PURPOSE: The purpose of this reference guide is to provide details for managing records at school sites, as well as provide a retention schedule listing records typically found at school sites. This reference guide is governed by policy BUL-6825.0 Records Retention and Destruction.

MAJOR CHANGES: This is a new reference guide.

- INSTRUCTIONS:**
- I. Background**
Title 5 of the California Code of Regulation Section 16022 and BUL-6825.0 require that school district records be reviewed on an annual basis and classified as Permanent, Optional, or Disposable. Disposable records should be deleted or destroyed after they have met their retention requirements. The attached Records Retention Schedule provides guidance for how long records should be retained before they can be destroyed.
 - II. Automated Record Keeping Systems**
Many of the District’s records that require permanent retention are currently managed in automated systems such as MiSiS, Welligent, or SAP. Records generated or received at the school site may provide supporting documentation to these systems, as inputs, or even digitized content. While these records supplement the permanent records of the system, the supporting records themselves often may be considered

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

Disposable records that can be destroyed after they have met their retention requirements.

III. Non-Records

Unless subject to a legal hold, Non-Records such as convenience copies, drafts, or personal notes do not need to be retained; they can be disposed of immediately whenever they are of no use to the school site (See BUL-6825.0 for more information on non-records).

IV. Information Protection

Records at a school site containing “Protected” or “Non-Public” information must be handled accordingly. Any records with personal information, health information, pupil information or employee information should never be left unprotected and should be shredded or otherwise made irretrievable when deleted or destroyed (See BUL-1077.2 for more information on Information Protection).

V. Legal Holds

At times certain documents and records may be subject to litigation. Legal holds always supersede any retention requirements and the documents should be retained until you are notified that the hold has been closed and the records can once again be deleted or destroyed in accordance with the retention schedules.

VI. Records Retention Schedule

A Records Retention Schedule is a list of records types created, received, or maintained and the length of time they must be retained to meet legal, operational, and historic obligations. Typically records that have met their retention requirements are no longer needed and can be destroyed.

VII. LAUSD Records Retention Schedule – Common Records for School Sites

Attached to this reference guide is a Records Retention Schedule for records commonly maintained at school sites. The records and retentions listed apply only to those records found in school sites. Other offices and divisions within the District may be also responsible for retaining these records for a longer period of time to meet their legal, regulatory, and operational requirements. The Records Retention Schedule lists the following information:

- **Title/Description** - The name of the record as well as details about the record type including other offices or divisions that may have jurisdiction over the particular record.

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

- **Classification** - Whether the record is Class 1 Permanent, Class 2 Optional, or Class 3 Disposable.
- **Retention** - The minimum length of time the record must be kept after it has been created, received, or finalized. Records organized and associated by school year should apply the retention to the school year as a whole, so that records from the 2012-2013 school year with a 5-Year retention could be safely deleted or destroyed at the conclusion of the 2017-2018 school year.

Questions about the Records Retention Schedule can be addressed to the Records Manager.
