■ Other

Persons Involved	Student	Employee	Parent	Other
Victim	496	80	6	1
Suspect	265	137	40	32
Witness	109	62	4	3
Grand Total	870	279	50	36

## Harassment Types by ESC

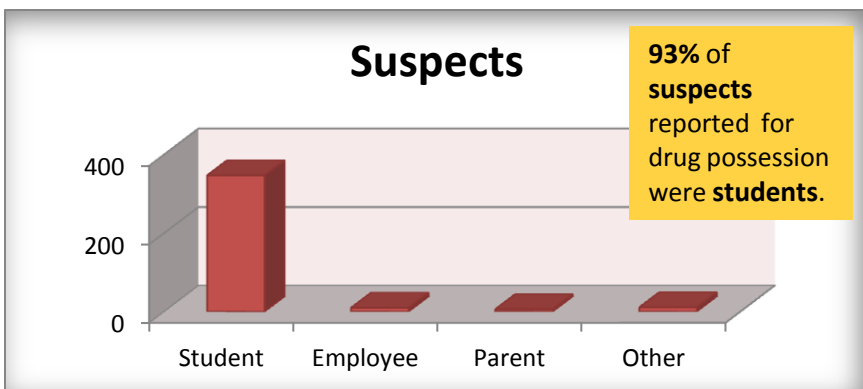

TYPE	EDUCATIONAL SERVICE CENTERS / OFFICE							
	E	N	S	W	X	XP	XS	ZA
Other	24	60	17	27	3	22	0	1
Physical	23	84	55	65	4	33	0	6
Verbal	38	104	47	54	14	40	1	6
Grand Total	85	248	119	146	21	95	1	13

# REPORT — Possession of illegal controlled substance

A total of 363 incidents were reported for possession of illegal controlled substance.

TYPE OF DRUG REPORTED	E	N	S	W	XP	XP	XR	XS	ZA	Grand Total
Alcohol	6	25	5	17	3	12			1	68
Cigarette	1	5	2	4	2	1				15
Drugs	4	13	8	7	1	9				41
Ecstasy		3				1				4
Marijuana	16	57	21	44	4	28	1	2	3	175
Methamphetamine	6	4	1			1		1		13
Other	5	17	10	8	1	9				47
Grand Total	38	124	47	80	11	61	1	3	4	363

In reviewing the reports submitted as **possession of illegal controlled substance – OTHER**, we found that **Drug Paraphernalia** accounted for the majority of the reports submitted.

SUSPECT	Total
Student	347
Employee	10
Parent	6
Other	11
Grand Total	374

Classified as 'Other'	Number of Reports
Paraphernalia	12
Inhalant abuse	10
Unidentified organic substance	4
Hashish or hashish oil	3
Unspecified pills	3
Psilocybin mushrooms	3
Tobacco product	3
NOT STATED	2
OTC Drug	2
Unidentified prescription medication	2
Adderall	1
Ambien container	1
Drug arrest (Heroin)	1
Hells Bells drink	1
Oxycontin	1
Spice	1
Unidentified drugs	1
Grand Total	51

**Inhalant abuse** (commonly known as huffing) was second. **Computer cleaner** was specified as the inhalant in 8 of the 10 reports of inhalant abuse.

# REPORT — Sexual Behavior-Inappropriate

A total of **899** issues of Sexual Behavior-Inappropriate were reported in 2011-2012 SY.

**Sexual Behavior-Inappropriate** - Inappropriate sexual behavior or sexual practices or sexual activities refers to the manner in which humans experience and express their sexuality. Incidents of this type, such as sexual assault, sexual battery, sexual relations with children, voyeurism, exhibitionism or other inappropriate sexual behavior, etc., may involve students, employees, parents or other individuals. Allegations of this type of behavior are taken seriously and are addressed using applicable federal, state and district laws, policies, rules and procedures.

## SEXUAL BEHAVIOR - INAPPROPRIATE

Persons Involved	Student	Employee	Parent	Other
Suspect	432	115	5	63
Victim	832	25	5	4
Witness	135	55	10	2
<b>Grand Total</b>	<b>1399</b>	<b>195</b>	<b>20</b>	<b>69</b>

## ON CAMPUS INCIDENTS ONLY

Persons Involved	Student	Employee	Parent	Other
Suspect	368	96	1	10
Victim	565	20	1	2
Witness	112	45	3	0
<b>Grand Total</b>	<b>1045</b>	<b>161</b>	<b>5</b>	<b>12</b>

Sexual Behavior – Inappropriate	District Office	District School Bus/Vehicle	Off Campus	On Campus	Grand Total
Exhibitionism		3	87	83	173
Incest			6	1	7
Other	1	8	121	413	543
Pornography			10	35	45
Rape			35	9	44
Sexual relationship with children		1	32	40	73
Voyeurism			5	9	14
<b>Grand Total</b>	<b>1</b>	<b>12</b>	<b>296</b>	<b>590</b>	<b>899</b>

Many of the reports of 'Other' (inappropriate sexual behavior) were further descriptions of another issue type (i.e. Exhibitionism, and Pornography). The majority of the remaining reports were of **student-on-student sexual battery (total of 43 incidents)**. The second most reported incident was of **student-on-student inappropriate touching (total of 18 incidents)**.

# REPORT — Suicidal Ideation/Behaviors

Suicide is preventable. While the path that leads to suicidal behavior is long and complex and there is no “profile” that predicts suicidal behavior with certainty, there are certain risk factors and warning signs associated with increased suicide risk such as:

- history of depression
- access to weapons
- isolation or situational crises

It is important to be vigilant for the warning signs of suicide and take action by intervening appropriately.

PERSONS INVOLVED	Student	Employee	Parent	Other	Grand Total
Victim	644	25	4	6	679
Witness	47	108	9	9	173
Grand Total	691	133	13	15	852

## FEMALE

PERSONS INVOLVED	Student	Employee	Parent	Other	Grand Total
Victim	305	14	3	1	323
Witness	32	69	7	6	114
Grand Total	337	83	10	7	437

**47.6%** of all those who exhibited suicidal behavior were female.

## MALE

PERSONS INVOLVED	Student	Employee	Parent	Other	Grand Total
Victim	339	11	1	5	356
Witness	15	39	2	3	59
Grand Total	354	50	3	8	415

**52.4%** of all those who exhibited suicidal behavior were male.

# REPORT - Weapons

Although the total number of iSTAR reports increased by **61%**, reports of weapons only went up **1%**.

Type of Weapon	E	N	S	W	XY	XP	XR	XS	ZA	Site closed
Bomb	0	2	0	0	0	1	0	0	0	0
Firecracker	4	0	0	5	0	2	0	0	0	0
Gun	6	9	6	12	1	18	0	1	2	0
Imitation weapon	14	16	5	9	0	6	0	0	1	0
Knife	55	78	58	50	6	100	6	2	3	2
Other	22	30	16	27	1	26	0	0	1	1
Grand Total	101	135	85	103	8	153	6	3	7	3

The top five **'Other'** weapons were

1. brass or metal knuckles (19)
2. lighters (14)
3. razor blades (11)
4. scissors (10)
5. BB guns (9)

Other items used as weapons ranged from taser devices and box cutters to pepper spray, utility tools, rocks, bricks, and bats.

PERSONS INVOLVED	Employee	Other	Parent	Student	Grand Total
Suspect	6	27	2	565	600
Victim	13	1		159	173
Witness	42		2	98	142
Grand Total	61	28	4	822	915

**94.2%** of all suspects were students.

Almost **60%** of all weapons reported were **knives**. Reports of knives increased by almost **29%** over last year.

School Operations continues to monitor the high number of incident reports for weapons on or near campus and launched an awareness campaign using various posters sent to secondary schools.

As part of awareness campaign, School Operations also implemented the Random Metal Detector Search pilot program. A more detailed information of the pilot program is on the next page.

LOS ANGELES UNIFIED SCHOOL DISTRICT  
Office of the Superintendent – School Operations

## RANDOM METAL DETECTOR SEARCH PILOT PROGRAM

### DATA SUMMARY

Data from the Incident System Tracking Accountability Report (iSTAR) system for **2010-2011** indicates **447** incidents in which students were found to be in possession of weapons. **32%** of all arrests at school sites were in this category. Of these arrests, **20%** were for possession of a knife on school grounds.

Data from the Incident System Tracking Accountability Report (iSTAR) system for **2011-2012** indicates **619** incidents in which students were found to be in possession of weapons. **79%** of all arrests at school sites were in this category. Of these arrests, **28%** were for possession of a knife on school grounds.

A comparison of data from 2010-2011 and 2011-2012 indicates that possession of weapons on campus only increased overall by 1% from the prior year. However, there has been an 8% increase in arrests for knives being brought onto school campuses by students from the prior year. It is important to note that not all incidents of weapon possession necessarily resulted in arrest of the suspects.

During the past two years, district schools have experienced some serious incidents with weapons on campus such as Gardena SH in spring 2011 and South East HS in fall 2011.

Data from the pilot schools indicates that district wide the secondary schools conduct daily random metal detector searches with 3% to 7% of the secondary student population.

### PILOT SCHOOLS

In order to have a diverse sampling of different secondary school types, a group of 20 secondary schools was selected to participate in the Random Metal Detection Search Pilot Program for 6 weeks: one middle school and one high school from each Local District, two iDesign schools, one option school, and one continuation school. In addition to this group, each local district operations coordinator selected additional schools from his/her local district to monitor and to include in the data sampling.

### PILOT PROGRAM DATES

Pilot Group#1 (34 schools): December 5, 2011 – February 3, 2012

Pilot Group#2 (41 schools): February 13, 2012 – March 23, 2012

Pilot Group#3 (22 schools): April 9, 2012 – May 18, 2012

### DATA FROM PROJECT

- o Average percentage of school student population searched – 7.24%
- o Average percentage of elementary school students searched – 9.31%
- o Average percentage of middle school students searched – 3.12%
- o Average percentage of high school students searched – 7.31%

### FINDINGS

- o Multiple instances of controlled substances (marijuana, alcohol) found on students when searches were conducted
- o Most pilot schools appeared to be conducting searches on a frequent or daily basis
- o Most pilot schools were able to produce required search documentation.

### DATA STUDY CORRELATION

36 total weapons were logged throughout the pilot program (all three groups). Three of eight knives found in administrative searches in pilot program were reported in iSTAR. No other recovered weapons were reported.

LOS ANGELES UNIFIED SCHOOL DISTRICT  
Office of the Superintendent – School Operations

## RANDOM METAL DETECTOR SEARCH PILOT PROGRAM

### PILOT STUDY RECOMMENDATIONS FROM DATA AND FINDINGS

Although secondary schools appear to be adhering to the policy by conducting daily random metal detector searches, schools must continue to be vigilant in conducting searches to deter the bringing of weapons such as guns, knives, or any other item which might cause harm or injury onto school property.

As part of the District's new on-line Administrator's Certification System, secondary administrators will be required monthly to certify electronically that the school site has conducted daily random metal detector searches. Schools will be required to maintain documentation logs of the searches conducted.

Educational Service Center Operations Coordinators will regularly audit the secondary schools in their assigned complexes to ensure that schools are adhering to the policy.

The Office of School Operations will work with Educational Service Centers to distribute safety posters and other materials that advise students of the legal and disciplinary consequences of bringing weapons onto campus.

The Office of School Operations will continue to provide online training through its STEPS course on how to conduct random metal detector searches for continuing and new school administrators and support staff.

### USE OF DATA FOR PROCESS IMPROVEMENT

The new monthly Random Metal Detector Search Certification will provide additional data that can be correlated during audits with individual school's documentation of the searches. The Office of School Operations will continue to use iSTAR final data, reports from the Administrator's Certification system, and search audits to make recommendations on developing additional guidelines and procedures for schools in conducting daily random metal detection searches.

**SOURCE: LAUSD iSTAR Report July 1, 2011 - June 30, 2012**
