Everyone has a Special Role in the Los Angeles Unified School District
Integrated Pest Management Program

Integrated Pest Management at schools and district sites can be simply summarized as follows:
Don't let them Eat, Drink, Hide Out, and Don't Let Them Come In.

We **CAN** reduce the need for chemicals for pest control at schools and districts sites if we do not provide pests easy access to our facilities daily. Please assist Pest Management staff in reducing pest problems at school and district sites by doing your part and helping to pass this information on to others.
